Re: Application of Shahara Oil Corporation for Statutory Unitization of the Shahara State 16 Unit Area Lea County, New Mexico

Dear Florene:

Enclosed are three copies of the captioned Application filed by Shahara Oil Corporation, with Exhibits 1 and 2 being the Unit Agreement and Unit Operating Agreement.

Also enclosed is a copy of my prior letter of May 31. It obviously fell through a crack someplace between Albuquerque and Santa Fe.

It's my understanding that the same will be set for Examiner Hearing on the July 11 docket. Please confirm that date to me, and I'll send the appropriate notice to the other interest owners.

With regards, I am

Very truly yours,

IN THE MATTER OF THE APPLICATION OF SHAHARA OIL CORPORATION FOR STATUTORY UNITIZATION OF THE SHAHARA STATE 16 UNIT AREA, LEA COUNTY, NEW MEXICO. CASE NO. 1/562

#### APPLICATION

SHAHARA OIL CORPORATION, a New Mexico corporation, the "Applicant", whose address is 207 W. McKay, P.O. Box 3232, Carlsbad, New Mexico 88221-3232, applies for an Order unitizing the Shahara State 16 Unit Area, and in support thereof states:

1. Applicant seeks an Order pursuant to the Statutory Unitization Act (Section 70-7-1 through 70-7-21 N.M.S.A. 1978 Comp.) providing for unitized management, operation and further development of the proposed Shahara State 16 Unit Area which consists of 320 acres situate in Lea County, New Mexico, more particularly described as follows:

Township 17 South, Range 33 East, N.M.P.M.

Section 16: W<sup>1</sup>/<sub>2</sub>

Those lands are included in that certain Oil and Gas Lease dated September 11, 1933 bearing Serial Number B-2148 from the State of New Mexico, as Lessor, to Phillips Petroleum Company, as Lessee.

2. The vertical limits of the formations to be included within the proposed Unit Area extend from the surface of the ground to a lower limit of 5500 feet below the surface.

3. The portions of the reservoirs involved in this Application have been defined by development.

4. The Unit Area has heretofore been operated under an informal working interest unit (letter) agreement dated September 5, 1985 which established the Tract Participation as set forth in Section 12 of the Unit Agreement, limited, however, to the depths from the surface to 4800 feet under the NW<sup>1</sup>/<sub>4</sub>, 4600 feet under the N<sup>1</sup>/<sub>2</sub>SW<sup>1</sup>/<sub>4</sub> and SE<sup>1</sup>/<sub>4</sub>SW<sup>1</sup>/<sub>4</sub>, and 5200 feet under the SW<sup>1</sup>/<sub>4</sub>SW<sup>1</sup>/<sub>4</sub> of said Section 16.

5. A copy of the proposed Unit Agreement, which designates Applicant the Unit Operator, is filed with this Application, marked Exhibit 1. Applicant believes that the terms and provisions thereof are fair, reasonable and equitable to all owners of interests.

6. The participation formula, as so set forth in the Unit Agreement, allocates the produced and unitized oil and other hydrocarbons on a fair, reasonable and equitable basis.

7. The type of operations to be conducted in the proposed Unit Area initially include secondary recovery by means of waterflooding. Carbon dioxide flooding or other tertiary recovery process may be conducted in the future.

8. If secondary recovery operations are not commenced on the Unit Area on or before December 31, 1997, or a duly approved extension of that date, the Unit Agreement automatically terminates.

9. Unitized management, operation and further development are feasible and reasonably necessary to effectively carry on secondary recovery operations, and will prevent waste and benefit all interest owners, and additionally, will result, with reasonable probability, in the increased recovery of substantially more oil and other hydrocarbons than otherwise would be recovered.

10. A copy of the proposed Unit Operating Agreement covering the manner in which the Unit will be supervised and managed and costs allocated and paid is filed with this Application, marked Exhibit 2.

11. Statutory unitization of the Shahara State 16 Unit Area is in the best interests of conservation, prevention of waste and protection of correlative rights.

12. Applicant has sought the voluntary joinder of all interest owners in the proposed Unit Agreement, and should all those owners elect to participate in this Unit, Applicant requests approval of a voluntary Unit Agreement.

WHEREFORE, Shahara Oil Corporation respectfully requests that this Application be set for hearing before a duly appointed Examiner of the Oil Conservation Division, the "Division", and that after notice as required by the rules and regulations of the Division, the Division enter its Order granting this Application.

### Respectfully submitted,

The parties hereto agree that the Unit Operator may, ect to the consent and approval of a plan of operation by the Working Interest Owners, the Division and the Commissioner, inject into the Unitized Formation, through any well or wells completed therein, brine, water, air, gas, oil, liquefied petroleum gas, steam and any other substances or a combination of any said substances, whether produced from the Unitized Formation or not, and that the location of input wells and the rates of injection therein and the rate of production shall be governed by standards of good geological and petroleum engineering practices and conservation methods. Reasonable diligence shall be exercised by Unit Operator in complying with the obligations of any approved plan of operation. The parties hereto, to the extent they have the right so to do, hereby grant Unit Operator the right to use brins or water (or both) produced from any formation underlying the Unit Area for injection into the Unitized Formation; provided, however, that this grant of said right shall not preclude the use of brine or water (or both) produced from any formation other than the Unitized Formation for injection into formations other than the Unitized Formation. After commencement of secondary and or enhanced oil recovery operations. Unit Operator shall furnish the Commissioner and the Division monthly injection and production reports for each well in the Unit. The Working Interest Owners, the Commissioner and the Division shall be furnished periodic reports on the progress of the plan of operation and any revisions or changes thereto necessary to meet changed conditions or to protect the interests of all parties to this agreement; provided, however, that any major revisions of the plan of operation involving a basis deviation from the initial plan of operation shall be subject to the consent and approval of the Working Interest Owners, the Commissioner and Division.

The initial plan of operation shall be filed with the Division and the Commissioner concurrently with the filing of this Unit Agreement for final approval. Reasonable diligence shall be exercised in complying with the obligations of said plan of operation.

Notwithstanding anything to the contrary herein contained, the Unit Operator shall commence, if not already having done so, secondary recovery operations and/or enhanced oil recovery operations on the Unit Area not later than December 31, 1997, or any extension thereof approved by the Commissioner and Division or this Agreement, shall terminate automatically in which latter event the Unit Operator shall notify all interested parties. After such operations are commenced, Unit Operator shall carry on such operations as would a reasonably prudent operator under the same or similar circumstances.

SECTION 12. TRACT PARTICIPATION: Tract Participation was established by all owners of working and overriding royalty interests in a voluntary working interest unit (letter) agreement dated September 5, 1985 as follows:

Land Description	Number of Acres	Tract Participation
NUSWU, SEUSWU (Talbert Lease)	120	59.0%
SW4SW4 (State 16 Lease)	40	31.9%
NWW (Pair Lease)	_160	9.1%
	320	100.0%

Those same Tract Participations are carried forward in this Agreement.

In the event less than all of the Tracts are committed hereto as of the effective date hereof Unit Operator shall promptly file with the Commissioner and Division at least two copies of revised Exhibits "B" and "C" setting forth on Exhibit "C" the revised Tract Participations opposite each of the qualified tracts, which shall be calculated by using the tract factors and formula set forth hereinabove, but applying the same only to the qualified Tracts. The revised Exhibits "B" and "C" shall, effective as of the effective date of this agreement, supersede the original Exhibits "B" and "C" stacked hereto and shall thereafter govern the allocation of Unitized Substances unless disapproved by the Commissioner and Division wishin 30 days after filing.

If, subsequent to the effective date of this agreement, any additional tract becomes committed hereto under the provisions of Section 3. Unit Area, or Section 23. Non-joinder and Subsequent Joinder, or any committed tract is excluded herefrom under the provisions of Section 27, Loss of Tide. Unit Operator shall revise said Exhibits "B" and "C" or the latest revision thereof to show the new percentage participations of the then committed tracts, which revised exhibit shall, upon its approval by the Commissioner and the Division supersede, as of its effective date, the last previously effective Exhibits "B" and "C". In any such revision of Exhibit "C" the revised percentage participations of the respective tracts listed in the last previously effective Exhibit "C" shall remain in the same ratio one to another.

SECTION 13. TRACTS OUALIFIED FOR UNIT PARTICIPATION: On and after the effective date hereof, the Tracts within the Unit Area that shall be entitled to participate in the production of Unitized Substances therefrom shall be the Tracts within the Unit Area that are qualified as follows:

(a) Each Tract as to which Working Interest Owners owning one hundred percent (100%) of the Working interest therein have become parties bereto and as to which Royalty Owners owning seventy-five percent (75%) or more of the Royalty Interest therein have become parties hereto.

(b) Each Tract as to which Working Interest Owners owning one hundred percent (100%) of the working Interest therein have become parties hereto and as to which royalty Owners owning less than seventy-five percent (75%) of the Royalty Interest therein have become parties hereto and, further, as to which:

(i) All Working Interest Owners in any such Tract have joined in a request for the commitment of such Tract to this agreement, and

(ii) Sevency-five percent (75%) of the combined voting interest of Working Interest Owners in all Tracts meeting the requirements of Section 13 (a) hereof have voted in favor of the commitment of such Tract.

For the purposes of this Section 13 (b), a Working Interest Owner's "voting interest" shall be equal to the ratio (expressed in percent) which its aggregate Phase II Unit Participation in all tracts qualifying under Section 13 (a) bears to the total Phase II Unit Participation of all Working Interest Owners in all Tracts qualifying under Section 13 (a), as such Unit Participation is determined from the Tract Participation set out in Exhibit "C".

(c) Each Tract as to which Working Interest Owners owning less than one hundred percent (100%) of the Working Interest therein have become parties hereto, regardless of the percentage of Royalty Interest therein which is committed hereto and, further, as to which:

(i) The Working Interest Owner operating any such Tract and all of the other Working Interest Owners in such Tract who have become parties hereto have joined in a request for the commitment of such Tract to this agreement and have executed and delivered an indemnity agreement indemnifying and agreeing to hold harmless the other Working Interest Owners in the Unit Area, their successors and assigns, against all claims and demands which may be made by the owners of working interest in such Tract who are not parties hereto and which arise out of the commitment of such Tract to this agreement,

(ii) Seventy-five percent (75%) of the combined voting interests of Working interest Owners in all Tracts meeting the requirements of Section 13 (a) and (b) have voted in favor of the commitment of such Tract and acceptance of the indemnity agreement.

For the purpose of this Section 13 (c), a Working Interest Owner's "voting interest" shall be equal to the ratio (expressed in percent) which its aggregate Phase II Unit Participation in all Tracts qualifying under Section 13 (a) and 13 (b) beers to the total Phase II Unit Participation of all Working Interest Owners in all Tracts qualifying under Section 13 (a) and 13 (b) as such Unit Participation is determined from the Tract Participations set out in Exhibit "C". Upon the communent of such a Tract to this agreement, the Unit Participation that would have been attributed to the nonsubscribing owners of the Working Interest in such Tract, had they become parties to this agreement and the Unit Operating Agreement, shall be autributed to the Working Interest Owners in such Tract who have become parties to such agreements in proportion to their respective Working Interests in the Tract.

