*Injecting water into  
SE 1/4 sec 12 T 24N R 37E*

Dear Sir,

Attached are three copies of C-108 requesting authority to dispose of salt water into the Resler and Sheldon Kelly #3 well in section 16 - 23S - R 37E.

Since the well is not two miles from the nearest well producing from the same formation, it would seem that a hearing is necessary. We are sending copies of the C-108 to all operators within one-half mile, as well as to the State Land Commissioner.

It should be pointed out that the interval in Kelly #3, into which we propose to inject water, is the Grayburg formation and below the vertical limits of the Langlie Mattix Pool.

Yours sincerely,

*Vilas P. Sheldon*

for Resler and Sheldon
