Dear Mr. Lindsey:

A review of our records reveals that Circle Ridge Production, Inc. is the operator of record for the Drickey Queen Sand Unit, Chaves County, New Mexico.

It has come to our attention by our Land Use Specialist, Mr. Richard Williford, that in the past we have had problems on this unit regarding the following:

2. There may be surface damage due to excessive roads and brine spills.
3. There have been reductions in the carrying capacity for some grazing leases as a result of the severity of the continuing problems on this unit.
4. Leaking wellhead on the NW4NE4, Section 35-14S-31E, Tract 37, Well No. 144.
5. A brine well water leak in a flowline on the SW4NW4, Section 35-14S-31E, Tract No. 37, Well No. 2.

You are requested to contact our Land Use Specialist, Mr. Richard Williford within 30 days from the date of this letter at (505) 623-4979 regarding our concerns for the above mentioned property. Failure to timely comply with our request may jeopardize your leases and the Drickey Queen Sand Unit.

Dear Mr. Lindsey:

A review of our records reveals that Circle Ridge Production, Inc. is the operator of record for the Drickey Queen Sand Unit, Chaves County, New Mexico.

It has come to our attention by our Land Use Specialist and the Grazing Lessee, that in the past, we have had problems on this unit regarding the following:

1. Pits had not been fenced, and the wells were already in production;
2. No well signs were posted;
3. Numerous unnecessary roads have been built and are being improperly used due to off-road driving;
4. There may be surface damage due to excessive roads and brine spills.

Operating a unit agreement on State Trust lands incurs certain obligations which include operating in a prudent manner. This includes, but is not limited to, protection of the surface estate, including livestock, soil, vegetation, surface improvements, surface and ground water.