(d) Within Sixty (60) days after the requirements for commencement of Phase II or III have not been met, the Operator will notify the Oil and Gas Division of the New Mexico State Land Office of such conversion to Phase II or Phase III.

SECTION 14. <u>ALLOCATION OF UNITIZED SUBSTANCES</u>: All Unitized Substances produced and saved from the committed Tracts within the Unit Area (less, save and except any part of such Unitizes Substances which is used in conformity with good operating practices on the Unit Area for drilling, operating, camp and other production, development and pressure maintenance purposes, or which is unavoidably lost) shall be apportioned among and allocated to the committed Tracts within the Unit Area in accordance with the Tract Participation effective hereunder during the respective periods, either Phase I or Phase II, in which such Unitized Substances were produced, as such Tract Participation is shown in Exhibit "C" or any revision thereof. A. Oil and Gas Interests:

21

If any party owns an Oil and Gas Interest in the Contract Area, that Interest shall be treated for all purposes of this agreement and during the term hereof as if it were covered by the form of Oil and Gas Lease attached hereto as Exhibit "B," and the owner thereof shall be deemed to own both royalty interest in such lease and the interest of the lessee thereunder. B. Interests of Parties in Costs and Production:

Unless changed by other provisions, all costs and liabilities incurred in operations under this agreement shall be borne and paid, and all equipment and materials acquired in operations on the Contract Area shall be owned, by the parties as their interests are set forth in Exhibit "A." In the same manner, the parties shall also own all production of Oil and Gas from the Contract Area subject, however, to the payment of royalties and other burdens on production as described hereafter.

Operator shall pay or deliver, or cause to be paid or delivered, all burdens on production, specifically including any royalty, overriding royalty or production payment(s).

No party shall ever be responsible, on a price basis higher than the price received by such party, to any other party's lessor or royalty owner, and if such other party's lessor or royalty owner should demand and receive settlement on a higher price basis, the party contributing the affected Lease shall bear the additional royalty burden attributable to such higher price. Nothing contained in this Article III.B. shall be deemed an assignment or cross-assignment of interests covered hereby,

30 and in the event two or more parties contribute to this agreement jointly owned Leases, the parties' undivided interests in 31 said Leaseholds shall be deemed separate leasehold interests for the purposes of this agreement.

#### 32 C. Subsequently Created Interests:

If any party has contributed hereto a Lease or Interest that is burdened with an assignment of production given as security 33 34 for the payment of money, or if, after the date of this agreement, any party creates an overriding royalty, production payment, net profits interest, assignment of production or other burden payable out of production attributable to its working 35 interest hereunder, such burden shall be deemed a "Subsequently Created Interest." Further, if any party has contributed 36 37 hereto a Lease or Interest burdened with an overriding royalty, production payment, net profits interest, or other burden 38 payable out of production created prior to the date of this agreement, and such burden is not shown on Exhibit "A," such 39 burden also shall be deemed a Subsequently Created Interest to the extent such burden causes the burdens on such party's 40 Lease or Interest to exceed the amount stipulated in Article III.B. above.

41 The party whose interest is burdened with the Subsequently Created Interest (the "Burdened Party") shall assume and alone bear, pay and discharge the Subsequently Created Interest and shall indemnify, defend and hold harmless the other 42 parties from and against any liability therefor. Further, if the Burdened Party fails to pay, when due, its share of expenses 43 chargeable hereunder, all provisions of Article VII.B. shall be enforceable against the Subsequently Created Interest in the 44 45 same manner as they are enforceable against the working interest of the Burdened Party. If the Burdened Party is required 46 under this agreement to assign or relinquish to any other party, or parties, all or a portion of its working interest and/or the 47 production attributable thereto, said other party, or parties, shall receive said assignment and/or production free and clear of said Subsequently Created Interest, and the Burdened Party shall indemnify, defend and hold harmless said other party, or 48 49 parties, from any and all claims and demands for payment asserted by owners of the Subsequently Created Interest. 50

#### ARTICLE IV. TITLES

52 A. Title Examination:

51

53 Title examination shall be made on the Drillsite of any proposed well prior to commencement of drilling operations and, 54 if a majority in interest of the Drilling Parties so request or Operator so elects, title examination shall be made on the entire 55 Drilling Unit, or maximum anticipated Drilling Unit, of the well. The opinion will include the ownership of the working 56 interest, minerals, royalty, overriding royalty and production payments under the applicable Leases. Each party contributing 57 Leases and/or Oil and Gas Interests to be included in the Drillsite or Drilling Unit, if appropriate, shall furnish to Operator 58 all abstracts (including federal lease status reports), title opinions, title papers and curative material in its possession free of 59 charge. All such information not in the possession of or made available to Operator by the parties, but necessary for the 60 examination of the title, shall be obtained by Operator. Operator shall cause title to be examined by attorneys on its staff or 61 by outside attorneys. Copies of all title opinions shall be furnished to each Drilling Party. Costs incurred by Operator in 62 procuring abstracts, fees paid outside attorneys for title examination (including preliminary, supplemental, shut-in royalty opinions and division order title opinions) and other direct charges as provided in Exhibit "C" shall be borne by the Drilling 63 64 Parties in the proportion that the interest of each Drilling Party bears to the total interest of all Drilling Parties as such interests appear in Exhibit "A." Operator shall make no charge for services rendered by its staff attorneys or other personnel 65 66 in the performance of the above functions.

67 Each party shall be responsible for securing curative matter and pooling amendments or agreements required in 68 connection with Leases or Oil and Gas Interests contributed by such party. Operator shall be responsible for the preparation 69 and recording of pooling designations or declarations and communitization agreements as well as the conduct of hearings 70 before governmental agencies for the securing of spacing or pooling orders or any other orders necessary or appropriate to 71 the conduct of operations hereunder. This shall not prevent any party from appearing on its own behalf at such hearings. 72 Costs incurred by Operator, including fees paid to outside attorneys, which are associated with hearings before governmental 73 agencies, and which costs are necessary and proper for the activities contemplated under this agreement, shall be direct charges to the joint account and shall not be covered by the administrative overhead charges as provided in Exhibit "C". 74

Operator shall make no charge for services rendered by its staff attorneys or other personnel in the performance of the above functions.

No well shall be drilled on the Contract Area until after (1) the title to the Drillsite or Drilling Unit, if appropriate, has been examined as above provided, and (2) the title has been approved by the examining attorney or title has been accepted by all of the Drilling Parties in such well.

1. <u>Failure of Title</u>: Should any Oil and Gas Interest or Oil and Gas Lease be lost through failure of title, which results in a reduction of interest from that shown on Exhibit "A," the party credited with contributing the affected Lease or Interest (including, if applicable, a successor in interest to such party) shall have ninety (90) days from final determination of title failure to acquire a new lease or other instrument curing the entirety of the title failure, which acquisition will not be subject to Article VIII.B., and failing to do so, this agreement, nevertheless, shall continue in force as to all remaining Oil and Gas Leases and Interests; and

(a) The party credited with contributing the Oil and Gas Lease or Interest affected by the title failure (including, if applicable, a successor in interest to such party) shall bear alone the entire loss and it shall not be entitled to recover from Operator or the other parties any development or operating costs which it may have previously paid or incurred, but there shall be no additional liability on its part to the other parties hereto by reason of such title failure;

(b) There shall be no retroactive adjustment of expenses incurred or revenues received from the operation of the Lease or Interest which has failed, but the interests of the parties contained on Exhibit "A" shall be revised on an acreage basis, as of the time it is determined finally that title failure has occurred, so that the interest of the party whose Lease or Interest is affected by the title failure will thereafter be reduced in the Contract Area by the amount of the Lease or Interest failed;

(c) If the proportionate interest of the other parties hereto in any producing well previously drilled on the Contract Area is increased by reason of the title failure, the party who bore the costs incurred in connection with such well attributable to the Lease or Interest which has failed shall receive the proceeds attributable to the increase in such interest (less costs and burdens attributable thereto) until it has been reimbursed for unrecovered costs paid by it in connection with such well attributable to such failed Lease or Interest;

(d) Should any person not a party to this agreement, who is determined to be the owner of any Lease or Interest
 which has failed, pay in any manner any part of the cost of operation, development, or equipment, such amount shall be paid
 to the party or parties who bore the costs which are so refunded;

(e) Any liability to account to a person not a party to this agreement for prior production of Oil and Gas which arises by reason of title failure shall be borne severally by each party (including a predecessor to a current party) who received production for which such accounting is required based on the amount of such production received, and each such party shall severally indemnify, defend and hold harmless all other parties hereto for any such liability to account;

33 (f) No charge shall be made to the joint account for legal expenses, fees or salaries in connection with the defense of 34 the Lease or Interest claimed to have failed, but if the party contributing such Lease or Interest hereto elects to defend its title 35 it shall bear all expenses in connection therewith; and

(g) If any party is given credit on Exhibit "A" to a Lease or Interest which is limited solely to ownership of an interest in the wellbore of any well or wells and the production therefrom, such party's absence of interest in the remainder of the Contract Area shall be considered a Failure of Title as to such remaining Contract Area unless that absence of interest is reflected on Exhibit "A."

40 2. Loss by Non-Payment or Erroneous Payment of Amount Due: If, through mistake or oversight, any rental, shut-in well 41 payment, minimum royalty or royalty payment, or other payment necessary to maintain all or a portion of an Oil and Gas 42 Lease or Interest is not paid or is erroneously paid, and as a result a Lease or Interest terminates, there shall be no monetary 43 liability against the party who failed to make such payment. Unless the party who failed to make the required payment 44 secures a new Lease or Interest covering the same interest within ninety (90) days from the discovery of the failure to make 45 proper payment, which acquisition will not be subject to Article VIII.B., the interests of the parties reflected on Exhibit "A" 46 shall be revised on an acreage basis, effective as of the date of termination of the Lease or Interest involved, and the party 47 who failed to make proper payment will no longer be credited with an interest in the Contract Area on account of ownership 48 of the Lease or Interest which has terminated. If the party who failed to make the required payment shall not have been fully 49 reimbursed, at the time of the loss, from the proceeds of the sale of Oil and Gas attributable to the lost Lease or Interest, 50 calculated on an acreage basis, for the development and operating costs previously paid on account of such Lease or Interest, 51 it shall be reimbursed for unrecovered actual costs previously paid by it (but not for its share of the cost of any dry hole 52 previously drilled or wells previously abandoned) from so much of the following as is necessary to effect reimbursement:

(a) Proceeds of Oil and Gas produced prior to termination of the Lease or Interest, less operating expenses and lease
 burdens chargeable hereunder to the person who failed to make payment, previously accrued to the credit of the lost Lease or
 Interest, on an accesse basis, up to the amount of unrecovered costs;

(b) Proceeds of Oil and Gas, less operating expenses and lease burdens chargeable hereunder to the person who failed to make payment, up to the amount of unrecovered costs attributable to that portion of Oil and Gas thereafter produced and marketed (excluding production from any wells thereafter drilled) which, in the absence of such Lease or Interest termination, would be attributable to the lost Lease or Interest on an acreage basis and which as a result of such Lease or Interest termination is credited to other parties, the proceeds of said portion of the Oil and Gas to be contributed by the other parties in proportion to their respective interests reflected on Exhibit "A"; and,

62 (c) Any monies, up to the amount of unrecovered costs, that may be paid by any party who is, or becomes, the owner 63 of the Lease or Interest lost, for the privilege of participating in the Contract Area or becoming a party to this agreement.

