Gentlemen:

Our attention has been invited to an error on Exhibit "A" and an omission on Exhibit "B" to the Greenwood Pre-Grayburg Unit Agreement which was approved April 23, 1956.

On Exhibit "A" Lot 4, & SW/4 NW/4, Section 3, T-19-S, R-31-E, is shown as being Part of Tract 11 whereas it is actually a part of Tract 12.

On Exhibit "B" the description of Tract 10 failed to include the S/2 NE/4, Section 11, T-19-S, R-31-E, and NW/4 NW/4, Section 12, T-19-S, R-31-E which acreage is a part of Tract 10.

We are attaching a corrected Exhibit "A" and Page 5 of Exhibit "B" and will appreciate your inserting them in your copy of the Unit Agreement.

Yours very truly,

E. V. Hewitt

Re: Greenwood Pre-Grayburg
Unit Agreement

Attention: Mr. E. V. Hewitt

Gentlemen:

We are enclosing one copy of Notice of Discovery and Request for Approval of Initial Participating Area for the Siluro-Devonian zone for the Greenwood Pre-Grayburg Unit Agreement, which has been approved by the Commissioner of Public Lands June 3, 1957.

This Participating Area shall become effective as of February 10, 1957 in accordance with Paragraph 11 of the Unit Agreement.

Paragraph 10 of the Unit provides for a plan of development and operation to be submitted six months after the completion of a well capable of producing unitized substances in paying quantities, which would be by August 10, 1957.

We shall expect either Section 2-19S-31E or Section 36-18S-31E to be included in the abovementioned plan of development.

Very truly yours,

MURRAY E. MORGAN
Commissioner of Public Lands

Commissioner of Public Lands (3)
 The State of New Mexico
 Capitol Annex Building
 Santa Fe, New Mexico

Gentlemen:

Pursuant to Section 11 of the Greenwood Pre-Grayburg Unit Agreement approved April 23, 1956, Pan American Petroleum Corporation, as Unit Operator, determined, subject to the approval of the Director, Commissioner and Commission, that the Greenwood Unit No. 1 Well, completed in the Siluro-Devonian Zone, is capable of producing unitized substances in paying quantities and that the Initial Participating Area for the Siluro-Devonian Zone should be established. The proposed Initial Participating Area contains 1440 acres and is composed of nine quarter sections around the discovery well including the quarter section on which the discovery well is located. The participating area is described as follows:

Township 18 South, Range 31 East

Section 26: W/2
 Section 27: All
 Section 34: N/2
 Section 35: NW/4
 Containing 1440 acres, more or less

The Greenwood Unit No. 1 Well is located 660' from the south line and 660' from the East line of Section 27, Township 18 South, Range 31 East, Eddy County, New Mexico. The well was completed February 10, 1957 at a plugged back

May 27, 1957

total depth of 12,784' having been plugged back from a total depth of 13,446'. The Siluro-Devonian zone between 12,655' - 12,700' and 12,741' - 12,766' was perforated and treated with 2500 gallons of acid in the upper zone and 1000 gallons of acid in the lower zone. On potential test the well produced at a rate of 8,372 MCF of gas with a gas condensate ratio of 15,610 cu. ft. per barrel. Calculated absolute open flow is 13,600 MCF per day. This well is not currently producing.

The effective date for the Initial Participating Area is determined as February 10, 1957, the date on which the above well was completed.

Attached hereto is Schedule I which describes the Initial Participating Area for the Siluro-Devonian Zone, and shows the percentage of Unitized substances allocated to each unitized tract. Also attached hereto as Exhibit "A" is a map of the Greenwood Pre-Grayburg Unit Area on which has been noted the proposed Initial Participating Area for the Siluro-Devonian Zone.

If this Initial Participating Area meets with your approval, please indicate such approval in the space provided on the attached sheet. Approval of this Participating Area has been received from 100.00% of the committed working interest owners in the unit area.

Yours very truly,

Dear Sir:

Reference is made to your letter of May 22, 1957 referring to our letter of April 5, 1957, File: 3E-93-1158 concerning the establishment of a Participating Area for Greenwood Unit Well No. 1.

This is to advise that as of this date approval of the proposed Initial Participating Area for the Siluro-Devonian Zone has been obtained from 100 % of the committed working interest owners in the Unit Area. Further under date of May 27, 1957, File: KJB-4554-416, we are requesting Regulatory Bodies approval of the Initial Participating Area. Following approval, appropriate distribution of any accrued royalties will be made.

Attention: Mr. E. S. Pester

Gentlemen:

We received a copy of your letter to the United States Geological Survey, dated April 5, 1957. We have been unable to obtain an explanation concerning this letter.

We feel if this well is capable of producing there should be an initial participating area set up, and we are unable to determine from the quotation in your letter of a part of Paragraph 11 of the Unit Agreement what your intentions are concerning this.

If you received a reply from the United States Geological Survey in regard to this letter, this office did not receive a copy.

