HAND DELIVERED

William J. Lemay
New Mexico Oil Conservation Division
Post Office Box 2088
Santa Fe, New Mexico 87504-2088

RE: City of Carlsbad No. 1
O-25-T22S-R26E, Eddy County
Order R-8064

Dear Mr. Lemay:

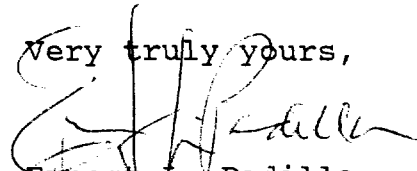

Pursuant to Rule 412 of the Rules of the Oil Conservation Division, application is made herein for continued hardship classification. In support of this application we submit the following materials:

(1) Certification of Billy Miller, production superintendent for Corinne Grace, the applicant, that the condition of the wells has not changed.

(2) Production tabulation from September, 1986 to August, 1987. This shows that during this period, production averaged 1137 mcf/d, significantly below the division minimum flow rate established by letter dated November 4, 1985, a copy of which is attached.

(3) Daily production statistics for 1985 and 1986 production data which are believed to accurately reflect the well's current reservoir data.

Very truly yours,

Ernest L. Padilla

CERTIFICATE OF BILLY MILLER

I, Billy Miller, hereby certify that:

(1) I am the production superintendent for the applicant, Corinne Grace.

(2) My duties include daily monitoring the production characteristics and data of the City of Carlsbad well located in Unit letter O of Section 25, T 22 S, R 26 E, Eddy County, New Mexico.

(3) It is my belief that the condition of the well remains unchanged since Order R-8064 was issued by the Oil conservation Division on September 19, 1985 because:

(a) Due to the nature of the well's flowing tubing pressure, a minimum flow rate is necessary to continuously remove fluids from the wellbore;

(b) Tubing cannot be economically or practicably replaced to correct well production problems;

(c) Division Case File No. 8593 contains well flow test results conducted in October, 1985, which, upon information and belief, currently reflect production capabilities of the well.

Billy Miller
Billy Miller

Subscribed and sworn to me this 11th day of September, 1987.

Jay Huber
Notary Public

My Commission Expires:

May 31, 1988

Corinne Grace
City of Carlsbad #1 Morrow
Sec. 25, T22S, R26E, Eddy County, N.M.
Hardship Classification Order No. R-8064
Flow Rate of 1200 MCFD
Monthly & Daily Production on a Compressor

	Monthly	Daily	Water in BBLs	Oil in BBLs	Tubing PSI
Nov. '86	37420 MCF	1247 MCFD	32	0	1875
Dec. '86	34825 MCF	1123 MCFD	59	0	1750
Jan. '87	42262 MCF	1363 MCFD	144	0	1650
Feb. '87	38733 MCF	1383 MCFD	53	0	1675
Mar. '87	32562 MCF	1122 MCFD	50	0	1600
April '87	26138 MCF	871 MCFD	51	0	1500
May '87	33973 MCF	1096 MCFD	65	0	1500
June '87	33173 MCF	1105 MCFD	50	0	1450
July '87	28153 MCF	908 MCFD	49	0	1200

Average Flow Rate has been 1137 MCFD, as per OCD request to make up for some overproduction by Order of an extension granted October 31, 1986. This Order allowed a minimum Flow Rate of 1200 MCFD. We would like to continue the minimum Flow Rate to enable us to continue to make gains on our overproduction. Tubing pressures have declined to a point where the well will soon have need of a compressor to get gas in the pipeline. As evidenced by the flow rate in January and February 1987, a higher flow rate will stabilize flowing tubing pressures.

Re: City of Carlsbad No. 1 and
Carlsbad Grace No. 1 Wells

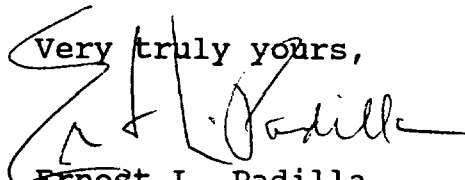

Dear Mr. Morrow:

Enclosed are applications for re-certification of hardship status for the above-referenced two wells.

I am directing these applications to your attention because in previous years Mr. Vic Lyon had handled re-certification of the wells.

If you have any questions please call me.

Very truly yours,

Ernest L. Padilla

Re: Carlsbad Grace No. 1,
I-36-T22S-R26E, Eddy County
Order R-8026) Case 8593

Dear Mr. Lemay:

Pursuant to Rule 412 of the Rules of the Oil Conservation Division, application is made herein for continued hardship classification. In support of this application we submit the following materials:

(1) Certificate of Joe Huber, production superintendent for Corinne Grace, the applicant, that the condition of the wells has not changed.

(2) Production tabulation from August, 1989, to July, 1990. This shows that during this period, production averaged 136 mcf/d, significantly below the division minimum flow rate established November 4, 1985.

(3) Daily production statistics for 1989 and 1990 production data which are believed to accurately reflect the well's current reservoir data.

Very truly yours,

Ernest L. Padilla

ELP:pmc
Enclosures as stated
cc: Corinne Grace

CERTIFICATE OF JOE HUBER

I, Joe Huber, hereby certify that:

(1) I am the production foreman for the applicant, Corinne Grace.

(2) My duties include daily monitoring of the production characteristics and data of the Carlsbad Grace No. 1 Well located in Unit Letter I of Section 36, Township 22 South, Range 26 East, Eddy County, New Mexico.

(3) It is my belief that the condition of the well remains unchanged since Order R-8026 was issued by the Oil Conservation Division on September 19, 1985, because:

(a) The well will not produce without a compressor due to its low bottom hole pressure;

(b) Due to the rapidly declining nature of the well's flowing tubing pressure, a minimum flow rate is necessary to continuously remove fluid from the wellbore;

(c) Tubing cannot be economically or practicably replaced to correct well production problems;

(d) Division Case File No. 8593 contains well flow test results conducted in October, 1985, which upon information and belief, still reflect production capabilities of the well. Similarly, these results are supported by the well's current production capabilities.

Joe Huber