3. Other Losses: All losses of Leases or Interests committed to this agreement, other than those set forth in Articles IV.B.1. and IV.B.2. above, shall be joint losses and shall be borne by all parties in proportion to their interests shown on Exhibit "A." This shall include but not be limited to the loss of any Lease or Interest through failure to develop or because express or implied covenants have not been performed (other than performance which requires only the payment of money), and the loss of any Lease by expiration at the end of its primary term if it is not renewed or extended. There shall be no readjustment of interests in the remaining portion of the Contract Area on account of any joint loss.

4. <u>Curing Title:</u> In the event of a Failure of Title under Article IV.B.1. or a loss of title under Article IV.B.2. above, any Lease or Interest acquired by any party hereto (other than the party whose interest has failed or was lost) during the ninety (90) day period provided by Article IV.B.1. and Article IV.B.2. above covering all or a portion of the interest that has failed or was lost shall be offered at cost to the party whose interest has failed or was lost, and the provisions of Article VIII.B. shall not apply to such acquisition.

#### ARTICLE V. OPERATOR

### A. Designation and Responsibilities of Operator:

1

2

3

SHAHARA OIL CORPORATION ... shall be the Operator of the Contract Area, and shall conduct .1 5 and direct and have full control of all operations on the Contract Area as permitted and required by, and within the limits of 6 this agreement. In its performance of services hereunder for the Non-Operators, Operator shall be an independent contractor not subject to the control or direction of the Non-Operators except as to the type of operation to be undertaken in accordance 7 with the election procedures contained in this agreement. Operator shall not be deemed, or hold itself out as, the agent of the 8 Non-Operators with authority to bind them to any obligation or liability assumed or incurred by Operator as to any third 0 party. Operator shall conduct its activities under this agreement as a reasonable prudent operator, in a good and workmanlike 10 manner, with due diligence and dispatch, in accordance with good oilfield practice, and in compliance with applicable law and 11 regulation, but in no event shall it have any liability as Operator to the other parties for losses sustained or liabilities incurred 12 except such as may result from gross negligence or willful misconduct. 13

B. Resignation or Removal of Operator and Selection of Successor:

1. Resignation or Removal of Operator: Operator may resign at any time by giving written notice thereof to Non-Operators. 15 If Operator terminates its legal existence, no longer owns an interest hereunder in the Contract Area, or is no longer capable of 16 17 serving as Operator, Operator shall be deemed to have resigned without any action by Non-Operators, except the selection of a successor. Operator may be removed only for good cause by the affirmative vote of Non-Operators owning a majority interest 18 based on ownership as shown on Exhibit "A" remaining after excluding the voting interest of Operator; such vote shall not be 19 deemed effective until a written notice has been delivered to the Operator by a Non-Operator detailing the alleged default and 20 Operator has failed to cure the default within thirty (30) days from its receipt of the notice or, if the default concerns an 21 operation then being conducted, within forty-eight (48) hours of its receipt of the notice. For purposes hereof, "good cause" shall 22 23 mean not only gross negligence or willful misconduct but also the material breach of or inability to meet the standards of operation contained in Article V.A. or material failure or inability to perform its obligations under this agreement. 24

Subject to Article VII.D.1., such resignation or removal shall not become effective until 7:00 o'clock A.M. on the first day of the calendar month following the expiration of ninety (90) days after the giving of notice of resignation by Operator or action by the Non-Operators to remove Operator, unless a successor Operator has been selected and assumes the duties of Operator at an earlier date. Operator, after effective date of resignation or removal, shall be bound by the terms hereof as a Non-Operator. A change of a corporate name or structure of Operator or transfer of Operator's interest to any single subsidiary, parent or successor corporation shall not be the basis for removal of Operator.

2. Selection of Successor Operator: Upon the resignation or removal of Operator under any provision of this agreement, a 31 successor Operator shall be selected by the parties. The successor Operator shall be selected from the parties owning an 32 interest in the Contract Area at the time such successor Operator is selected. The successor Operator shall be selected by the 33 affirmative vote of two (2) or more parties owning a majority interest based on ownership as shown on Exhibit " "Λ": 34 provided, however, if an Operator which has been removed or is deemed to have resigned fails to vote or votes only to 35 succeed itself, the successor Operator shall be selected by the affirmative vote of the party or parties owning a majority 36 37 interest based on ownership as shown on Exhibit "A" remaining after excluding the voting interest of the Operator that was 38 removed or resigned. The former Operator shall promptly deliver to the successor Operator all records and data relating to the operations conducted by the former Operator to the extent such records and data are not already in the possession of the 39 successor operator. Any cost of obtaining or copying the former Operator's records and data shall be charged to the joint 40 41 account.

3. Effect of Bankruptcy: If Operator becomes insolvent, bankrupt or is placed in receivership, it shall be deemed to have 42 resigned without any action by Non-Operators, except the selection of a successor. If a petition for relief under the federal 43 bankruptcy laws is filed by or against Operator, and the removal of Operator is prevented by the federal bankruptcy court, all 44 45 Non-Operators and Operator shall comprise an interim operating committee to serve until Operator has elected to reject or assume this agreement pursuant to the Bankruptcy Code, and an election to reject this agreement by Operator as a debtor in 46 possession, or by a trustee in bankruptcy, shall be deemed a resignation as Operator without any action by Non-Operators, 47 except the selection of a successor. During the period of time the operating committee controls operations, all actions shall 48 require the approval of two (2) or more parties owning a majority interest based on ownership as shown on Exhibit "A." In 49 50 the event there are only two (2) parties to this agreement, during the period of time the operating committee controls operations, a third party acceptable to Operator, Non-Operator and the federal bankruptcy court shall be selected as a 51 member of the operating committee, and all actions shall require the approval of two (2) members of the operating 52 committee without regard for their interest in the Contract Area based on Exhibit "A." 53

#### 54 C. Employees and Contractors:

The number of employees or contractors used by Operator in conducting operations hereunder, their selection, and the hours of labor and the compensation for services performed shall be determined by Operator, and all such employees or contractors shall be the employees or contractors of Operator.

#### 58 D. Rights and Duties of Operator:

1. Competitive Rates and Use of Affiliates: All wells drilled on the Contract Area shall be drilled on a competitive 59 contract basis at the usual rates prevailing in the area. If it so desires, Operator may employ its own tools and equipment in 60 61 the drilling of wells, but its charges therefor shall not exceed the prevailing rates in the area and the rate of such charges shall be agreed upon by the parties in writing before drilling operations are commenced, and such work shall be performed by 62 63 Operator under the same terms and conditions as are customary and usual in the area in contracts of independent contractors who are doing work of a similar nature. All work performed or materials supplied by affiliates or related parties of Operator 64 shall be performed or supplied at competitive rates, pursuant to written agreement, and in accordance with customs and 65 66 standards prevailing in the industry.

67 2. <u>Discharge of Joint Account Obligations</u>: Except as herein otherwise specifically provided, Operator shall promptly pay 68 and discharge expenses incurred in the development and operation of the Contract Area pursuant to this agreement and shall 69 charge each of the parties hereto with their respective proportionate shares upon the expense basis provided in Ethibit "C." 69 Operator shall keep an accurate record of the joint account hereunder, showing expenses incurred and charges and credits 69 made and received.

3. <u>Protection from Liens:</u> Operator shall pay, or cause to be paid, as and when they become due and payable. All foculats of contractors and suppliers and wages and salaries for services rendered or performed, and for materials supplied on, to of in

74 respect of the Contract Area or any operations for the joint account thereof, and shall keep the Contract Area free from -

31

32

liens and encumbrances resulting therefrom except for those resulting from a bona fide dispute as to services rendered or 1 2 materials supplied.

4. Custody of Funds: Operator shall hold for the account of the Non-Operators any funds of the Non-Operators advanced 3 4 or paid to the Operator, either for the conduct of operations hereunder or as a result of the sale of production from the 5 Contract Area, and such funds shall remain the funds of the Non-Operators on whose account they are advanced or paid until 6 used for their intended purpose or otherwise delivered to the Non-Operators or applied toward the payment of debts as 7 provided in Article VII.B. Nothing in this paragraph shall be construed to establish a fiduciary relationship between Operator and Non-Operators for any purpose other than to account for Non-Operator funds as herein specifically provided. Nothing in 8 9 this paragraph shall require the maintenance by Operator of separate accounts for the funds of Non-Operators unless the 10 parties otherwise specifically agree.

11 5. Access to Contract Area and Records: Operator shall, except as otherwise provided herein, permit each Non-Operator or its duly authorized representative, at the Non-Operator's sole risk and cost, full and free access at all reasonable times to 12 13 all operations of every kind and character being conducted for the joint account on the Contract Area and to the records of 14 operations conducted thereon or production therefrom, including Operator's books and records relating thereto. Such access 15 rights shall not be exercised in a manner interfering with Operator's conduct of an operation hereunder and shall not obligate 16 Operator to furnish any geologic or geophysical data of an interpretive nature unless the cost of preparation of such 17 interpretive data was charged to the joint account. Operator will furnish to each Non-Operator upon request copies of any 18 and all reports and information obtained by Operator in connection with production and related items, including, without 19 limitation, meter and chart reports, production purchaser statements, run tickets and monthly gauge reports, but excluding 20 purchase contracts and pricing information to the extent not applicable to the production of the Non-Operator seeking the 21 information. Any audit of Operator's records relating to amounts expended and the appropriateness of such expenditures 22 shall be conducted in accordance with the audit protocol specified in Exhibit "C."

23 6. Filing and Furnishing Governmental Reports: Operator will file, and upon written request promptly furnish copies to 24 each requesting Non-Operator not in default of its payment obligations, all operational notices, reports or applications 25 required to be filed by local, State, Federal or Indian agencies or authorities having jurisdiction over operations hereunder. 26 Each Non-Operator shall provide to Operator on a timely basis all information necessary to Operator to make such filings.

27 7. Drilling and Testing Operations: The following provisions shall apply to each well drilled hereunder, including but not 28 limited to the Initial Well:

29 (a) Operator will promptly advise Non-Operators of the date on which the well is spudded, or the date on which 30 drilling operations are commenced.

(b) Operator will send to Non-Operators such reports, test results and notices regarding the progress of operations on the well as the Non-Operators shall reasonably request, including, but not limited to, daily drilling reports, completion reports, and well logs.

