A 1 2 MR. STOGNER: The hearing will 3 come to order. 4 will call now Case Number 5 P468. 6 MR. TAYOR: The application of 7 Damson Oil Corporation for certain findings for an infill well in San Juan County, New Mexico. 9 MR. STOGNER: I will now call for appearances. 10 MS. AUBREY: Karen Aubrey, Kel-11 lamin and Wellahin, representing the applicant, Damson Gil 12 Corporation. 13 I have one witness to be sworn. 14 MR. HALL: Mr. Examiner, my 15 name is Scott Hall from the law firm of Campbell and Black, 16 appearing on behalf of Crown Central Petroleum Corporation and Consolidated Oil and Gas in Case 8468 alone. 17 No witnesses. 18 MR. STOGNER: Mr. Scott, may I 19 ask what Crown Central and Consolidated, how they are con-20 nected with this case? 21 MR. HALL: Yes, Mr. Examiner. 22 Crown Central is appearing to 23 oppose the application to the limited extent that Damson as-24 any operating rights in the property subject to the

application.

Ξ, 1 MR. STOGNER: Are they 2 working interest owner or are they objecting? 3 MR. HALL: They are in fact 4 operator of the property which has been farmed out to Texaco 5 and Getty. 6 MR. STOGNER: Thank you. How 7 about Consolidated? 8 Consolidated MR. HALL: is a 9 working interest owner. MR. STOGNER: Okay, that's suf-10 ficient. 11 Okay, any more appearances? 12 MR. NANCE: Examiner, my Mr. 13 name is John Nance. I'm appearing on behalf of El Paso Nat-14 ural Gas Company. 15 El Paso has a working interest 16 in the well that is the subject of Case Number 3463, New 17 Mexico Federal State No. 1-E Well. Paso's working interest $\mathbf{E}\mathbf{1}$ 18 being sold intrastate, similar to the interest of Damson. 19 and El Paso supports the application for exemption. 20 STOGNER: MR. Any -- any more 21 appearances? 22 MR. CARR: May it please the 23 Examiner, my name is William F. Carr with the law firm Camp-24 bell and Black, P. A., of Santa Fe.

1'm appearing on behalf of Get-

Ty Oil Company and Texaco, Inc.

I have one witness.

MR. STOGNER: Okay, Mr. Carr,

Getty Oil Company is indeed the operator, is that right?

MR. CARR: Yes, that's right.

Cetty is, and has been, the operator of the well.

Of course, Getty has been taken over by Texaco and my witness is a former Getty employee who is now with Texaco.

MR. STOGNER: Okay, so the way this was advertised as Gotty Oil Company (Texaco, Incorporated) in the operator.

MP. CARR: And 1 believe that's -- that's sufficient. I'm not certain what the C-104 states but the well has been operated by Getty, was drilled by Getty, and the records that have been reviewed are Getty records but they are now in the possession of Texaco.

MR. STOGNER: Thank you, Mr.

Carr.

Are there any further appear-

ances in 8468?

Ms. Aubrey?

MS. AUBREY: Mr. Examiner, at this time I'd move that 8468 and 8469 be consolidated for purposes of the testimony.

MR. STOGNER: Are there any objections to consolidating for purposes of testimony Cases

1	7		
2	8468 and 8469?		
3	There being none, so at this		
4	time we will now call Case Number 8469.		
5	MR. TAYLOR: The application of		
	Damson Oil Corporation for certain findings for an infill		
6	well in San Juan County, New Mexico.		
7	MR. STOGNER: We will call for		
8	appearances in this case.		
9	MS. AUBREY: Karen Aubrey, Kel-		
10	lahin and Kellahin, representing the applicant, Damson Oil		
11	Corporation.		
12	MR. CARR: May it please the		
13	Examiner, my name is William F. Carr with the law firm Camp-		
14	bell and Black, P. A., of Santa Fe, appearing on behalf of		
15	Mesa Petroleum Company.		
	MR. STOGNER: Mr. Carr, is Mesa		
16	Petroleum Company the operator of this well?		
17	MR. CARR: Mesa Petroleum Com-		
18	pany is the operator of this well.		
19	MR. STOGNER: The sole oper-		
20	ator?		
21	MR. CARR: Yes.		
22	MR. STOGNER: Thank you.		
23	MR. CARR: The only operator. MR. STOGNER: And Phillips has		
24	nothing to do with this well, is that right, Mr. Carr?		
25	MR. CARR: At the moment, no.		
	The state has money in		

Carr.

