Re: Positive Production Response
Querecho Plains Bone Spring Sand Unit

Dear Kevin:

Upon review of your recent application for certification of positive production response within the above-referenced waterflood project I have determined that a review of individual well production is necessary in order to ascertain whether such a response has occurred.

Please send individual well production on a monthly basis for 1993 and 1994 for each well in the EOR certified area. This should include production from producing wells prior to being converted to injection. If you have any questions, please contact me at (505) 827-8184.

Sincerely,