33 (c) Opestor shall adequately test all Zones encountered which may reasonably be expected to be capable of producing 34 Oil and Gas in paying quantities as a result of examination of the electric log or any other logs or cores or tests conducted 35 bereunder.

36 8. Cost Estimates. Upon request of any Consenting Party, Operator shall furnish estimates of current and cumulative costs 37 incurred for the joint account at reasonable intervals during the conduct of any operation pursuant to this agreement. 38 Operator shall not be held liable for errors in such estimates so long as the estimates are made in good faith.

39 9. Insurance: At all times while operations are conducted hereunder, Operator shall comply with the workers 40 compensation law of the state where the operations are being conducted; provided, however, that Operator may be a self-41 insurer for liability under said compensation laws in which event the only charge that shall be made to the joint account shall 42 be as provided in Exhibit "C." Operator shall also carry or provide insurance for the benefit of the joint account of the parties 43 as outlined in Exhibit "D" attached hereto and made a part hereof. Operator shall require all contractors engaged in work on 44 or for the Contract Area to comply with the workers compensation law of the state where the operations are being conducted 45 and to maintain such other insurance as Operator may require.

In the event automobile liability insurance is specified in said Exhibit "D," or subsequently receives the approval of the 46 parties, no direct charge shall be made by Operator for premiums paid for such insurance for Operator's automotive 47 48 equipment. 49

70	1. Proposed Operations: If any party hereto should desire to drill any well on the Contract Area other than the Initial Well, or
71	if any party should desire to Rework, Sidetrack, Deepen, Recomplete or Plug Back a dry hole or a well no longer capable of
72	producing in paying quantities in which such party has not otherwise relinquished its interest in the proposed objective. Zone under

this agreement, the party desiring to drill, Rework, Sidetrack, Deepen, Recomplete or Plug Back such a well shall give written 73 74 notice of the proposed operation to the parties who have not otherwise relinquished their interest in such objective. Zone .

1 under this agreement and to all other parties in the case of a proposal for Sidetracking or Deepening, specifying the work to be

2 performed, the location, proposed depth, objective Zone and the estimated cost of the operation. The parties to whom such a notice is delivered shall have thirty (30) days after receipt of the notice within which to notify the party proposing to do the work whether they elect to participate in the cost of the proposed operation. If a drilling rig is on location, notice of a proposal to Rework, Sidetrack, Recomplete, Plug Back or Deepen may be given by telephone and the response period shall be limited to fortyeight (48) hours, exclusive of Saturday, Sunday and legal holidays. Failure of a party to whom such notice is delivered to reply within the period above fixed shall constitute an election by that party not to participate in the cost of the proposed operation. Any proposal by a party to conduct an operation conflicting with the operation initially proposed shall be delivered to all parties within the time and in the manner provided in Article VI.B.6.

10 If all parties to whom such notice is delivered elect to participate in such a proposed operation, the parties shall be 11 contractually committed to participate therein provided such operations are commenced within the time period hereafter set 12 forth, and Operator shall, no later than ninety (90) days after expiration of the notice period of thirty (30) days (or as promptly as practicable after the expiration of the forty-eight (48) hour period when a drilling rig is on location, as the case 13 may be), actually commence the proposed operation and thereafter complete it with due diligence at the risk and expense of 14 15 the parties participating therein; provided, however, said commencement date may be extended upon written notice of same by Operator to the other parties, for a period of up to thirty (30) additional days if, in the sole opinion of Operator, such 16 17 additional time is reasonably necessary to obtain permits from governmental authorities, surface rights (including rights-of-18 way) or appropriate drilling equipment, or to complete title examination or curative matter required for title approval or 19 acceptance. If the actual operation has not been commenced within the time provided (including any extension thereof as 20 specifically permitted herein or in the force majeure provisions of Article XI) and if any party hereto still desires to conduct 21 said operation, written notice proposing same must be resubmitted to the other parties in accordance herewith as if no prior proposal had been made. Those parties that did not participate in the drilling of a well for which a proposal to Deepen or 22 23 Sidetrack is made hereunder shall, if such parties desire to participate in the proposed Deepening or Sidetracking operation, 24 reimburse the Drilling Parties in accordance with Article VLB.4. in the event of a Deepening operation and in accordance 25 with Article VI.B.5. in the event of a Sidetracking operation.

26 2. Operations by Less Than All Parties:

27 (a) Determination of Participation. If any party to whom such notice is delivered as provided in Article VI.B.1. or 28 VI.C.1. (Option No. 2) elects not to participate in the proposed operation, then, in order to be entitled to the benefits of this 29 Article, the party or parties giving the notice and such other parties as shall elect to participate in the operation shall, no 30 later than ninety (90) days after the expiration of the notice period of thirty (30) days (or as promptly as practicable after the 31 expiration of the forty-eight (48) hour period when a drilling rig is on location, as the case may be) actually commence the 32 proposed operation and complete it with due diligence. Operator shall perform all work for the account of the Consenting Parties; provided, however, if no drilling rig or other equipment is on location, and if Operator is a Non-Consenting Party, 33 34 the Consenting Parties shall either: (i) request Operator to perform the work required by such proposed operation for the 35 account of the Consenting Parties, or (ii) designate one of the Consenting Parties as Operator to perform such work. The rights and duties granted to and imposed upon the Operator under this agreement are granted to and imposed upon the party 36 37 designated as Operator for an operation in which the original Operator is a Non-Consenting Party. Consenting Parties, when conducting operations on the Contract Area pursuant to this Article VI.B.2., shall comply with all terms and conditions of this 38 agreement. 39

40 If less than all parties approve any proposed operation, the proposing party, immediately after the expiration of the 41 applicable notice period, shall advise all Parties of the total interest of the parties approving such operation and its recommendation as to whether the Consenting Parties should proceed with the operation as proposed. Each Consenting Party, 42 43 within forty-eight (48) hours (exclusive of Saturday, Sunday and legal holidays) after delivery of such notice, shall advise the 44 proposing party of its desire to (i) limit participation to such party's interest as shown on Exhibit "A" or (ii) carry only its 45 proportionate part (determined by dividing such party's interest in the Contract Atea by the interests of all Consenting Parties in the Contract Area) of Non-Consenting Parties' interests, or (iii) carry its proportionate part (determined as provided in (ii)) of 46 47 Non-Consenting Parties' interests together with all or a portion of its proportionate part of any Non-Consenting Parties' interests that any Consenting Party did not elect to take. Any interest of Non-Consenting Parties that is not carried by a 48 Consenting Party shall be deemed to be carried by the party proposing the operation if such party does not withdraw its 49 proposal. Failure to advise the proposing party within the time required shall be deemed an election under (i). In the event a 50 drilling rig is on location, notice may be given by telephone, and the time permitted for such a response shall not exceed a 51 52 total of forty-eight (48) hours (exclusive of Saturday, Sunday and legal holidays). The proposing party, at its election, may withdraw such proposal if there is less than 100% participation and shall notify all parties of such decision within ten (10) 53 54 days, or within twenty-four (24) hours if a drilling rig is on location, following expiration of the applicable response period. 55 If 100% subscription to the proposed operation is obtained, the proposing party shall promptly notify the Consenting Parties of their proportionate interests in the operation and the party serving as Operator shall commence such operation within the 56 period provided in Article VI.B.L., subject to the same extension right as provided therein. 57

58 (b) <u>Relinquishment of Interest for Non-Participation</u>. The entire cost and risk of conducting such operations shall be 59 borne by the Consenting Parties in the proportions they have elected to bear same under the terms of the preceding paragraph. Consenting Parties shall keep the leasehold estates involved in such operations free and clear of all liens and 60 encumbrances of every kind created by or arising from the operations of the Consenting Parties. If such an operation results 61 in a dry hole, then subject to Articles VI.B.6. and VI.E.3., the Consenting Parties shall plug and abandon the well and restore 62 63 the surface location at their sole cost, risk and expense; provided, however, that those Non-Consenting Parties that 64 participated in the drilling, Deepening or Sidetracking of the well shall remain liable for, and shall pay, their proportionate 65 shares of the cost of plugging and abandoning the well and restoring the surface location insofar only as those costs were not 66 increased by the subsequent operations of the Consenting Parties. If any well drilled, Reworked, Sidetracked, Deepened, 67 Recompleted or Plugged Back under the provisions of this Article results in a well capable of producing Oil and/or Gas in 68 paying quantities, the Consenting Parties shall Complete and equip the well to produce at their sole cost and risk and the 69 well shall then be turned over to Operator (if the Operator did not conduct the operation) and shall be operated by it at the 70 expense and for the account of the Consenting Parties. Upon commencement of operations for the drilling, Reworking, 71 Sidetracking, Recompleting, Deepening or Plugging Back of any such well by Consenting Parties in accordance with the 72 provisions of this Article, each Non-Consenting Party shall be deemed to have relinquished to Consenting Parties and the 73 Consenting Parties shall own and be entitled to receive, in proportion to their respective interests, all of such Non-74 Consenting Party's interest in the well and share of production therefrom or, in the case of a Reworking, Sidetracking,

1 Deepening, Recompleting or Plugging Back, or a Completion pursuant to Article VI.C.1. Option No. 2, all of such Non-2 Consenting Party's interest in the production obtained from the operation in which the Non-Consenting Party did not elect 3 to participate. Such relinquishment shall be effective until the proceeds of the sale of such share, calculated at the well, or 4 market value thereof if such share is not sold (after deducting applicable ad valorem, production, severance, and excise taxes, 5 royalty, overriding royalty and other interests not excepted by Article III.C. payable out of or measured by the production 6 from such well accruing with respect to such interest until it reverts), shall equal the total of the following: 7 (i) 300 % of each such Non-Consenting Party's share of the cost of any newly acquired surface equipment

7 (i) <u>500</u>% of each such Non-Consenting Party's share of the cost of any newly acquired surface equipment 8 beyond the wellhead connections (including but not limited to stock tanks, separators, treaters, pumping equipment and 9 piping), plus 100% of each such Non-Consenting Party's share of the cost of operation of the well commencing with first 10 production and continuing until each such Non-Consenting Party's relinquished interest shall revert to it under other 11 provisions of this Article, it being agreed that each Non-Consenting Party's share of such costs and equipment will be that 12 interest which would have been chargeable to such Non-Consenting Party had it participated in the well from the beginning 13 of the operations; and

(ii) <u>300</u> % of (a) that portion of the costs and expenses of drilling, Reworking, Sidetracking, Deepening,
 Plugging Back, testing, Completing, and Recompleting, after deducting any cash contributions received under Article VIII.C.,
 and of (b) that portion of the cost of newly acquired equipment in the well (to and including the wellhead connections),
 which would have been chargeable to such Non-Consenting Party if it had participated therein.

