MR. CATANACH; And we'll call

first case on the docket, Case 9673.

The application of Grand ReInc., for a unit agreement, San Juan County, New

Mexico.

sources,

Are there appearances in this

case?

MR. CARR: May it please the

Examiner, my name is William F. Carr with the law firm Campbell & Black, P. A., of Santa Fe. We represent Grand

Resources, Inc.

As the examiner will recall, Case 9636 was heard on April 26, 1989. That was also an

application of Grand Resources, Inc. In that case Grand

Resources sought approval of statutory unitization and a

waterflood project.

Today before the hearing voluntary agreement was reached with all interest owners; therefore, it was unnecessary to seek an order statutorily unitizing this area.

We requested and were granted permission on the 26th of April to present a case for voluntary unitization, advertised the case and then requested that when the matter came for hearing to request incorporation of the prior record.

Therefore at this time we would ask the examiner to incorporate the record made on April 26th in Case 9636 in this matter.

CATANACH: The record in MR. Case 9636 will be incorporated into this case.

MR. CARR: Mr. Catanach, at that time we were also requested to file with you final copies of the unit agreement and unit operating agreement that reflected the changes agreed to on the 25th of April. I have marked those as Grand Exhibits A and B and would tender them at this time.

MR. CATANACH; Okay, Exhibits A and B will be admitted as evidence in this case.

MR. CARR: And we have nothing further at this time.

MR. CATANACH: Mr. Carr, in looking over the unit area and the proposed unit area and the existing pool boundary for the Mesa Gallup Pool, I find that there are approximately 1640 acres in the unit that are currently undeveloped. I'd like to, if I could, get from the applicant in this case a proposed method of development of this acreage and plan of operation before this case is taken under advisement.

MR. CARR: Mr. Examiner, we would -- we'll provide you with a plan of operation and a

1 plan for development of this acreage and would request that 2 the record remain open until we supply that. 3 If, after you see that, you 4 are concerned that additional testimony might be required 5 at that time, we have no objection to having the case re-6 docketed and called back for further hearing. We're at-7 tempting to obtain approval for the waterflood project from 8 Federal authorities and there is some time delay in that, 9 so we have time to do that, if that accommodates your 10 wishes. 11 MR. CATANACH: All right. 12 Then we'll leave the record open in this case until such 13 time as you file the plan of development for that acreage. 14 MR. CARR: We have nothing 15 further. 16 MR. CATANACH: That's all. 17 18 (Hearing concluded.) 19 20 21 22 23
