Gentlemen:

Pursuant to the unit agreement, following is submitted for you approval on the captioned unit.

## I. WEST HENSHAW PREMIER UNIT

1. During 1989 injection wells 2-1, 6-1 and 9-2 were temporarily abandoned by setting setting CIBP 100'± above the perforations and loading hole with corrosion inhibited fluid.
2. Well No. 3-1 was tested with high lift equipment but the test was unsuccessful. Well is TA'd and being reviewed for future plans.
3. Plans are to continue production during 1990 and drill two wells in the East half of the Unit if oil prices stay approximately \$20/bbl.
4. The wells are producing/injecting from the Grayburg zone at an average depth of 2900 feet.
5. For the history of production a copy of production decline curves are attached.
6. Copy of Exhibits A and B to the Unit Agreement and current map of existing participating area are attached.

Re: 1989 Plan of Development/Operations  
West Henshaw Premier Unit and  
Northeast Square Lake Unit  
Eddy County, New Mexico

Gentlemen:

Pursuant to the unit agreement, following is submitted for your approval on the two captioned Units:

## I. WEST HENSHAW PREMIER UNIT

1. Production decline curve showing monthly oil and water production. Gas production is too small to measure.
2. A map showing all the wells within the Unit.
3. Currently there are five (5) producing wells: (11-2, 6-3, 6-10, 2-3 and 15-1).
4. Currently there are eight (8) wells injecting: (6-1, 6-6, 6-5, 6-7, 2-2, 2-1, 13-1 and 9-2).
5. The remaining wells producers/injectors are being evaluated and the following have plans for the year 1989:
  - a. Convert 10-2 to producer.
  - b. Return 1-4 to production.
  - c. Return 3-1 to production.
  - d. Resume injection in 10-3, 1-3, 1-2 and 1-4.
  - e. Workover 15-1 (producer).

Page 2  
Bureau of Land Management  
Roswell, New Mexico

- f. Evaluate field for 20-acre spacing and drill two test wells.

Some of the above work is dependent on success of initial work as well as the stability of oil prices.

II. NORTHEAST SQUARE LAKE UNIT

1. A map showing all the wells within the Unit.
2. Production decline curve showing monthly oil and water production. Gas production is too small to measure.
3. Currently there are eight (8) producing wells in this Unit: (7, 31, 13, 11, 22 20, 18 and 26).
4. Currently there are nine (9) injectors in this Unit: (3, 5, 8, 10, 12, 19, 21, 25 and 27).
5. Wells No. 2, 6 and 9 are temporarily abandoned because of marginal production.
6. Plans are to drill atleast one well on 40-acre spacing (330' West of well no. 6), and convert well no. 6 to an injector. Atleast three wells to be drilled on 20-acre spacing, and the success/failure of this project will determine further 20-acre drilling in the field. Of course, oil price stability is a big factor in the implementation of this program.

If you have any question, please contact the undersigned.  
Thank you.

Sincerely,

In compliance with the Bureau of Land Management requirements, Mobil Producing Texas & New Mexico Inc. ("Mobil"), Operator of the West Henshaw (Premier) Unit, submits this 1986-1987 Plan of Operations.

As of the date of this correspondence, the total number of wells and their status in the Unit Area are as follows:

|                                  |           |
|----------------------------------|-----------|
| Current Producers:               | 6         |
| Water Injectors:                 | 8         |
| Temporarily Abandoned Producers: | 10        |
| Temporarily Abandoned Injectors: | 14        |
| Plugged and Abandoned:           | 9         |
| Total                            | <u>47</u> |

No new wells were drilled in 1986. One producer was temporarily abandoned in 1986 for economic reasons:

1) West Henshaw (Premier) Unit Well 15-1

with nine additional producing wells having been temporarily abandoned in previous years.

One water injection well was reworked to repair a tubing leak.

No additional wells will be drilled in 1987. Projected activity in the unit for 1987 includes normal maintenance on the existing producing wells and injection wells to maximize unit efficiency.

All working interest owners under the West Henshaw (Premier) Unit have been provided with the Plan of Operation. Mobil, as Unit Operator, believes that all current unit obligations and requirements have been met.

If this Plan of Operations meets with your approval, then we request that you signify your approval in the space provided below and return a copy of this plan to Mobil.