Number 8469?

other appearances in 8469?

MR. STOGNER: Thank you, Mr

Any other appearances in Case

MR. NANCE: Mr. Examiner, on

behalf of El Paso Natural Gas Company I am John Nance.

McLeod Federal No. 2-E Well is that of interstate purchaser of gas produced from the well. We understand that El Paso takes all of the gas produced from the well; that a portion of the gas may be subject to an exchange arrangement with foutnamn union Gathering Company and therefore the gas may not all be the subject of interstate sales contracts, but the actual production does in fact to into El Paso's interstate system.

I needed to mention on both Case 8469 and the previously mentioned 8468, I am associated with the firm of Montgomery and Andrews of Santa Fe, and I will submit letters, copies of a letter to -- to that effect.

aho is available to testify as a witness in either of these cases but at this point we do not know whether his testimony will be necessary.

MR. STOGNER: Are there any

MR. HALL: Mr. Examiner, Scott

that

Is that

23

24

25

dated and Crown Central, pointing out to the Examiner that the unjoined interest owner Amoco has not been provided They have an interest that may be affected. MR. Mr. Hall, you TAYLOR: can't make that motion without being -- without being a party to the case.

1	10
2	MR. HALL: I am a party to the
3	case.
4	MR. TAYLOR: Oh, you are?
5	You're going you're going to appear in 8469, too?
	MR. HALL: 8468. The ownership
6	is virtually identical.
7	MR. TAYLOR: Is it in both
8	wells?
9	MR. HALL: Insofar as Amoco is
10	concerned, insofar as we understand it.
11	MR. TAYLOR: Are they selling
12	Chair gas intrastate or interstate?
	MR. HALL: Amoco Production
13	Company? I'm unaware.
14	MR. TAYLOR: You're unaware.
15	Mr. Carr, do you want to represent Amoco?
16	MR. CARR: May it please the
17	Examiner, we have an application before you where we have
18	are seeking an exemption from the New Mexico Natural Gas
19	Fricing Act for certain of their wells.
20	One well is operated, has been
21	operated by Getty; the other by Mesa.
	Damson is a non-operating
22	working interest owner in each of those wells.
23	I'm here representing the
24	operator. I don't know exactly the nature of Mr. Hall's
25	motion but I have no objection if I understand what he's

any objection?

offering you. I have no objection certainly to lecting any order that results from this hearing apply to all non-operating interest owners in those wells, not just Damson.

That's what I understand, the occurs of Mr. Wall's motion. I have no objection and I suggest that you ask Mr. Nance and Ms. Aubrey.

MR. TAYLOR: Does anyone have

MS. AUBREY: I don't -- I don't be lieve any objection to the other non-operating working unterest owners appearing in this matter, although if I understand in. Hall correctly, he is appearing in opposition to the application in Case 8468.

MR. HALL: Mr. Examiner, if I may clarify, we're appearing in opposition to a limited extent. There is a separate proceeding in the District Court for San Juan County over the issue of operating rights for the Mexico Fed "K" 1-E Well, which is the subject of Case \$463.

We appear solely for the purpose of opposing Damson's application to the extent that they assert operating rights in that property.

MR. TAYLOR: Ms. Aubrey, you are not asserting operating rights, are you?

MS. AUBREY: Mr. Taylor, ws have filed our application for exemption from New Mexico Watural Gas Pricing Act as a non-operating working interest

1.2 1 owner. 2 MR. TAYLOR: Okay. 3 MR. STOGNER: Mr. Hall, would 4 you please repeat your motion again, please? 5 HALL: We would move that MR. 6 any heretofore unjoined affected interest owners in the 7 properties be joined to this proceeding and be made subject 8 to the orders at the end of this proceeding. 9 The only unjoined interest owner we are aware of at this time is Amoco Production 10 Company. 11 MR. TAYLOR: But you don't know 12 what -- how their gas is sold? 13 MR. HALL: I do not. 14 MR. STOGNER: Mr. Hall, your 15 motion will be taken under advisement at this time. 16 MR. TAYLOR: Mr. Hall, do you 17 agree that if we do grant your motion we have to readvertise this? 18 MR. HALL: I think that would 19 be appropriate. 20 MR. STOGNER: Okay, will all 21 the witnesses called -- first of all, is there any more 22 appearances? 23 Okay, will all the witnesses 24 please stand and be sworn? 25