Notwithstanding anything to the contrary in this Article VI.B., if the well does not reach the deepest objective Zone 18 19 described in the notice proposing the well for reasons other than the encountering of granite or practically impenetrable 20 substance or other condition in the hole rendering further operations impracticable, Operator shall give notice thereof to each 21 Non-Consenting Party who submitted or voted for an alternative proposal under Article VI.B.6. to drill the well to a 22 shallower Zone than the deepest objective Zone proposed in the notice under which the well was drilled, and each such Non-Consenting Party shall have the option to participate in the initial proposed Completion of the well by paying its share of the 23 24 cost of drilling the well to its actual depth, calculated in the manner provided in Article VI.B.4. (a). If any such Non-25 Consenting Party does not elect to participate in the first Completion proposed for such well, the relinquishment provisions 26 of this Article VI.B.2. (b) shall apply to such party's interest.

27 (c) <u>Reworking, Recompleting or Plugging Back.</u> An election not to participate in the drilling, Sidetracking or Deepening of a well shall be deemed an election not to participate in any Reworking or Plugging Back operation proposed in 28 29 such a well, or portion thereof, to which the initial non-consent election applied that is conducted at any time prior to full 30 recovery by the Consenting Parties of the Non-Consenting Party's recoupment amount. Similarly, an election not to participate in the Completing or Recompleting of a well shall be deemed an election not to participate in any Reworking 31 operation proposed in such a well, or portion thereof, to which the initial non-consent election applied that is conducted at 32 any time prior to full recovery by the Consenting Parties of the Non-Consenting Party's recoupment amount. Any such 33 34 Reworking, Recompleting or Plugging Back operation conducted during the recoupment period shall be deemed part of the 35 cost of operation of said well and there shall be added to the sums to be recouped by the Consenting Parties 300 % of 36 that portion of the costs of the Reworking, Recompleting or Plugging Back operation which would have been chargeable to such Non-Consenting Party had it participated therein. If such a Reworking, Recompleting or Plugging Back operation is 37 proposed during such recoupment period, the provisions of this Article VI.B. shall be applicable as between said Consenting 38 Parties in said well. 39

(d) <u>Recoupment Matters.</u> During the period of time Consenting Parties are entitled to receive Non-Consenting Party's share of production, or the proceeds therefrom, Consenting Parties shall be responsible for the payment of all ad valorem,
 production, severance, excise, gathering and other taxes, and all royalty, overriding royalty and other burdens applicable to
 Non-Consenting Party's share of production not excepted by Article III.C.

In the case of any Reworking, Sidetracking, Plugging Back, Recompleting or Deepening operation, the Consenting Parties shall be permitted to use, free of cost, all casing, tubing and other equipment in the well, but the ownership of all such equipment shall remain unchanged; and upon abandonment of a well after such Reworking, Sidetracking, Plugging Back, Recompleting or Deepening, the Consenting Parties shall account for all such equipment to the owners thereof, with each party receiving its proportionate part in kind or in value, less cost of salvage.

Within ninety (90) days after the completion of any operation under this Article, the party conducting the operations 49 50 for the Consenting Parties shall furnish each Non-Consenting Party with an inventory of the equipment in and connected to the well, and an itemized statement of the cost of drilling, Sidetracking, Deepening, Plugging Back, testing, Completing, 51 Recompleting, and equipping the well for production; or, at its option, the operating party, in lieu of an itemized statement 52 53 of such costs of operation, may submit a detailed statement of monthly billings. Each month thereafter, during the time the 54 Consenting Parties are being reimbursed as provided above, the party conducting the operations for the Consenting Parties shall furnish the Non-Consenting Parties with an itemized statement of all costs and liabilities incurred in the operation of 55 the well, together with a statement of the quantity of Oil and Gas produced from it and the amount of proceeds realized from 56 57 the sale of the well's working interest production during the preceding month. In determining the quantity of Oil and Gas 58 produced during any month, Consenting Parties shall use industry accepted methods such as but not limited to metering or 59 periodic well tests. Any amount realized from the sale or other disposition of equipment newly acquired in connection with 60 any such operation which would have been owned by a Non-Consenting Party had it participated therein shall be credited against the total unreturned costs of the work done and of the equipment purchased in determining when the interest of such 61 62 Non-Consenting Party shall revert to it as above provided; and if there is a credit balance, it shall be paid to such Non-63 Consenting Party.

If and when the Consenting Parties recover from a Non-Consenting Party's relinquished interest the amounts provided 64 65 for above, the relinquished interests of such Non-Consenting Party shall automatically revert to it as of 7:00 a.m. of the day 66 following the day on which such recoupment occurs, and, from and after such reversion, such Non-Consenting Party shall 67 own the same interest in such well, the material and equipment in or pertaining thereto, and the production therefrom as 68 such Non-Consenting Party would have been entitled to had it participated in the drilling, Sidetrackings Reworking, Deepening, Recompleting or Plugging Back of said well. Thereafter, such Non-Consenting Party shall be tharged with and 69 shall pay its proportionate part of the further costs of the operation of said well in accordance with the terms of this 70 71 agreement and Exhibit "C" attached hereto.

3. <u>Stand-By Costs</u>: When a well which has been drilled or Deepened has reached its authorized depth, and the results thereof furnished to the parties, or when operations on the well have been officerwise terminated pursuant to Article VLE, stand-by costs incurred pending response to a party's notice proposing a Reworking,

1 Sidetracking, Deepening, Recompleting, Plugging Back or Completing operation in such a well (including the period required

2 under Article VI.B.6. to resolve competing proposals) shall be charged and borne as part of the drilling or Deepening 3 operation just completed. Stand-by costs subsequent to all parties responding, or expiration of the response time permitted,

whichever first occurs, and prior to agreement as to the participating interests of all Consenting Parties pursuant to the terms

5 of the second grammatical paragraph of Article VLB.2. (a), shall be charged to and borne as part of the proposed operation,

but if the proposal is subsequently withdrawn because of insufficient participation, such stand-by costs shall be allocated
 between the Consenting Parties in the proportion each Consenting Party's interest as shown on Exhibit "A" bears to the total

8 interest as shown on Exhibit "A" of all Consenting Parties.

In the event that notice for a Sidetracking operation is given while the drilling rig to be utilized is on location, any party may request and receive up to five (5) additional days after expiration of the forty-eight hour response period specified in Article VLB.1. within which to respond by paying for all stand-by costs and other costs incurred during such extended response period; Operator may require such party to pay the estimated stand-by time in advance as a condition to extending the response period. If more than one party elects to take such additional time to respond to the notice, standby costs shall be allocated between the parties taking additional time to respond on a day-to-day basis in the proportion each electing party's interest as shown on Exhibit "A" bears to the total interest as shown on Exhibit "A" of all the electing parties.

4. <u>Deepening</u>: If less than all the parties elect to participate in a drilling, Sidetracking, or Deepening operation proposed pursuant to Article VI.B.1., the interest relinquished by the Non-Consenting Parties to the Consenting Parties under Article VI.B.2. shall relate only and be limited to the lesser of (i) the total depth actually drilled or (ii) the objective depth or Zone of which the parties were given notice under Article VI.B.1. ("Initial Objective"). Such well shall not be Deepened beyond the Initial Objective without first complying with this Article to afford the Non-Consenting Parties the opportunity to participate in the Deepening operation.

In the event any Consenting Party desires to drill or Deepen a Non-Consent Well to a depth below the Initial Objective, such party shall give notice thereof, complying with the requirements of Article VI.B.1., to all parties (including Non-Consenting Parties). Thereupon, Articles VI.B.1. and 2, shall apply and all parties receiving such notice shall have the right to participate or not participate in the Deepening of such well pursuant to said Articles VI.B.1. and 2. If a Deepening operation is approved pursuant to such provisions, and if any Non-Consenting Party elects to participate in the Deepening operation, such Non-Consenting party shall pay or make reimbursement (as the case may be) of the following costs and expenses:

(a) If the proposal to Deepen is made prior to the Completion of such well as a well capable of producing in paying 28 29 quantities, such Non-Consenting Party shall pay (or reinburse Consenting Parties for, as the case may be) that share of costs 30 and expenses incurred in connection with the drilling of said well from the surface to the Initial Objective which Non-31 Consenting Party would have paid had such Non-Consenting Party agreed to participate therein, plus the Non-Consenting 32 Party's share of the cost of Deepening and of participating in any further operations on the well in accordance with the other 33 provisions of this Agreement; provided, however, all costs for testing and Completion or attempted Completion of the well 34 incurred by Consenting Parties prior to the point of actual operations to Deepen beyond the Initial Objective shall be for the 35 sole account of Consenting Parties.

36 (b) If the proposal is made for a Non-Consent Well that has been previously Completed as a well capable of producing 37 in paying quantities, but is no longer capable of producing in paying quantities, such Non-Consenting Party shall pay (or 38 reimburse Consenting Parties for, as the case may be) its proportionate share of all costs of drilling, Completing, and 39 equipping said well from the surface to the Initial Objective, calculated in the manner provided in paragraph (a) above, less 40 those costs recouped by the Consenting Parties from the sale of production from the well. The Non-Consenting Party shall also pay its proportionate share of all costs of re-entering said well. The Non-Consenting Parties' proportionate part (based 41 42 on the percentage of such well Non-Consenting Party would have owned had it previously participated in such Non-Consent Well) of the costs of salvable materials and equipment remaining in the hole and salvable surface equipment used in 43 connection with such well shall be determined in accordance with Exhibit "C." If the Consenting Parties have recouped the 44 45 cost of drilling, Completing, and equipping the well at the time such Deepening operation is conducted, then a Non-46 Consenting Party may participate in the Deepening of the well with no payment for costs incurred prior to re-entering the 47 well for Deepening.

The foregoing shall not imply a right of any Consenting Party to propose any Deepening for a Non-Consent Well prior to the drilling of such well to its Initial Objective without the consent of the other Consenting Parties as provided in Article VI.F.

5. <u>Sidetracking:</u> Any party having the right to participate in a proposed Sidetracking operation that does not own an interest in the affected wellbore at the time of the notice shall, upon electing to participate, tender to the wellbore owners its proportionate share (equal to its interest in the Sidetracking operation) of the value of that portion of the existing wellbore to be utilized as follows:

(a) If the proposal is for Sidetracking an existing dry hole, reimbursement shall be on the basis of the actual costs incurred in the initial drilling of the well down to the depth at which the Sidetracking operation is initiated.

(b) If the proposal is for Sidetracking a well which has previously produced, reimbursement shall be on the basis of such party's proportionate share of drilling and equipping costs incurred in the initial drilling of the well down to the depth at which the Sidetracking operation is conducted, calculated in the manner described in Article VI.B.4(b) above. Such party's proportionate share of the cost of the well's salvable materials and equipment down to the depth at which the Sidetracking operation is initiated shall be determined in accordance with the provisions of Exhibit "C."

