Feet From East Line of Section
16, T-18-S, R-35-E
South Vacuum Devonian Field
Lea County, New Mexico

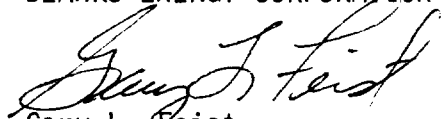

Gentlemen:

Blanks Energy Corporation has applied for a permit from the New Mexico Oil Conservation Commission to drill the subject development well at an unorthodox location. The field rules for the South Vacuum Devonian Pool require that all wells be located within 150 feet of the center of either quarter-quarter section of the 80-acre unit. The subject well's proposed location will be 300 feet from the center of the SW/4 of the SE/4 of Section 16. The New Mexico Oil Conservation Commission has set a hearing date of July 25, 1984 to consider our proposal.

Please consider the proposed location relative to your acreage and respond accordingly to the statements below.

Sincerely,

BLANKS ENERGY CORPORATION

Gary L. Feist
Vice President - Engineering

X We have no objection to the proposed location.

 We oppose the proposed location and plan to voice our opposition at the hearing.

Dear Mr. Feist:

Perry R. Bass has no objection to the proposed location of your Arco State No. 2 well located 330 feet from the south line and 2000 feet from the east line of Section 16, T18S, R35E, Lea County, New Mexico. However, this waiver is granted by the undersigned provided the party or parties seeking the non-standard location by acceptance of this waiver do hereby agree that the said undersigned may drill on offsetting well at a like non-standard location without penalty if the said undersigned deems the drilling of such a well necessary to protect correlative rights.

Yours very truly,