13 (Witnesses sworn.) 2 3 MR. STOGNER: Ms. Auprey. 4 MS. AUBREY: Thank you, Mr. 5 Examiner. 6 May I make a brief opening 7 statement? 8 MR. STOGNER: Please. 9 MS. AUBREY: I was hoping to simplify the matters before the Division this morning. 10 you've heard, Darison is a 11 non-operating working interest owner who is seeking an ex-12 wmption from the provisions of New Mexico Natural Gas Pric-13 ing Act for two wells. 14 is the Mexico Federal One 15 1-8 and the other is the McLeod 2-E. 16 Getty is the operator. Getty/-17 Sexaco is the operator of the Mexico Federal "K" I-B Well. Mesa is the operator of 18 McLeod 2-E Well. 19 We understand that with regard 20

We understand that with regard to the Mesa well, that the Mesa witness who was to be here today to testify as to production, reasons for drilling the well, and the ultimate questions of certification of non-interference of the ability of the old well to produce into the pipeline will not be here because of illness, but will be here within the next two weeks to put on that portion of

21

22

23

24

the testinony with regard to the Mesa well.

We anticipate the testimony today will be directed to the Mexico Federal "K" 1-E Well.

Our witness from Damson, Mr. James Pouncy, is a petroleum engineer who will testify for the record on the issue of Damson ownership and percentage of ownership interest in the -- in the two wells.

We understand that there is a witness here from Cetty/Texaco who will testify for the Commission on the certification issues and the reasons for drilling the Mexico Federal "K" 1-E Well.

Mr. Carr from the firm of Campbell and Black will question that witness and put on that testimony.

It's the position of Damson Oil Corporation that notwithstanding that we have filed an application for exemption from the provisions of the New Mexico Natural Gas Pricing Act, that that filing was purely a protective measure and that the infill wells are exempt by virtue of the blanket infill Order 1670-V.

of Judge Garcia in the GasCo versus Amoco case here in the District Court in Santa Pe, we are seeking a finding from the Commission that the wells in question were drilled in order to develop additional reserves and not for reasons of avoiding the provisions of the New Mexico Pricing Act.

On behalf of Damson Cil Corpor-

exemption from the Act, if it is issued by the Commission, be effective as of the date of first production from each of

> MR. STOGNER: Thank you, Ms.

MS. AUBREY: That's all I have,

Br. Examiner.

the wells.

Aubrey.

MR. STOCNER: Does anybody wise

have any opening statements at this time?

Mr. Nance?

NANCE: Mr. Examiner, El MR.

Paso does in fact support the applications of Damson for exemption of these wells from the provisions of the Natural Cas Pricing Act.

ation we request that the order granting the exception --

El Paso further believes with respect to production from the McLeod Well, that this well may, regardless of -- of the nature of its intrastate sale and the circumstances under which it was drilled as an infill well, that that well may be excluded from the coverage of the Act because the entire production is going into the interstate market in El Paso's system.

I have mentioned briefly before that a portion of the gas is subject to an exchange arrangement with Southern Union and it very well may be that Damson does have an intrastate sales interest in this gas, in its share of production from this well, but that the actual gas

Nance.

at this time, Mr. Examiner.

volumes are going into interstate commerce and that equivalent volumes, then, are being delivered by El Paso to Southern Union at another connection and that in fact these equivalent volumes are the subject of an exchange arrangement.

Given this situation, we feel that the provisions of Section 62-7-4, Paragraph B-2 would provide the basis for excluding the well from the provisions of the Pricing Act irrespective of the infill status of the well.

MR. STOGNER: Thank you, Mr.

Mr. Carr?

MR. CARR: Mr. Examiner, Cetty/Texaco and Mesa concur in the opening statement made by Ms. Aubrey.

We do want it understood that our appearance here is only as a protective measure and that we do not believe and maintain that the wells that are the subject of today's hearing have been exempted from the State Pricing Act by provisions of the infill orders which have been entered for the Basin Dakota Pool.