May we hear from you at your very earliest convenience concerning your intentions for setting up an Initial Participating Area for this Unit Well No. 1.

Very truly yours,

Reports - Greenwood
Unit Well No. 1

Mr. Murray E. Morgan
Commissioner of Public Lands
Santa Fe, New Mexico

Dear Sir:

In accordance with a telephone request from Mrs. Rhea to Mr. W. A. Blankenship of our Roswell District Office, we are forwarding copies of N.M.O.C.C. and U.S.G.S. forms relative to the drilling and completion of Greenwood Unit Well No. 1, located in the SE/4 SE/4 of Section 27, T-18-S, R-31-E, Eddy County New Mexico.

During the drilling and completion of this well, it was our intention to mail your office copies of these forms as work progressed and as they were evidently missent, we are forwarding additional copies as follows:

Form 9-331a	Notice of Intention to Drill
Forms 9-331a	Subsequent Report of Water Shut Off (16", 10-3/4", 7-5/8" Casing and 5" Casing Liner)
Form C-110	Authorization to Transport Oil
Form 9-330	Log of Oil or Gas Well
Form C-122	Multi-Point Back Pressure Test

You will note the potential test was not entered on Form 9-330, but is recorded on Form C-122, Multi-Point Back Pressure Test, and the well was considered completed on February 20, 1957, the date of preparation of this test.

COPY

We regret any inconvenience you may have been caused by the delay in receiving these forms and will appreciate your advising if there is any additional information which is needed.

Yours very truly,

Attention: Mr. John H. Thompson

Gentlemen:

This will acknowledge receipt of your letter of January 31, 1956 wherein you informed us that the Department of the Interior was critical of the fact that we refused to ratify the captioned unit agreement.

Although the inducement offered in your letter is appreciated it does not cure the objections to this unit agreement set forth to you in our letter of November 23, 1955.

Accordingly, we still refuse to ratify the proposed Greenwood Pre-Grayburg Unit Agreement. We are sending a copy of this letter and a copy of your certified letter of January 31st to Mr. W. B. Macey, Secretary of the Oil Conservation Commission and to the United States Geological Survey for their records.

Very truly yours,

Gentlemen:

We have been informed that the Department of the Interior at Washington is particularly critical of the fact that you have refused to ratify our proposed Greenwood Pre-Grayburg Unit Agreement. It is difficult for them to understand why you would not be interested in the drilling of this extremely deep test in an area where the lease ownership is so diversified that it would be practically impossible for any one Operator to drill such a test.

In order to induce you to execute the Unit Agreement, Stanolind is willing to hold you free and harmless from any duty, obligation or liability to contribute to or to bear any part of the cost of the first test well to be drilled under the Unit Agreement unless oil or gas in paying quantities is discovered in said well and as a result of production a participating area is then or thereafter formed or enlarged to include all or part of the acreage owned by you.

It will, therefore, be sincerely appreciated if you will again give the matter very careful consideration and advise us as quickly as possible of your decision. In the event we do not hear from you within one week from the date you receive this letter, we shall assume that you still refuse to execute the Agreement.

Yours truly,

STANOLIND OIL AND GAS COMPANY

Re: AFE-20,579
Unitization of Greenwood Area
Greenwood Pre-Grayburg Unit
Eddy and Lea Counties, New Mexico

Stanolind Oil and Gas Company
P. O. Box 899
Roswell, New Mexico

Attention: Mr. Robert N. Enfield

Gentlemen:

We have carefully considered your letter of August 31st together with the enclosed copy of the Unit Agreement and Unit Operating Agreement.

Although it is our desire to have a Devonian test drilled in this area we are declining to join this unit for certain reasons, some of which are hereinafter outlined.

Referring to Section 2.4 of the Unit Operating Agreement regarding consent of working interest owners. It appears that Stanolind Oil and Gas Company and Buffalo Oil Company are the owners of approximately 80 per cent of the acreage included in this unit. Under the terms of this paragraph Stanolind and Buffalo will control the development of the unit.

Referring to Section 5.2(a) of the Unit Operating Agreement regarding enlargement of the participating area. From an examination of the unit map and the aforementioned control by Stanolind and Buffalo it appears that if a discovery were made that the participating area and drilling operations could be conducted for several years upon lands held solely by Stanolind and Buffalo. Seven or eight producing wells could be completed and the flush production withdrawn before any part of Carper Drilling Company's acreage was included in the participating area. Under this paragraph we would then be called upon to make an investment adjustment of tangibles and intangibles which might be so large that our own operations would be greatly curtailed.

Stanolind Oil and Gas Company

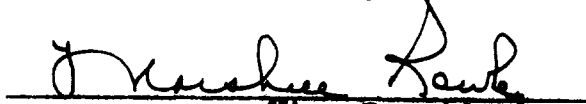

Page 2

You have informed us that our interpretation of these two sections is correct. Under the circumstances we respectfully decline to join this unit.

Very truly yours,

CARPER DRILLING COMPANY, INC.
