Re: Case No. 9143  
Application of Amerind Oil Co. for an Unorthodox  
Oil Well Location, Lea County, New Mexico

Dear Mr. LeMay:

Enclosed for your consideration is the proposed Order in the above referenced case of the applicant, Amerind Oil Co. We have included in this draft references to the transcript of the July 16, 1987 hearing which support certain proposed findings.

As you will note, this proposed Order provides for no penalty on production from the Amerind Well at the proposed unorthodox location. If, however, the Commission deems it advisable to impose a penalty on the well's ability to produce, it is Amerind's position that such penalty should be based only on the percentage of this location's encroachment toward the common boundary between it and Tipperary's tract to the south. In this regard we would direct your attention to pages 25 and 26 of the Transcript of this hearing. We also remind the Commission that we are prepared to run a bottom hole survey on this well and believe that the exact bottom hole location is the appropriate location to use if the Commission deems it necessary to impose a penalty.

William J. LeMay  
August 14, 1987  
Page Two

As the Commission is aware, drainage is occurring in this reservoir from the Amerind properties to the Tipperary tract and we therefore request that the Order in this case be expedited to the fullest extent possible.

Very truly yours,

A handwritten signature in black ink, appearing to read "William F. Carr", with a long horizontal flourish extending to the right.

Re: Amerind Oil Inc.  
Case 9143

Dear Mr. Lyon:

On behalf of Tipperary Oil and Gas Corporation, Pennzoil Company, and W. A. Moncrief, Jr., please find enclosed my proposed order for entry in the referenced case which was heard by the Commission at the hearing held on July 16, 1987.

I have also enclosed for your reference the following prior Division orders which I referred to in my closing statement: Orders R-8366, R-8389, R-8025-A and R-8339. The penalty I have proposed for Amerind is consistent with the method used by the Division in both the Pennzoil Case 9003 and the Phillips Case 9036.

Please let me know if I can be of further assistance.

Very truly yours,

W. Thomas Kellahin