MR. STOGNER: Mr. Scott Hall?

MR. HALL: I have no statement

MR. STOGNER: Thank you.

Ms. Aubrey, please continue.

MS. AUBREY: Thank you, Mr.

1.7 1 Stogner. 2 3 JAMES R. POUNCEY, 4 being called as a witness and being duly sworn upon his 5 Join, testified as follows, to-wit: 6 7 DIRECT EXAMINATION 8 BY MS. AUBREY: Q Will you state your name, please? 9 James R. Pouncey. 10 And where are you employed, Mr. Pouncey? 11 Α I am employed in Houston, Texas, with 12 manson Oil Corporation. 13 And what's your position with Damson? \bigcirc 14 Manager of Outside Operated Properties. 15 Mr. Pouncey, have you testified previous-16 ly before the Oil Conservation Commission of New Mexico? 17 a No, I have not. For the Examiner would you relate your 18 educational background and your work experience in the oil 19 and gas industry? 20 I graduated in'64 with a BS in petroleum 21 engineering from Louisiana Tech and have worked in the oil 22 and gas industry since that time with Phillips Petroleum, 23 Murphy Oil Corporation, Texas International Petroleum Cor-24 poration and am currently with Damson Oil Corporation, who I

have been with for the last two and a half years.

24

25

Q In connection with your employment with Damson, do you function as a petroleum engineer for Damson?

A My job basically is a management job; however, due to my small department, I do petroleum engineering work, yes.

Q Mr. Pouncey, are you familiar with the applications of Damson Oil Corporation in Cases 8468 and 8469 that are being heard today?

A Yes, I am.

MS. AUBREY: Mr. Examiner, are the witness' qualifications acceptable?

MR. STOGNER: Are there any objections or any questions of Mr. Pouncey?

If not, then I find Wr. Pouncey qualified.

Q Mr. Pouncey, with regard to the New Mexico Federal "K" 1-E Well, the Getty operated well, can you explain to the Examiner when Damson acquired its interest in that well?

A This property came to Damson in February of '83 when we acquired many properties in what we call the Petco acquisition.

The acquisition itself was effective back to December 1 of '82.

Q With regard to the Mesa operated well, the McLeod 2-E Well, when did you -- when did Damson acquire its interest in that well?

1				3.9
2	A We ac	quired it	in the sam	e acquisition,
3	effective December 1, '82	effective December 1, '82.		
4		to that da	te did Dam	son Oil Corpor-
	ation have any interest i	n or conne	ction with	either one of
5	chese two wells?			
6	A To my	knowledge,	no.	
7	Q With	regard to	the Mexic	o Federal 1-F
8	Well, what is Damson's wo	orking inte	rest in th	at well?
9	A Our in	nterest is	6.618 perc	ent working in-
10	terest.			
11	Q And s	with regard	to the Mc	Deod 2-8 Well,
12	What is Damson's working interest in that well?			
	A We have	re an 8.281	working i	nterest.
13		outwhere or	do you kn	ow to whom the
14	production from the New M	lexico F e de	ral l-E We	11 is sold?
15	A Accor	ding to m	y informat	ion the gas in
16	the well is sold under a	contract w	ith Southe	rn Union.
17	Q With r	egard to t	he McLeod	Well, and who
18	the purchase of the gas f	from that w	ell is?	
19	A Also S	Southern On	ion.	
20	Q with r	egard to D	amson's in	terest in those
	- in the two wells, is	Damson's i	nterest an	interstate in-
21	terest or intrastate inte	erest?		
22	A It is	intrastate	•	
23	Q Do you	know whet	her or not	Damson has re-
24	ceived the intrastate pr	ices for p	roduction	from these two
25	5 Wells?			

A I did not check that and I can't say whether or not we have received intrastate pricing.

Q Mr. Pouncey, did you prepare and sign applications for exemption from the provisions of the New Mexico Natural Gas Pricing Act for the McLeod 2-E and for the Mexico Federal "K" 1-E Well?

A Yes, I did.

Q And in preparing those applications and filing them with the Commission, did you, to the best of your ability, review Damson Oil Corporation's records?

A Yes.

© Did Damson have any connection with cotter of these two wells at the time that the wells were drilled?

A No.

