Nonstandard Locations Proposed
By Manana Gas, Incorporated
San Juan County, New Mexico

Amoco strongly objects to Manana's nonstandard locations for the Hartman #1E and the Nancy Hartman #1, (see the attached nonstandard location applications). Both proposed locations are only 55 feet from Amoco's lease line. If these wells are drilled at the requested locations, Amoco believes that significant drainage of Amoco's lease would take place.

Amoco has no objection to Manana's nonstandard location request on the Mary Jane #1 well, (see the attached waiver).

Very truly yours,

R. J. Criswell
