Re: Back Basin Unit
Lea County, New Mexico
TERMINATED

Gentlemen:

The Back Basin Unit Agreement, Lea County, New Mexico was approved September 22, 1980, and effective as of October 22, 1980. The term of such agreement is contingent upon the unit operator drilling one well at a time, allowing not more than 6 months between the completion of one well and the beginning of the next well until a well capable of producing unitized substances in paying quantities is completed.

Your first exploratory well was completed on February 15, 1981 and making either a commercial determination on the well or the drilling of the second well due by August 15, 1981, which is six months from the date the Well no. 1 was completed. Inasmuch as no commercial determination on the first well was made and the second unit test well was not commenced the Back Basin Unit Agreement is considered to have terminated automatically by the terms of the agreement as of August 15, 1981.

Please notify all interested parties of this action.

Dear Ms. Venable:

We are in receipt of your resignation/designation of successor unit operator, wherein Amoco Production Company has resigned as unit operator of the Lancaster Spring Unit and designated Altura Energy Ltd. as the successor unit operator.

The Commissioner of Public Lands has this date approved the resignation of Amoco Production Company and the designation of Altura Energy Ltd. as the successor unit operator of this unit.

This change in operators is effective March 1, 1997. In accordance with this approval, Altura Energy Ltd. is now responsible for all operations and the reporting of all production from the unit.

If you have any questions or if we may be of further help, please contact Pete Martinez at (505) 827-5791.

Gentlemen:

This letter submits a Plan of Development for the remainder of 1985 and for 1986 for the subject unit located in Sections 8 and 9 of T-22-S, R-26-E, Eddy County. As operator, Amoco has no plans to drill additional wells during 1985 and 1986 due to the lack of a gas market. The Lancaster Spring Com #1, which is currently completed in the Morrow horizon, has experienced purchase restrictions during 1985. The No. 2 well was plugged and abandoned in June 1985 after being produced to abandonment in both the Morrow and the Delaware formations.

It is Amoco's understanding that the No. 1 well will hold all unit leases. Attached is a map of the Lancaster Spring Unit and a status of the unit's wells.

We respectfully ask for your approval.

Gentlemen:

Please refer to correspondence dated October 27, 1980, from Randolph Richardson to you regarding the referenced unit and request for approval. Inexco further requests that its tract (Tract No. 7) be fully committed to the unit based upon the following good faith efforts of Inexco:

1. Executed and returned a Ratification and Joinder to the Unit Agreement.
2. Executed and conditionally accepted the Unit Operating Agreement - (several points are still being negotiated).
3. Has joined in the drilling and completion of the initial test well and is paying its proportionate share of all costs.

We have never opposed the formation of the unit nor the drilling of the well. It just happened that there are several points of disagreement between us and Operator with regard to the Operating Agreement which is not out of the ordinary in this industry.

Acting Deputy Conservation Manager
Lancaster Spring Unit
Page Two
October 30, 1980

We feel the points are negotiable and have gone along with the drilling and completion of the well. Since the points being negotiated have not disrupted the exploration and development of the unit area and are strictly between the Working Interest Owners, we see no reason for exclusion of our tract from the unit and respectfully request inclusion and approval of same.

By copy of this letter, we are advising the joint owners of our request in addition to the Commissioner of Public Lands and the Conservation Division of the State of New Mexico.

Attn: Armando Lopez

Gentlemen,

Please consider this letter as request for approval of the captioned Lancaster Spring Unit Agreement. In support of such request I am enclosing, on behalf of Amoco Production Company, Unit Operator, four (4) copies of Unit Agreement and two copies of Unit Operating Agreement.

Three copies of the Unit Agreement and one copy of the Unit Operating Agreement are original, signed, counterparts.

The form of Unit Agreement is that required by the State of New Mexico with added references to the Federal Mineral Leasing Law. The United States owns one Tract of 80.00 acres, being 8.33% of the unit area, consequently the Unit Area was not designated by your office and the form of Agreement is not that required by Federal Regulations.

The State Oil Conservation Division approved the Agreement on August 8th, 1980 by Order No. R-6443.

The Commissioner of Public Lands of the State of New Mexico approved the Agreement on August 12th, 1980. Approvals of both the Conservation Division and Commissioner of Public Lands are attached to the Agreements filed herewith.

As mentioned, Inexco Oil Company, owner of Tract #7, 80.00 acres, fee lands, did execute the Unit Agreement but for all practical purposes did not execute the Unit Operating Agreement. Such Tract is thus considered as not committed.

All Lessees of Record and Working Interest owners have executed the Unit Agreement and Unit Operating Agreement, except as mentioned above, Inexco Oil Company.

The Unit is considered as being 8.33% not committed and 91.67% as fully committed.

Overriding royalty owners have been contacted but have not responded. The fee mineral owners under Inexco's Tract 7 have not been contacted as such would be meaningless unless the Working Interest and record title were committed to the Unit.

This Unit Agreement would normally have been submitted for your approval at the same time as being submitted to the State for approval, however we have delayed and delayed submitting while waiting for Inexco to decide whether they were joining or not joining. Consequently we apologize, both to you and to the State, for the delay in seeking your approval.

If Inexco should execute the Unit Operating Agreement, you will be furnished copies of their signatures.

In view of the foregoing, percentage of ownership of Federal land and percentage of commitment, we respectfully request that you approve this Unit Agreement and return one approved copy to the undersigned here in Roswell.

Please advise if all is not in order or if you need anything additional at this time.

Dear Mr. Graham and Mr. Nutter:

I am enclosing to each of you two copies of letter dated March 24th from the U.S.G.S. together with Certification-Determination signed by the U.S.G.S. Conservation Manager, giving approval to the captioned Lancaster Spring Unit.

This is the Unit wherein the OCD order was made effective upon approval by the U.S.G.S. and the Commissioner's letter of transmittal of the approved Unit Agreement was subject to approval by the U.S.G.S. Approval by the U.S.G.S. was not necessary since the Federal Government owned less than 10% of the Unit Area.

In any event, the U.S.G.S did finally approve with the effective date being August 12, 1980, the same date as approved by the Commissioner of Public Lands.

Mr. Graham, confirming telephone conversation of today, March 25th (and by copy of this letter so advising the various Lessees), the Lancaster Spring Unit Agreement was effective as of August 12, 1980, and all State of New Mexico Leases were extended beyond their numerical terms in accordance with said Unit Agreement.

In other words, none of the State leases terminated, and all are considered as alive and currently in "good standing."

Please advise if all is not in order or if you need anything additional at this time.

Yours very truly,

Gentlemen:

Enclosed for your further handling are four copies of a Ratification and Joinder to Unit Operating Agreement which have been executed on behalf of Inexco Oil Company. As you recall our original Ratification and Joinder conditioned acceptance of seven changes and additions contained in our letter of August 15, 1980. Points 1 through 4 inclusive were accepted by the parties and incorporated into the Operating Agreement. Revised pages are being circulated to the parties by Mr. Richardson. Inexco has waived its demands on Points 5, 6 and 7 so the Operating Agreement has now been approved by all parties.

We respectfully request that Tract 7 is now fully committed to the unit and that the unit be approved pursuant to Mr. Richardson's request of last week.

Very truly yours,
