Re: Case No. 9519  
Township 16 South, Range 34 East, NMPM  
Section 6: S/2  
Lea County, New Mexico

Dear Mr. Catanach:

Pursuant to your request, I am enclosing a copy of a letter dated August 26, 1988, from Jerry Sexton to M. Brad Bennett, Inc. approving the Wolfcamp recompletion, which has been perforated.

After our telephone conversation today, I contacted Mr. Bennett and confirmed he is aware that the State E Com. No. 1-V Well in SW/4 Section 6 cannot be recompleted following the drilling of the proposed well in SE/4 in the Atoka and Morrow formations without approval by your office of the simultaneous dedication of the acreage. Mr. Bennett is also aware that he must post a bond for the proposed well.

Please let me know if you need anything further.

Thank you.

Sincerely yours,

DICKERSON, FISK & VANDIVER

Re: State E Com #1-V  
Section 6, T16S, R34E

Dear Brad:

The proposed recompletion of the above-referenced well to the Wolfcamp has been approved. This location is just over a mile from the North Hume-Wolfcamp Pool (160 acre spacing), the Kemnitz Lower Wolfcamp (80-acre spacing) and the Kemnitz Upper Wolfcamp (40-acre spacing). If you make a Wolfcamp well we will make a decision as to which pool the well will be place in. Let me know your preference.

Very truly yours,

OIL CONSERVATION DIVISION
