Re: (Logan Draw Unit)

Gentlemen:

Mr. Frederici and Mr. Kee were in our office on October 6, 1955, discussing the Logan Draw Unit. Mr. Kee said the Unit had not been completed nor approved by the United States Geological Survey, and Stanolind was not sure said Unit would be completed.

We are interested in knowing if completion of this Unit is contemplated. If not, we could remove it from our suspense file.

Information concerning this matter will be greatly appreciated.

Very truly yours,

E. S. WALKER
