## BUREAU OF LAND MANAGEMENT

Roswell District Office  
1717 West Second Street  
Roswell, New Mexico 88201-2019

JAN 07 1994

Mewbourne Oil Company  
Attention: Mr. K. M. Calvert  
P. O. Box 7698  
Tyler, TX 75711

Gentlemen:

Your application of October 12, 1993, filed with the BLM requests the designation of the Querecho Plains Queen Associated Sand Unit area, embracing 1520.00 acres, more or less, Lea County, New Mexico, as logically subject to secondary operations under the unitization provisions of the Mineral Leasing Act as amended.

Pursuant to unit plan regulations 43 CFR 3180, the land requested as outlined on your plat marked Exhibit A, Mewbourne Oil Company, Querecho Plains Queen Associated Sand Unit, Lea County, New Mexico, is hereby designated as a logical unit area for the purpose of conducting secondary recovery operations and has been assigned No. NMNM91005X. This designation is valid for a period of one year from the date of this letter.

Waterflooding will be limited to the following interval: That common source of supply of Oil and Gas underlying the Unit Area commonly known as the Queen/Penrose Sand, which is described as that certain stratigraphic interval, or its correlative equivalent, encountered between the log depths of 3,886 feet and 4,222 feet in the Mewbourne Oil Company Federal E No. 7 located in the center NENE (proration unit A) of Section 27, T. 18 S., R. 32 E., Lea County, New Mexico as shown on the Welex - Compensated Acoustic Velocity Log, dated July 15, 1983, and attached hereto as Exhibit D.

Your basis for allocation of unitized substances and your proposed form of unit agreement are acceptable, with the modifications to the agreement we requested. Corrections that need to be made to the enclosed Exhibit B are shown in red.

If conditions are such that further modification of said standard form is deemed necessary, one copy of the proposed modifications with appropriate justification must be submitted to this office for preliminary approval.

In the absence of any type of land requiring special provisions or any objections not now apparent, a duly executed agreement identical with said form, modified as outlined above, will be approved if submitted in approvable status within a reasonable period of time. However, notice is hereby given that the right is reserved to deny approval of any executed agreement submitted which in our opinion, does not have the full commitment of sufficient lands to afford effective control of operations in the unit area.

When the executed agreement is transmitted to the BLM for final approval, include the latest status of all acreage. In preparation of Exhibits "A" and "B", follow closely the format of the sample exhibits attached to the reprint of the aforementioned form. You will also need to submit an initial Plan of Operation.

Sincerely,

A handwritten signature in cursive script that reads "Tony L. Ferguson".

Tony L. Ferguson  
Assistant District Manager,  
Minerals