Q Has Damson made demand upon the operator of each well, Mesa in the case of the McLeod 2-E Well and Getty in the case of New Mexico Federal "K" Well to assist you in presenting testimony today with regard to the reasons for the drilling of these wells and their production history?

A Yes, we have.

Q And is that because Damson does not in its own records have any information on which to base that testimony?

A That is correct.

MS. AUBREY: Mr. Examiner, I

```
21
    have no more questions.
1
                                  MR. STOGNER: Mr. Nauce, your
2
    WHITTONS.
3
                                  MR. NANCE: No questions,
4
                                  AR. STOGNER: Mr. Carr, your
5
    withess.
6
                                  MR. CARR: No questions.
7
                                  MR. STOGNER: Mr. Hall, your
8
    . itness.
9
                                  MR. HALL: No questions.
10
                         CROSS EXAMINATION
11
    IN ME. (TOXABLE:
12
             9
                       Mr. Pouncey, I have some questions for
13
    rou.
14
                       Sure.
             2.
15
                       Let me make sure I've got this straight.
16
                        In the Mexico Federal 1-P Damson's in-
17
    torest is 6.168 percent working interest?
                       No, it's 61618.
             A
18
                       Then it's 6.1618.
             <u>(</u>)
19
                       No. 6.618 percent.
20
                       Okay, my mistake, sorry. And in the
21
    McLeod?
22
             A
                       3.281 percent.
23
             Q
                       Okay. Now, your interest, the particular
24
    interest is 6.618 and the 3.281 are sold to Southern Union,
25
```

```
1
                                                      22
    is that right?
2
                       Yes.
3
                       Intrastate.
4
                       Intrastate.
5
                       Okay, in the Mexico Federal 1-E, do you
6
    <now who actually received the gas from the wellhead?</p>
7
                        No, I was not aware that it went to El
             A
8
    Paso and there was a later agreement to make some exchange.
9
                       Okay, and the same with the McLeod Well,
    you don't know who --
10
                       No.
11
                       -- actually gets the gas?
12
                       No, I do not.
13
                       Okay. New who did Damson get their in-
14
    torest from?
15
                       This was acquired from Petroleum Corpora-
16
    cion of Texas and effective December 1, '82.
17
                      Okay, did Damson take over Petroleum Cor-
    poration of Texas? Did they buy their interest? What was
18
    the mechanism?
19
                        That acquisition, we did not take over
20
    all of Petco but we purchased practically all of it.
21
    still functioned as a corporation after we acquired. I don't
22
    remember the actual percentage, but I thank around Mb per-
23
    cent of their properties.
24
             \odot
                        But it -- as far as these two wells,
25
    that's when you acquired them, through a bug-out situation.
```

33 1 \bar{A} Yes. 2 Okay. 3 MR. STOGNER: Chay, I have no 4 further questions of Mr. Pouncey. 5 there any other questions Are 6 (this withesa? 7 If not, he may be excused. 8 MS. AUBREY: Mr. Stogner, I believe that Mr. Carr has a witness to put on in connection 9 with Case 8468 and as we stated earlier, we would ask that 10 the record remain open in Case 8469 in order that the Masa 11 withese, who is ill, can appear in two weeks. 12 BR. STOGNER: Okay, so you wish 13 to continue Case Wamber 8469 to the Examiner's Hearing sche-14 doled for April 10th, 1985, is that correct? 15 MS. AUBREY: That's correct, 16 Sit, unless you decide to grant Mr. Nance's motion and find 17 that the well because of the interstate nature of the sale, the well is not subject to the New Mexico Pricing Act. 18 MR. STOGNER: Okay, we'll get 19 to that later. I just want to make sure I've got everything 20 ia on that. 21 Okay, Mr. Carr. 22 MR. CARR: At this time I'd 23 call James W. Hankinson. 24 25

Would you summarize your educational

background for Mr. Stogner, please?

A Okay. I graduated from the University of Oklahoma in 1976 with a Bachelor's degree in petroleum engineering; also done graduate work there at OU in patroleum engineering.

I'm a Registered Professional Engineer in the States of Oklahoma and Wyoming.

Q Would you now review for the Examiner your work experience?

A Okay. I worked in the State of Oklahoma for about five years in Oklahoma City and Duncan, Oklahoma.

