Re: Application for Unorthodox Gas Well Location Eaves "B" Well No. 20 Scarborough Yates-Seven Rivers Field (Created by Order No. R-2999 12/01/65) 429' FEL, 1414' FSL Section 30, T26S, R37E Lea County, New Mexico

Dear Mr. Stogner,

Southwest Royalties, Inc. respectfully requests your approval of its administrative application for an Unorthodox Gas Well Location filed on February 10, 2000. As per our telephone conversation the following additional information is provided in support of the original application:

- 1. Map showing Southwest Royalties, Inc.'s well, and offset gas wells in sections 29, and 32.
- 2. A printout from Dwight's Energy Data showing multiple gas wells in both section 29 and 32.
- Copies of NMOCD records for several of the gas wells on the map and Dwight's list.
- 4. A copy of a portion of the commission order R 368 A allowing gas wells to be allowed on less than 640 acres.

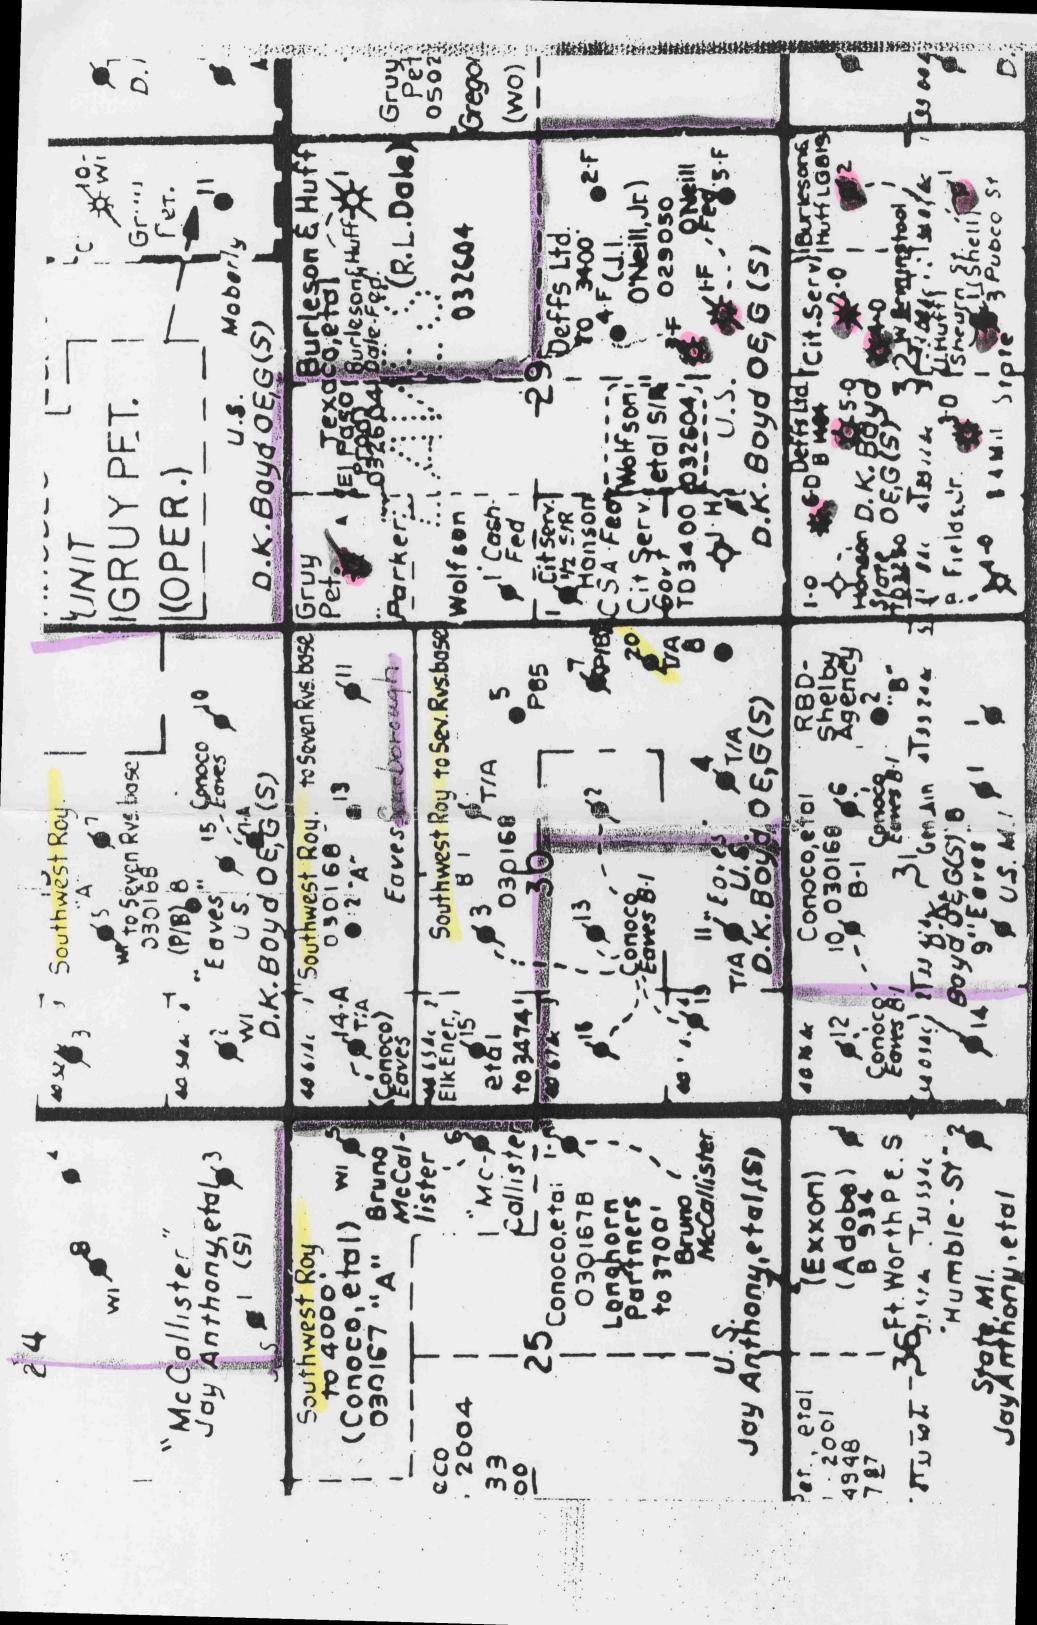

I trust this additional information answers any questions regarding Southwest Royalties, Inc. application. If you have further questions or require more information, please contact the undersigned at (915) 686-9927 or by e-mail at Marty_B@SWRINC.COM.

Sincerely,

C. M. "Marty" Bloodworth, P. E.

Area Supervisor

CITIES SERVICE OIL COMPANY

BOX 97

HOBBS, NEW MEXICO

(5)

December 24, 1958

New Mexico Oil Conservation Commission P. O. Box 871 Santa Fe, New Mexico

Attn: Mr. A. L. Porter, Jr.

Re: Change of Well Dedication—Non-Standard Gas Proration Unit, Jalmat Gas Pool, Les County, New Mexico

Gentlemen:

Cities Service Oil Company was assigned a 153.12 acre non-standard gas proration unit by administrative order NSP-450 to consist of the NE/L NE/L, N/2 NW/L, and Lot 3, Section 32, T-26-S, R-37-E. The unit was dedicated to the State "O" No. 2, located 660' FNL, 1980' FEL, Section 32. This well is a dual completion from Upper and Lower Yates allowed by DC-688.

The State "O" No. 3 was drilled for oil from the Lower Yates 1960' FNL and 1960' FWL, Section 32, T-26-S, R-37-E, but was unsuccessful because of high water production. The well was plugged back and the Upper Yates perforated. The Upper Yates produced gas with a calculated open flow of 2.5 MMCF per day.

It is requested that the non-standard gas proration unit now be dedicated to the State "O" No. 3 and that DC-688 for the State "O" No. 2 be cancelled. The State "O" No. 2 will remain as an oil well producing from the Lower Yates.

