Dear Mr. Merchant:

Your application for hardship gas well classification for the captioned wells has been received. The applications will be set for hearing on the May 14 examiner docket. We will expect you to present test data showing the minimum sustainable flow rate for each well. If this data and waivers are provided prior to the hearing, we may be able to approve your applications administratively.

Very truly yours,

R. L. STAMETS,
Director

P.S. The Devine well may be eligible for reclassification as an oil well with a priority for casinghead gas. A Form C-116 showing GOR less than 100,000 cubic feet per barrel, when filed with the Hobbs district office would accomplish this.