6. Order of Preference of Operations. Except as otherwise specifically provided in this agreement, if any party desires to 62 propose the conduct of an operation that conflicts with a proposal that has been made by a party under this Article VI, such 63 64 party shall have fifteen (15) days from delivery of the initial proposal, in the case of a proposal to drill a well or to, perform 65 an operation on a well where no drilling rig is on location, or twenty-four (24) hours, exclusive of Saturday, Sunday and legal 66 holidays, from delivery of the initial proposal, if a drilling rig is on location for the well on which such operation is to be 67 conducted, to deliver to all parties entitled to participate in the proposed operation such party's alternative proposal, such alternate proposal to contain the same information required to be included in the initial proposal. Each party receiving such 68 69 proposals shall elect by delivery of notice to Operator within five (5) days after expiration of the proposal period or within 70 twenty-four (24) hours (exclusive of Saturday, Sunday and legal holidays) if a drilling rig is on location for the well that is the 71 subject of the proposals, to participate in one of the competing proposals. Any party not electing within the time required 72 shall be deemed not to have voted. The proposal receiving the vote of parties owning the largest aggregate percentrage 73 interest of the parties voting shall have priority over all other competing proposals; in the case of a tie work the interest of the parties and the parties of the parties Animient Association of Peterloom Lan

1 initial proposal shall prevail. Operator shall deliver notice of such result to all parties entitled to participate in the operation ,

within five (5) days after expiration of the election period (or within twenty-four (24) hours, exclusive of Saturday, Sunday 3 and legal holidays, if a drilling rig is on location). Each party shall then have two (2) days (or twenty-four (24) hours if a rig 4 is on location) from receipt of such notice to elect by delivery of notice to Operator to participate in such operation or to

5 relinquish interest in the affected well pursuant to the provisions of Article VI.B.2.; failure by a party to deliver notice within

(n such period shall be deemed an election not to participate in the prevailing proposal.

Conformity to Spacing Pattern. Notwithstanding the provisions of this Article VI.B.2., it is agreed that no wells shall be 3 proposed to be drilled to or Completed in or produced from a Zone from which a well located elsewhere on the Contract 0 Area is producing, unless such well conforms to the then-existing well spacing pattern for such Zone.

10 8 Paying Wells. No party shall conduct any Reworking, Deepening, Plugging Back, Completion, Recompletion, or 11 Sidetracking operation under this agreement with respect to any well then capable of producing in paying quantities except 12 with the consent of all parties that have not relinquished interests in the well at the time of such operation.

13 C. Completion of Wells; Reworking and Plugging Back:

14 1. Completion: Without the consent of all parties, no well shall be drilled, Deepened or Sidetracked, except any well 15 drilled, Deepened or Sidetracked pursuant to the provisions of Article VI.B.2. of this agreement. Consent to the drilling, 16 Deepening or Sidetracking shall include:

17 18  $\boxtimes$ Option No. 1: All necessary expenditures for the drilling, Deepening or Sidetracking, testing, Completing and equipping of the well, including necessary tankage and/or surface facilities.

19 Option No. 2: All necessary expenditures for the drilling, Deepening or Sidetracking and testing of the well. When 20 such well has reached its authorized depth, and all logs, cores and other tests have been completed, and the results 21 thereof furnished to the parties. Operator shall give immediate notice to the Non-Operators having the right to 22 participate in a Completion attempt whether or not Operator recommends attempting to Complete the well, 23 together with Operator's AFE for Completion costs if not previously provided. The parties receiving such notice -24 shall have forty-eight (48) hours (exclusive of Saturday, Sunday and legal holidays) in which to elect by delivery of 25 notice to Operator to participate in a recommended Completion attempt or to make a Completion proposal with an accompanying AFE. Operator shall deliver any such Completion proposal, or any Completion proposal conflicting 26 27 with Operator's proposal, to the other parties entitled to participate in such Completion in accordance with the 28 procedures specified in Article VI.B.6. Election to participate in a Completion attempt shall include consent to all 29 necessary expenditures for the Completing and equipping of such well, including necessary tankage and/or surface 30 facilities but excluding any stimulation operation not contained on the Completion AFE. Failure of any party receiving such notice to reply within the period above fixed shall constitute an election by that party not to 31 participate in the cost of the Completion attempt; provided, that Article VI.B.6. shall control in the case of 32 33 conflicting Completion proposals. If one or more, but less than all of the parties, elect to attempt a Completion, the provisions of Article VI.B.2. hereof (the phrase "Reworking, Sidetracking, Deepening, Recompleting or Plugging 34 35 Back" as contained in Article VI.B.2. shall be deemed to include "Completing") shall apply to the operations thereafter conducted by less than all parties; provided, however, that Article VI.B.2 shall apply separately to each 36 37 separate Completion or Recompletion attempt undertaken hereunder, and an election to become a Non-Consenting 38 Party as to one Completion or Recompletion attempt shall not prevent a party from becoming a Consenting Party in subsequent Completion or Recompletion attempts regardless whether the Consenting Patties as to eatlier 39 40 Completions or Recompletions have recouped their costs pursuant to Article VI.B.2.; provided further, that any 41 recoupment of costs by a Consenting Party shall be made solely from the production attributable to the Zone in which the Completion attempt is made. Election by a previous Non-Consenting Party to participate in a subsequent 42 Completion or Recompletion attempt shall require such party to pay its proportionate share of the cost of salvable 43 materials and equipment installed in the well pursuant to the previous Completion or Recompletion attempt, 44 45 insofar and only insofar as such materials and equipment benefit the Zone in which such party participates in a 46 Completion attempt.

2. Rework, Recomplete or Plug Back: No well shall be Reworked, Recompleted or Plugged Back except a well Reworked, 47 Recompleted, or Plugged Back pursuant to the provisions of Article VI.B.2. of this agreement. Consent to the Reworking, 18 49 Recompleting or Plugging Back of a well shall include all necessary expenditures in conducting such operations and Completing and equipping of said well, including necessary tankage and/or surface facilities. 50

51 **D.** Other Operations:

52 rator shall not undertake any single project reasonably estimated to require an expenditure in excess of

TWENTY FIVE THOUSAND \_ Dollars (\$ \_25,000.00.\_\_\_) except in connection with the 53 drilling, Sidetracking, Reworking, Deepening, Completing, Recompleting or Plugging Back of a well that has been previously 54 55 authorized by or pursuant to this agreement; provided, however, that, in case of explosion, fire, flood or other sudden 56 conergency, whether of the same or different nature, Operator may take such steps and incur such expenses as in its opinion 57 are required to deal with the emergency to safeguard life and property but Operator, as promptly as possible, shall report the 58 emergency to the other parties. If Operator prepares an AFE for its own use, Operator shall furnish any Non-Operator so requesting an information copy thereof for any single project costing in excess of <u>TWENTY-FIVE THOUSAND</u> 59 \_ Dollars 60  $(\$_25,000,00...)$ . Any party who has not relinquished its interest in a well shall have the right to propose that 61 Operator perform repair work or undertake the installation of artificial lift equipment or ancillary production facilities such as 62 salt water disposal wells or to conduct additional work with respect to a well drilled hereunder or other similar project (but 63 not including the installation of gathering lines or other transportation or marketing facilities, the installation of which shall 64 be governed by separate agreement between the parties) reasonably estimated to require an expenditure in excess of the amount first set forth above in this Article VI.D. (except in connection with an operation required to be proposed under -65 Articles VI.B.I. or VI.C.I. Option No. 2, which shall be governed exclusively by those Articles). Operator shall deliver such 66 67 proposal to all parties entitled to participate therein. If within thirty (30) days thereof Operator secures the written consent 68 of any party or parties owning at least \_65\_\_ % of the interests of the parties entitled to participate in such operation, 69 each party having the right to participate in such project shall be bound by the terms of such proposal and shall be obligated 70 to pay its proportionate share of the costs of the proposed project as if it had consented to such project putsuant to the terms · 2 71 of the proposal. time is also

#### E. Abandonment of Wells: 72

73 1. Abandonment of Dry Holes: Except for any well drilled or Deepened pursuant to Article VI.B.2., Jily Well Which has 74 been drilled or Deepened under the terms of this agreement and is proposed to be completed as a dry hole shall not be.

1 plugged and abandoned without the consent of all parties. Should Operator, after diligent effort, be unable to contact any 2 party, or should any party fail to reply within forty-eight (48) hours (exclusive of Saturday, Sunday and legal holidays) after 3 delivery of notice of the proposal to plug and abandon such well, such party shall be deemed to have consented to the 4 proposed abandonment. All such wells shall be plugged and abandoned in accordance with applicable regulations and at the 5 cost, tisk and expense of the parties who participated in the cost of drilling or Deepening such well. Any party who objects to 6 plugging and abandoning such well by notice delivered to Operator within forty-eight (48) hours (exclusive of Saturday, Sunday and legal holidays) after delivery of notice of the proposed plugging shall take over the well as of the end of such 7 8 forty-eight (48) hour notice period and conduct further operations in search of Oil and/or Gas subject to the provisions of Article VI.B.; failure of such party to provide proof reasonably satisfactory to Operator of its financial capability to conduct 9 such operations or to take over the well within such period or thereafter to conduct operations on such well or plug and 10 abandon such well shall entitle Operator to retain or take possession of the well and plug and abandon the well. The party 11 12 taking over the well shall indemnify Operator (if Operator is an abandoning party) and the other abandoning parties against 13 liability for any further operations conducted on such well except for the costs of plugging and abandoning the well and 14 restoring the surface, for which the abandoning parties shall remain proportionately liable.

15 2. Abandonment of Wells That Have Produced: Except for any well in which a Non-Consent operation has been 16 conducted hereunder for which the Consenting Parties have not been fully reimbursed as herein provided, any well which has been completed as a producer shall not be plugged and abandoned without the consent of all parties. If all parties consent to 17 such abandonment, the well shall be plugged and abandoned in accordance with applicable regulations and at the cost, risk 18 19 and expense of all the parties hereto. Failure of a party to reply within sixty (60) days of delivery of notice of proposed 20 abandonment shall be deemed an election to consent to the proposal. If, within sixty (60) days after delivery of notice of the 21 proposed abandonment of any well, all parties do not agree to the abandonment of such well, those wishing to continue its 22 operation from the Zone then open to production shall be obligated to take over the well as of the expiration of the 23 applicable notice period and shall indemnify Operator (if Operator is an abandoning party) and the other abandoning parties 24 against liability for any further operations on the well conducted by such parties. Failure of such party or parties to provide 25 proof reasonably satisfactory to Operator of their financial capability to conduct such operations or to take over the well 26 within the required period or thereafter to conduct operations on such well shall entitle Operator to retain or take possession 27 of such weil and plug and abandon the weil.