Then I worked in Casper, Wyoming, for about three and a half years. My title there was Area Engineer. The responsibilities there included all the engineering design work, et cetera, in production and drilling operations throughout the Rocky Mountains. That would include northwest New Mexico, Colorado, eastern half of Utah, bontana, and the Dakotas.

Q And while working in Oklahoma and in Casper you were employed by Getty Oil Company?

A That's correct. I was with Getty then.

Q Now how long have you been in Denver?

A I've been in Denver about six months.

And do your current duties with Texaco include responsibility for northwest New Mexico?

A Yes, they do. The Farsington District covers -- area of responsibility includes northwest New Nexe

ico, eastern half of Utah, the State of -- the western half of Colorado, and southwest corner of Wyoming, and my responsibilities do include northwest New Mexico, that's correct.

Q Since 1981 your responsibilities have included the drilling of wells in the San Juan Basin?

A That's correct.

And in this job did you become familiar with the procedures followed by Getty in deciding to drill additional wells in northwest New Mexico?

A Yes, I have become familiar.

Ω Are you familiar with the well which is the subject of today's hearing?

A Yes.

A Bave you reviewed Getty's or Texaco's re-

A Yes, I have.

Q Would you identify for Mr. Stogner the wells you've reviewed?

A Okay. I've reviewed the production history for both the "K" No. 1 Well and the "K" No. 1-E Well.
I've reviewed all of our well files in both our District Ofilce and the Division Office there in Denver.

I've also spoken with our production operations personnel in Farmington, New Mexico, who have the actual, hands-on, daily day-to-day reponsibilities for our operating the wells.

MR. CARR: Are the watness'

jections?

MR. STOGNER: Are there any ob-

Mr. Hankinson is so qualified.

© Er. Hankinson, do you happen to know who is assignated operator of this well in the Gil Conservation bivision records?

I believe within the last month and a malf we filed a new I believe it's C-104 form and I believe it's in the hands of Frank Chavez there in Cortez right now, and I colleve Texaco, Incorporated, is listed as operator for Texaco Producing, Incorporated.

Now you stated that you were familiar with the procedures followed by Getty in deciding to daill infill wells in the San Juan Basin.

A Yes.

qualifications acceptable?

Q Would you generally review for the Examinary the the decision-making process followed in deciding to Grill this and other infill wells?

A Okay. Actually, the process would include geology and the Development Geology Group would select the location from review of offset wells, production, available locations, et cetera.

They would select the location where we would drill a well and they would turn that over to the Encineering Group in the District Office and the engineers there would evaluate the reserves, review the cost, prepare

1		28
2	the cost to drill the	well, obtain gas prices and run the
3	economics and make a	decision to make a recommendation to
4	management, you know,	to drill the well.
Ī	Q In	looking at the gas prices were you de-
5	termining whether or no	ot you had an economic well or whether

walls.

MR.

HALL:

They would have no

1 35 2 objection. They would have no 3 MR. CARR: objection. 4 MR. STOGNER: Mr. Carr, Mr. 5 mall, also, we're going to still take these motions under 6 advisement at this time; however, thanks for clarifying 7 these points. 8 MR. CARR: Will your ruling be 9 contained in an order which will result from this hearing? 10 MR. STOGNER: Either that or I 11 will rule on it before today is over. MR. CARR: Thank you. 12 MR. STOGNER: Or before the Ap-13 ril 10th hearing is over. 14 MR. CARR: Okay. 15 MR. STOGNER: One way or the 16 other I will rule on it sometime. 17 Mr. Hall? 18 MR. HALL: If I might, Mr. Examiner, I'd like to make an additional statement on behalf of 19 Crown Central and Consolidated. 20 MR. STOGNER: Okay. 21 MR. HALL: If it's appropriate 22 at this time. 23 MR. STOGNER: Sure, let's get 24 this out in the air at this time. 25 MR. HALL: Well, we certainly

do apologize to the Examiner for complicating this case. It was made necessary by the collateral proceeding that's ongoing in the District Court for San Juan County.

In that regard I would like to make. I guess it would be styled a prospective objection to any proposed order that would purport to enumerate titular ownership in the affected properties of the first application.

Correspondingly, we would request that the Examiner take administrative notice of the proceedings numbered Civil No. 84-641 and styled Crown Central Petroleum Company, et al, versus Damson Oil Corporation.

