Dear Sir:

Enclosed herewith is Commission Order No. R-3565, entered in Case No. 3933, approving the Texaco Drinkard Lockhart Waterflood Project.

Injection is to be through the one authorized water injection well, which shall be equipped with a string of plastic-coated tubing set in a packer at approximately 6750 feet. The casing-tubing annulus shall be loaded with an inhibited fluid and equipped with a pressure gauge to facilitate detection of leakage in the casing, tubing or packer.

As to allowable, our calculations indicate that when all of the authorized injection wells have been placed on active injection, the maximum allowable which this project will be eligible to receive under the provisions of Rule 701-E-3 is 223 barrels per day when the Southeast New Mexico normal unit allowable is 42 barrels per day or less.

Please report any error in this calculated maximum allowable immediately, both to the Santa Fe office of the Commission and the appropriate district proration office.

In order that the allowable assigned to the project may be kept current, and in order that the operator may fully benefit from the allowable provisions of Rule 701, it behooves him to promptly notify both of the aforementioned Commission offices by letter of any change in the status of wells in the project area, i.e., when active injection commences, when additional injection or producing wells are drilled, when additional wells are acquired through purchase or unitization, when wells have received a response to water injection, etc.

Your cooperation in keeping the Commission so informed as to the status of the project and the wells therein will be appreciated.

Very truly yours,

A. L. PORTER, Jr.  
Secretary-Director

Santa Fe, New Mexico

In order that the titleholder notified of the project may be kept  
informed, and in order that the operator may fully benefit from  
the titleholder's production of title, it is proposed that the  
titleholder of the aforementioned Commission Office be given the  
right to participate in the status of wells in the project area, and  
to receive information concerning the status of wells in the project  
area, and to be notified when title is acquired through purchase  
or otherwise, when title is acquired a response to the  
information, and

Such operation in keeping the Commission so informed as to the  
status of the project and the title therein will be provided.

Very truly yours,

W. H. BOHLEN, JR.  
Secretary/President