28 Parties taking over a well as provided herein shall tender to each of the other parties its proportionate share of the value of the well's salvable material and equipment, determined in accordance with the provisions of Exhibit "C," less the estimated cost 29 -30 of salvaging and the estimated cost of plugging and abandoning and restoring the surface; provided, however, that in the event 31 the estimated plugging and abandoning and surface restoration costs and the estimated cost of salvaging are higher than the 32 value of the well's salvable material and equipment, each of the abandoning parties shall tender to the parties continuing 33 operations their proportionate shares of the estimated excess cost. Each abandoning party shall assign to the non-abandoning 34 parties, without warranty, express or implied, as to title or as to quantity, or fitness for use of the equipment and material, all 35 of its interest in the wellbore of the well and related equipment, together with its interest in the Leasehold insofar and only 36 insofar as such Leasehold covers the right to obtain production from that wellbore in the Zone then open to production. If the 37 interest of the abandoning party is or includes an Oil and Gas Interest, such party shall execute and deliver to the non-38 abandoning party or parties an oil and gas lease, limited to the wellbore and the Zone then open to production, for a term of 39 one (1) year and so long thereafter as Oil and/or Gas is produced from the Zone covered thereby, such lease to be on the form 40 attached as Exhibit "B." The assignments or leases so limited shall encompass the Drilling Unit upon which the well is located. 41 The payments by, and the assignments or leases to, the assignces shall be in a ratio based upon the relationship of their 42 respective percentage of participation in the Contract Area to the aggregate of the percentages of participation in the Contract 43 Area of all assignces. There shall be no readjustment of interests in the remaining portions of the Contract Area.

Thereafter, abandoning parties shall have no further responsibility, liability, or interest in the operation of or production from the well in the Zone then open other than the royalties retained in any lease made under the terms of this Article. Upon request, Operator shall continue to operate the assigned well for the account of the non-abandoning parties at the rates and charges contemplated by this agreement, plus any additional cost and charges which may arise as the result of the separate ownership of the assigned well. Upon proposed abandonment of the producing Zone assigned or leased, the assignor or lessor shall then have the option to repurchase its prior interest in the well (using the same valuation formula) and participate in further operations therein subject to the provisions hereof.

3. <u>Abandonment of Non-Consent Operations:</u> The provisions of Article VI.E.1. or VI.E.2. above shall be applicable as between Consenting Parties in the event of the proposed abandonment of any well excepted from said Articles; provided, however, no well shall be permanently plugged and abandoned unless and until all parties having the right to conduct further operations therein have been notified of the proposed abandonment and afforded the opportunity to elect to take over the well in accordance with the provisions of this Article VI.E.; and provided further, that Non-Consenting Parties who own an interest in a portion of the well shall pay their proportionate shares of abandonment and surface restoration costs for such well as provided in Article VLB.2.(b).

#### 58 F. Termination of Operations:

59 Upon the commencement of an operation for the drilling, Reworking, Sidetracking, Plugging Back, Deepening, testing, 60 Completion or plugging of a well, including but not limited to the Initial Well, such operation shall not be terminated without 61 consent of parties bearing <u>65</u> % of the costs of such operation; provided, however, that in the event graniterior other 62 practically impenetrable substance or condition in the hole is encountered which renders further operations impractical, 63 Operator may discontinue operations and give notice of such condition in the manner provided in Article VI.B.1; and the 64 provisions of Article VI.B. or VI.E. shall thereafter apply to such operation, as appropriate.

All parties shall give timely written notice to Operator of their Gas marketing arrangements for the following month, excluding price, and shall notify Operator immediately in the event of a change in such arrangements. Operator shall maintain records of all marketing arrangements, and of volumes actually sold or transported, which records shall be made available to Non-Operators upon reasonable request.

In the event one or more parties' separate disposition of its share of the Gas causes split-stream deliveries to separate pipelines and/or deliveries which on a day-to-day basis for any reason are not exactly equal to a party's respective proportionate share of total Gas sales to be allocated to it, the balancing or accounting between the parties shall be in accordance with any Gas balancing agreement between the parties hereto, whether such an agreement is attached as Exhibit "E" or is a separate agreement. Operator shall give notice to all parties of the first sales of Gas from any well under this agreement. Option No. 2: No Gas Balancing Agreement:

Each party shall take in kind or separately dispose of its proportionate share of all Oil and Gas produced from the Contract Area, exclusive of production which may be used in development and producing operations and in preparing and treating Oil and Gas for marketing purposes and production unavoidably lost. Any party taking its share of production in kind shall be required to pay for only its proportionate share of such part of Operator's surface facilities which it uses.

Each party shall execute such division orders and contracts as may be necessary for the sale of its interest in production from the Contract Area, and, except as provided in Article VII.B., shall be entitled to receive payment directly from the purchaser thereof for its share of all production.

If any party fails to make the arrangements necessary to take in kind or separately dispose of its proportionate share of the Oil and/or Gas produced from the Contract Area, Operator shall have the right, subject to the revocation at will by the party owning it, but not the obligation, to purchase such Oil and/or Gas or sell it to others at any time and from time to time, for the account of the non-taking party. Any such purchase or sale by Operator may be terminated by Operator upon at least ten (10) days written notice to the owner of said production and shall be subject always to the right of the owner of the production upon at least ten (10) days written notice to Operator to exercise its right to take in kind, or separately dispose of, its share of all Oil and/or Gas not previously delivered to a purchaser; provided, however, that the effective date of any such revocation may be deferred at Operator's election for a period not to exceed ninety (90) days if Operator has committed such production to a purchase contract having a term extending beyond such ten (10) -day period. Any purchase or sale by Operator of any other party's share of Oil and/or Gas shall be only for such reasonable periods of time as are consistent with the minimum needs of the industry under the particular circumstances, but in no event for a period in excess of one (1) year.

Any such sale by Operator shall be in a manner commercially reasonable under the circumstances, but Operator shall have no duty to share any existing market or transportation arrangement or to obtain a price or transportation fee equal to that received under any existing market or transportation arrangement. The sale or delivery by Operator of a non-taking party's share of production under the terms of any existing contract of Operator shall not give the non-taking party any interest in or make the non-taking party a party to said contract. No purchase of Oil and Gas and no sale of Gas shall be made by Operator without first giving the non-taking party ten days written notice of such intended purchase or sale and the price to be paid or the pricing basis to be used. Operator shall give notice to all parties of the first sale of Gas from any well under this Agreement.

4 below or otherwise available to a non-defaulting party,

5 L Suspension of Rights: Any party may deliver to the party in default a Notice of Default, which shall specify the default, 6 specify the action to be taken to cure the default, and specify that failure to take such action will result in the exercise of one or more of the remedies provided in this Article. If the default is not cured within thirty (30) days of the delivery of such 7 Я Notice of Default, all of the rights of the defaulting party granted by this agreement may upon notice be suspended until the 0 default is cured, without prejudice to the right of the non-defaulting party or parties to continue to enforce the obligations of the defaulting party previously accrued or thereafter accruing under this agreement. If Operator is the party in default, the 10 11 Non-Operators shall have in addition the right, by vote of Non-Operators owning a majority in interest in the Contract Area after excluding the voting interest of Operator, to appoint a new Operator effective immediately. 2. <u>Suit for Damages:</u> Non-defaulting parties or Operator for the benefit of non-defaulting parties may sue (at joint account expense) to collect the amounts in default, plus interest accruing on the amounts recovered from the date of default until the date of collection at the rate specified in Exhibit "C" attached hereto. Nothing herein shall prevent any party from suing any defaulting party to collect consequential damages accruing to such party as a result of the default.

22 3. Deemed Non-Consent: The non-defaulting party may deliver a written Notice of Non-Consent Election to the 23 defaulting party at any time after the expiration of the thirty-day cure period following delivery of the Notice of Default, in 24 which event if the billing is for the drilling of a new well or the Plugging Back, Sidetracking, Reworking or Deepening of a 25 well which is to be or has been plugged as a dry hole, or for the Completion or Recompletion of any well, the defaulting 26 party will be conclusively deemed to have elected not to participate in the operation and to be a Non-Consenting Party with 27 respect thereto under Article VI.B. or VI.C., as the case may be, to the extent of the costs unpaid by such party, notwithstanding any election to participate theretofore made. If election is made to proceed under this provision, then the 28 29 non-defaulting parties may not elect to sue for the unpaid amount pursuant to Article VII.D.2.

Until the delivery of such Notice of Non-Consent Election to the defaulting party, such party shall have the right to cure its default by paying its unpaid share of costs plus interest at the rate set forth in Exhibit "C," provided, however, such payment shall not prejudice the rights of the non-defaulting parties to pursue remedies for damages incurred by the nondefaulting parties as a result of the default. Any interest relinquished pursuant to this Article VILD.3, shall be offered to the non-defaulting parties in proportion to their interests, and the non-defaulting parties electing to participate in the ownership of such interest shall be required to contribute their shares of the defaulted amount upon their election to participate therein.

Such right includes, but is not limited to, the right to require advance payment for the estimated costs of 41 drilling a well or Completion of a well as to which an election to participate in drilling or Completion has been made. If the 42 defaulting party fails to pay the required advance payment, the non-defaulting parties may pursue any of the remedies provided 43 in this Article VII.D. or any other default remedy provided elsewhere in this agreement. Any excess of funds advanced remaining 44 when the operation is completed and all costs have been paid shall be promptly returned to the advancing party.

5. <u>Costs and Attorneys' Fees.</u> In the event any party is required to bring legal proceedings to enforce any financial obligation of a party hereunder, the prevailing party in such action shall be entitled to recover all court costs, costs of collection, and a reasonable attorney's fee, which the lien provided for herein shall also secure.

Any party may request, and shall be entitled to receive, proper evidence of all such payments. In the event of failure to make proper payment of any rental, shut-in well payment or minimum royalty through mistake or oversight where such payment is required to continue the lease in force, any loss which results from such non-payment shall be borne in accordance with the provisions of Article IV.B.2.

Operator shall notify Non-Operators of the anticipated completion of a shut-in well, or the shutting in or return to production of a producing well, at least five (5) days (excluding Saturday, Sunday and legal holidays) prior to taking such action, or at the earliest opportunity permitted by circumstances, but assumes no liability for failure to do so. 63 Beginning with the first calendar year after the effective date hereof, Operator shall render for ad valorem takinion all property subject to this agreement which by law should be rendered for such taxes, and it shall pay all such taxes assessed 64 65 thereon before they become delinquent. Prior to the rendition date, each Non-Operator shall furnish Operator information as 66 to burdens (to include, but not be limited to, royalties, overriding royalties and production payments) on Leases and Oil and 67 Gas Interests contributed by such Non-Operator. If the assessed valuation of any Lease is reduced by reason of it's being 68 subject to outstanding excess royalties, overriding royalties or production payments, the reduction in ad valorem taxes resulting therefrom shall inure to the benefit of the owner or owners of such Lease, and Operator shall adjust the charge to 69 70 such owner or owners so as to reflect the benefit of such reduction. If the ad valorem taxes are based in whole brin part 71 upon separate valuations of each party's working interest, then notwithstanding anything to the contrary herein, charges to the joint account shall be made and paid by the parties hereto in accordance with the tax value generated by each party's 72 working interest. Operator shall bill the other parties for their proportionate shares of all tax payments in the mainter 73 74 provided in Exhibit "C."

If Operator considers any tax assessment improper, Operator may, at its discretion, protest within the time and manner prescribed by law, and prosecute the protest to a final determination, unless all parties agree to abandon the protest prior to final determination. During the pendency of administrative or judicial proceedings, Operator may elect to pay, under protest, all such taxes and any interest and penalty. When any such protested assessment shall have been finally determined, Operator shall pay the tax for the joint account, together with any interest and penalty accrued, and the total cost shall then be assessed against the parties, and be paid by them, as provided in Exhibit "C."