MR. TAYLOR: Mr. Hall, could you tell us the essence of those proceedings?

MR. HALL: Among other things it involves a quiet title to the properties that are subject to the application in the instant proceeding.

There's also a dispute as to the ownership of operating rights and farmout agreements under an operating agreement dated March 10th, 1959, which is the heart of that lawsuit. It affects the instant properties, as I said.

The percentage of working interest ownership asserted by Damson here today will be determined by that proceeding.

MR. TAYLOR: Is there some con-

tention in that proceeding that other than Getty or Texaco
are the operators of that well? This well?

of Crown Central that Crown Central is the operator under that operating agreement and through a farmout gave Getty/Texaco the farmout for the Mexico Fed "K" 1-E in the southwest-13 communitization for the acreage dedicated to that well.

MR. STOGNER: Mr. Hall, could you clarity something for me?

In this -- in this litigation are we talking about the operator of the well, the 1-E, or the proration unit including the Well No. 1 and the Well No. 1-E?

MR. HALL: We don't contest that Getty or Texaco is the appropriate operator by virtue of the operating agreement I previously mentioned and a farmout coming therefrom.

To clarify our position in this proceeding. Crown Central and Consolidated do not oppose Damson's application here. We are appearing solely to the extent of protecting our titular ownership interest in the affected properties and would object to the entry of any order by the Division which would go so far as to purport to affect titular ownership at all, or at least even enumerates ownership.

MR. TAYLOR: Mr. Hall, you

```

         addition the titular cwnership of a working interest
```

the well is not relevant to the question of whether or not the production from the well is exempt from the provisions of the New Mexico Natural Gas Pricing Act, because the well was drilled for reasons other than avoiding one Lot. I think that is completely irrelevant to the proceeding here and is not a question which you need to consider even if you were provided with an appropriate witness or appropriate documents from which you could decide whether or not to take administrative notice of this lawsuit.

MR. TAYLOR: So the only objection of everyone is to the order stating anything about ownership but there is no objection to anything stated about the operating -- who the operator is.

MS. AUBREY: As I understand it

MR. TAYLOR: By either side.

MS. AUBREY: -- Crown Central

does not dispute that Getty is in fact operating this well.

is whether or not Getty, as operator, has given you sufficient testimony and evidence to draw a conclusion that the well was drilled for reasons other than avoiding the Act and the results of any litigation in San Juan County, or any proceeding up there to determine ownership of this well is completely irrelevant.

MR. HALL: From what I near Mrs. Aubrey saying, her statemenst are in complete accord

 with our motion. I agree with her that it is beyond the provence of this Division to determine ownership of any property interest at all.

That's why we've risen with our so-called prospective objection if the Division seeks to enter an order that may attempt to affect ownership interest, and that's all.

We'll be glad to make --

MR. TAYLOR: What does El Paso think about all this? Do they have any objection to anything?

MR. NANCE: As far as I can see, the only order that Crown Central would object to is one that somehow stated Damson had an operating interest in the well.

I can't see the Commission making an order like that. I think the possibility of that is fairly remote. I think everyone acknowledges that -- that Getty is the operator of the well; that Damson has working interest as a non-operator.

El Paso has a similar working interest as a non-operator. I think those are points that are self evident and that such a prospective objection is really unnecessary.

MR. TAYLOR: Thank you, Mr. Nance. Just a point of clarification as to El Paso's situation on one or both of these wells.

You have an interest in the gas but you're not taking it, but you're trading with Southern Union for the production of this well as against some other wells? Or these wells?

exactly what gas El Paso might or might not be taking from the Mexico Federal Well. We know we do have a working interest in some of the production from the Mexico Federal Well and that working interest is being sold to Southern under an intrastate sales contract.

So our working interest in Mexico Federal well is essentially identical, although the percentages may differ, the nature of that interest is the same
as Damson's interest in that well.

It seems to me that the problem that comes up here that this is an application being filed by someone other than the operator of the well for this Pricing Act exemption and in that regard it is an unusual proceeding.

Perhaps Crown Central's worry is that since Damson is bringing in application that that somehow confers some type of operating right to Damson. I don't think that's the case but I don't think that should be a problem from their point of view.

It would be the same situation if El Paso had brought this application. We wouldn't thereby assume that we had somenow acquired some operating right,

simply because we are bringing application to protect an interest that we have in the well.

