Attention: Lynn D. Becker, CPL
621 Seventeenth Street, Suite 1800
Denver, CO 80293-0621

Gentlemen:

Your application of December 30, 1999, filed with the BLM requests the designation of the West Teas (Yates-Seven Rivers) Unit area, embracing 1320.00 acres, more or less, Lea County, New Mexico, as logically subject to secondary recovery operations under the unitization provisions of the Mineral Leasing Act as amended.

Pursuant to unit plan regulations 43 CFR 3180, the land requested as outlined on your plat marked Exhibit A, Falcon Creek Resources, Inc. West Teas (Yates-Seven Rivers) Unit, Lea County, New Mexico, is hereby designated as a logical unit area and has been assigned No. NMNM103145X. This designation is valid for a period from one year from the date of this letter.

Waterflooding will be limited to the following interval: That subsurface stratigraphic interval underlying the Unit Area found between the top of the Yates Formation and the base of the Seven Rivers Formation. The top of the Yates Formation is defined as all points underlying the Unit Area correlative to the depth of 3,062 feet, and the base of the Seven Rivers Formation is defined as all points underlying the Unit area correlative to the depth of 3,358 feet, as said depths are identified on the Compensated Neutron/Litho-Density Log for the State No. 1 Well, located in the SE1/4NE1/4 of Section 16, T. 20 S., R. 33 E., NMPM, Lea County, New Mexico.

Your basis for allocation of unitized substances and your proposed form of unit agreement are acceptable. Corrections that need to be made to the enclosed Exhibit B are marked in red.

If conditions are such that modification of said standard form is deemed necessary, two copies of the proposed modifications with appropriate justification must be submitted to this office for preliminary approval.

In the absence of any type of land requiring special provisions or any objections not now apparent, a duly executed agreement identical with said form, modified as outline above, will be approved if submitted in approvable status within a reasonable period of time. However, notice is hereby given that the right is reserved to deny approval of any executed agreement submitted which in our opinion, does not have the full commitment of sufficient lands to afford effective control of operations in the unit area.

When the executed agreement is transmitted to the BLM for final approval, include the latest status of all acreage. In preparation of Exhibits "A" and "B", follow closely the format of the sample exhibits attached to the reprint of the aforementioned form.