7 Each party shall pay or cause to be paid all production, severance, excise, gathering and other taxes imposed upon or with respect 8 to the production or handling of such party's share of Oil and Gas produced under the terms of this agreement.

ARTICLE VIII.

#### ACQUISITION, MAINTENANCE OR TRANSFER OF INTEREST

#### 11 A. Surrender of Leases:

-9 10

12 The Leases covered by this agreement, insofar as they embrace acreage in the Contract Area, shall not be surrendered in whole 13 or in part unless all parties consent thereto.

14 However, should any party desire to surrender its interest in any Lease or in any portion thereof, such party shall give written 15 notice of the proposed surrender to all parties, and the parties to whom such notice is delivered shall have thirty (30) days after delivery of the notice within which to notify the party proposing the surrender whether they elect to consent thereto. Failure of a 16 17 party to whom such notice is delivered to reply within said 30-day period shall constitute a consent to the surrender of the Leases 18 described in the notice. If all parties do not agree or consent thereto, the party desiring to surrender shall assign, without express or 19 implied warranty of title, all of its interest in such Lease, or portion thereof, and any well, material and equipment which may be 20 located thereon and any rights in production thereafter secured, to the parties not consenting to such surrender. If the interest of the 21 assigning party is or includes an Oil and Gas Interest, the assigning party shall execute and deliver to the party or parties not consenting to such surrender an oil and gas lease covering such Oil and Gas Interest for a term of one (1) year and so long 22 thereafter as Oil and/or Gas is produced from the land covered thereby, such lease to be on the form attached hereto as Exhibit "B." 23 24 Upon such assignment or lease, the assigning party shall be relieved from all obligations thereafter accruing, but not theretofore accrued, with respect to the interest assigned or leased and the operation of any well attributable thereto, and the assigning party 25 26 shall have no further interest in the assigned or leased premises and its equipment and production other than the royalties retained 27 in any lease made under the terms of this Article. The party assignce or lessee shall pay to the party assignor or lessor the 28 reasonable salvage value of the latter's interest in any well's salvable materials and equipment attributable to the assigned or leased 29 acreage. The value of all salvable materials and equipment shall be determined in accordance with the provisions of Exhibit "C" less the estimated cost of salvaging and the estimated cost of plugging and abandoning and restoring the surface. If such value is less 30 31 than such costs, then the party assignor or lessor shall pay to the party assignee or lessee the amount of such deficit. If the assignment or lease is in favor of more than one party, the interest shall be shared by such parties in the proportions that the 32 33 interest of each bears to the total interest of all such parties. If the interest of the parties to whom the assignment is to be made 34 varies according to depth, then the interest assigned shall similarly reflect such variances.

Any assignment, lease or surrender made under this provision shall not reduce or change the assignor's, lessor's or surrendering party's interest as it was immediately before the assignment, lease or surrender in the balance of the Contract Area; and the acreage assigned, leased or surrendered, and subsequent operations thereon, shall not thereafter be subject to the terms and provisions of this agreement but shall be deemed subject to an Operating Agreement in the form of this agreement.

#### 39 B. Renewal or Extension of Leases:

If any party secures a renewal or replacement of an Oil and Gas Lease or Interest subject to this agreement, then all other parties 40 shall be notified promptly upon such acquisition or, in the case of a replacement Lease taken before expiration of an existing Lease, 41 promptly upon expiration of the existing Lease. The parties notified shall have the right for a period of thirty (30) days following 42 delivery of such notice in which to elect to participate in the ownership of the renewal or replacement Lease, insofar as such Lease 43 affects lands within the Contract Area, by paying to the party who acquired it their proportionate shares of the acquisition cost 41 allocated to that part of such Lease within the Contract Area, which shall be in proportion to the interests held at that time by the 45 parties in the Contract Area. Each party who participates in the purchase of a renewal or replacement Lease shall be given an 46 47 assignment of its proportionate interest therein by the acquiring party.

If some, but less than all, of the parties elect to participate in the purchase of a renewal or replacement Lease, it shall be owned by the parties who elect to participate therein, in a ratio based upon the relationship of their respective percentage of participation in the Contract Area to the aggregate of the percentages of participation in the Contract Area of all parties participating in the purchase of such renewal or replacement Lease. The acquisition of a renewal or replacement Lease by any or all of the parties hereto shall not cause a readjustment of the interests of the parties stated in Exhibit "A," but any renewal or replacement Lease in which less than all parties elect to participate shall not be subject to this agreement but shall be deemed subject to a separate Operating Agreement in the form of this agreement.

55 If the interests of the parties in the Contract Area vary according to depth, then their right to participate proportionately in 56 renewal or replacement Leases and their right to receive an assignment of interest shall also reflect such depth variances.

The provisions of this Article shall apply to renewal or replacement Leases whether they are for the entire interest covered by the expiring Lease or cover only a portion of its area or an interest therein. Any renewal or replacement Lease taken before the expiration of its predecessor Lease, or taken or contracted for or becoming effective within six (6) months after the expiration of the existing Lease, shall be subject to this provision so long as this agreement is in effect at the time of such acquisition or at the time the renewal or replacement Lease becomes effective; but any Lease taken or contracted for more than six (6) months after the expiration of an existing Lease shall not be deemed a renewal or replacement Lease and shall not be subject to the provisions of this agreement.

64 The provisions in this Article shall also be applicable to extensions of Oil and Gas Leases.

65 C. Acreage or Cash Contributions:

While this agreement is in force, if any party contracts for a contribution of cash towards the drilling of a well or any other 66 operation on the Contract Area, such contribution shall be paid to the party who conducted the drilling or other operation shall 67 68 be applied by it against the cost of such drilling or other operation. If the contribution be in the form of acreage, the party ii whom 69 the contribution is made shall promptly tender an assignment of the acreage, without warranty of title, to the Drilling Patties, in the 70 proportions said Drilling Parties shared the cost of drilling the well. Such acreage shall become a separate Contract Area and, to the extent possible, be governed by provisions identical to this agreement. Each party shall promptly notify all other parties of any 71 72 acreage or cash contributions it may obtain in support of any well or any other operation on the Contract) 73 provisions shall also be applicable to optional rights to earn acteage outside the Contract Area which are in support of well drilled 74 inside the Contract Area, siran Association of Futurboux Lor

1 If any party contracts for any consideration relating to disposition of such party's share of substances produced hereunder, 2 such consideration shall not be deemed a contribution as contemplated in this Article VIII.C.

D. Assignment; Maintenance of Uniform Interest:

For the purpose of maintaining uniformity of ownership in the Contract Area in the Oil and Gas Leases, Oil and Gas Interests, wells, equipment and production covered by this agreement no party shall sell, encumber, transfer or make other disposition of its interest in the Oil and Gas Leases and Oil and Gas Interests embraced within the Contract Area or in wells, equipment and production unless such disposition covers either:

1. the entire interest of the party in all Oil and Gas Leases, Oil and Gas Interests, wells, equipment and production; or

2. an equal undivided percent of the party's present interest in all Oil and Gas Leases, Oil and Gas Interests, wells, equipment and production in the Contract Area.

11 Every sale, encumbrance, transfer or other disposition made by any party shall be made expressly subject to this agreement 12 and shall be made without prejudice to the right of the other parties, and any transferee of an ownership interest in any Oil and 13 Gas Lease or Interest shall be deemed a party to this agreement as to the interest conveyed from and after the effective date of the transfer of ownership; provided, however, that the other parties shall not be required to recognize any such sale, 14 15 encumbrance, transfer or other disposition for any purpose hereunder until thirty (30) days after they have received a copy of the 16 instrument of transfer or other satisfactory evidence thereof in writing from the transferor or transferee. No assignment or other 17 disposition of interest by a party shall relieve such party of obligations previously incurred by such party hereunder with respect 18 to the interest transferred, including without limitation the obligation of a party to pay all costs attributable to an operation 19 conducted hereunder in which such party has agreed to participate prior to making such assignment, and the lien and security 20 interest granted by Article VII.B. shall continue to burden the interest transferred to secure payment of any such obligations.

If, at any time the interest of any party is divided among and owned by four or more co-owners, Operator, at its discretion, may require such co-owners to appoint a single trustee or agent with full authority to receive notices, approve expenditures, receive billings for and approve and pay such party's share of the joint expenses, and to deal generally with, and with power to bind, the co-owners of such party's interest within the scope of the operations embraced in this agreement; however, all such coowners shall have the right to enter into and execute all contracts or agreements for the disposition of their respective shares of the Oil and Gas produced from the Contract Area and they shall have the right to receive, separately, payment of the sale proceeds thereof.

#### 28 E. Waiver of Rights to Partition:

If permitted by the laws of the state or states in which the property covered hereby is located, each party hereto owning an undivided interest in the Contract Area waives any and all rights it may have to partition and have set aside to it in severalty its undivided interest therein.

32 F. Preferential Right to Purchase:

33 (Optional; Check if applicable.)

Should any party desire to sell all or any part of its interests under this agreement, or its rights and interests in the Contract 34 35 Area, it shall promptly give written notice to the other parties, with full information concerning its proposed disposition, which 36 shall include the name and address of the prospective transferee (who must be ready, willing and able to purchase), the purchase 37 price, a legal description sufficient to identify the property, and all other terms of the offer. The other parties shall then have an 38 optional prior right, for a period of ten (10) days after the notice is delivered, to purchase for the stated consideration on the same terms and conditions the interest which the other party proposes to sell; and, if this optional right is exercised, the 39 40 purchasing parties shall share the purchased interest in the proportions that the interest of each bears to the total interest of all 41 purchasing parties. However, there shall be no preferential right to purchase in those cases where any party wishes to mortgage 42 its interests, or to transfer title to its interests to its mortgagee in lieu of or pursuant to foreclosure of a mortgage of its interests, 43 or to dispose of its interests by merger, reorganization, consolidation, or by sale of all or substantially all of its Oil and Gas assets 44 to any party, or by transfer of its interests to a subsidiary or parent company or to a subsidiary of a parent company, or to any 45 company in which such party owns a majority of the stock.

12 The affected party shall use all reasonable diligence to remove the force majeure situation as quickly as practicable. The 13 requirement that any force majeure shall be remedied with all reasonable dispatch shall not require the settlement of strikes, 14 lockouts, or other labor difficulty by the party involved, contrary to its wishes; how all such difficulties shall be handled shall 15 be entirely within the discretion of the party concerned.

#### ARTICLE XII.

In the event the well described in Article VI.A., or any subsequent well drilled hereunder, results in a dry hole, and no other well is capable of producing Oil and/or Gas from the Contract Area, this agreement shall terminate unless drilling, Deepening, Sidetracking, Completing, Recompleting, Plugging Back or Reworking operations are commenced within \_\_ \_ days from the date of abandonment of said well. "Abandonment" for such purposes shall mean either (i) a decision by all parties not to conduct any further operations on the well or (ii) the elapse of 180 days from the conduct of any operations on the well, whichever first occurs.