MR. TAYLOR: One other question, Mr. Nance. When you trade production from wells, is it done on the value of the gas or the quantity of the gas?

MR. NANCE: It's done either on the basis of volumes or BTU content but the price of the gas that's traded has nothing to do with it.

MR. TAYLOR: Thank you.

MR. STOGNER: Mr. Hall.

MR. HALL: One final point of clarification. I really did hope to avoid litigating my lith District case here in front of the Division, but Damson has presented evidence as to its purported working interest ownership to the Division. They assert a 6.618 percent working interest in the "K" 1-E property.

that the proper working interest ownership will be determined in the District Court proceedings and we request that the Division's findings and conclusions to be promulgated with your order do not address ownership. It is beyond the provence of the Division in the first place.

MS. AUBREY: Mr. Stogner, I agree that it's beyond the provence of the Division and 1 don't know why we're taking up so much time because as everyone has agreed, it's beyond the jurisdiction of the Commission.

Hall, your

of

that

the

15

this

Or

else?

2 We're not asking you to determine what Damson's percentage interest in this is, but sim-3 ply whether or not Damson's production from this well, whatever their working interest is, is exempt from the provi-5 sions of the New Mexico Natural Gas Pricing Act. 6 MR. STOGNER: Mr. 7 motion is taken under advisement. 8 Is there anything 9 whose turn is it? 10 Aubrey, do you have any-Ms. thing further? 11 MS. AUBREY: No, sir, I have 12 nothing further. 13 MR. STOGNER: Okay, Mr. Mance? 14 MR. NANCE: Mr. Examiner, El 15 Paso would like to offer a motion that with respect to the 16 McLeod Federal No. 2-E Well that Well be considered exempt 17 from the Natural Gas Pricing Act on any one of three bases. 18 The first, that all production from that well is going into El Faso Natural 19 Company's interstate pipeline delivery system. 20 The second basis 21 Section 62-7-4, necessary would be New Mexico's statutes, 22 Paragraph B-2, which would exempt gas to the extent that it 23 is commingled with gas destined for interstate commerce

where there is a volumetric exchange of such volume -- of

feel that would apply in this -- in

24 25

such

qas.

we

circumstance and would take this well out of the applicability of the Pricing Act.

Finally, if neither of those two is considered an adequate basis for exempting the wells, we would support the existing application of Damson and would support they attempts when a Mesa witness is tendered to have the well exempted under the traditional infill well exemption procedure.

MR. STOGNER: Mr. Nance, these motions, this motion that you're making only refers to Case 8469, the McLeod Well, is that right?

MR. NANCE: That is correct.

MR. STOGNER: Thank you, Mr.

Nance. Your motion will be taken under advisement.

Mr. Nance, would you clarify

one thing for me?

Your first example that you mentioned, that this gas is going interstate and is not subject under the NGPA, do you have a particular FERC section or NGPA section number to refer back to?

Other than the physical taking of the gas the connection of the well to El Paso's system and the fact that the gas is physically taken into El Paso's system and that system is an interstate system, no, I'm not relying on a -- on a Federal statute. I am relying essentially on the -- the exemption of interstate gas from the New Mexico Natural Gas Pricing Act itself.

I don't have a section to refer to immediately. The Act is designed to apply to intrastate sales of gas and to the extent that all of the gas from this well is going into the interstate market, physically, teel tois is sufficient basis for exempting the well.

> MR. STOGNER: Thank you, MI.

Nance.

Thank you, Mr. Nance, for that clarification or nonclarification.

MR. NANCE: Mr. Stogner.

MR. STOGNER: Yes, sir.

MR. NANCE: It might help

refer to Section 62-7-4, Paragraph A.

MR. STOGNER: That's a New Mex-

100 statute?

15

MR. NANCE: Yes, the New Mexico statute. Each of these references, I should note, is not the current statutory reference. This is the statute that in effect until July 1st of 1984 and is the New Mexico -- its short title is The New Mexico Natural Gas Pricing Act.

of the 1st of As July, 1984, that Act was superseded by the New Mexico Natural Gas Protection Act. The provisions of the Price Protection Act are somewhat different and this proceeding is not concerned with that subsequent act.

> So each of these sections that