A plat of the area and schematic diagram are attached. Copies of this application have been sent to all offset operators.

Very truly yours,

E. F. Motter

Asst. Division Engineer

NEW MEXICO OIL CONSERVATION COMMISSION BOX 2045 HOBBS, NEW MEXICO

December 29, 1953 TO: El Paso Natural Gas Company Box 1384, Jal, New Mexico GENTLEMEN: Form C-104 for your Parker POOL has been approved, however, since this well is: () An unorthodox location, (X) Located on an unorthodox preration unit,) Outside the boundaries of a designated pool, it will be necessary for you to; () Comply with the provisions of Rule 4 of Commission Order R 368 A (X) Comply with the provisions of Rule 7 of Commission Order_) File Form C-123 Pending further Commission action this unit will be assigned an ____80 acre allowable.

Stanley J. Stanley
A. L. Porter, Jr.
Proration Manager

ALP/pb

cc/ Transporter El Paso Natural Gas Co.

BEFORE THE OIL CONSERVATION COMMISSION OF THE STATE OF NEW MEXICO

IN THE MATTER OF THE HEARING CALLED BY THE OIL CONSERVATION COMMISSION FOR THE PURPOSE OF CONSIDERING:

CASE NO. 582 Order No. R-368-A

THE APPLICATION OF THE OIL CONSERVATION COMMISSION ON ITS OWN MOTION FOR ALL OPERATORS AND INTERESTED PARTIES IN THE JALCO GAS POOL TO SHOW CAUSE WHY THE RULES AND REGULATIONS AS SET OUT IN ORDER R-356, WITH ANY ESSENTIAL AMENDMENTS, SHOULD NOT BE PUT INTO EFFECT.

ORDER OF THE COMMISSION

BY THE COMMISSION:

This case came on for hearing at 9 o'clock a.m., on October 26, 1953, at Santa Fe, New Mexico, before the Oil Conservation Commission of New Mexico, hereinafter referred to as the "Commission".

NOW, on this torm day of November, 1953, the Commission, a quorum being present, having considered the testimony adduced, the exhibits received, the statements of interested parties, the official records of the Commission and other pertinent data, and being fully advised in the premises,

FINDS:

- (1) That due public notice having been given, the Commission has jurisdiction of this cause.
- (2) That the Commission, for the purpose of preventing waste and drainage, and for the protection of correlative rights, entered Order R-356, establishing certain general or "stand-by" rules and regulations relating to the proration of gas well gas, proration units, well spacing, and other related matters in the gas pools of Eddy, Lea, Chaves and Roosevelt Counties, New Mexico, applicable in all cases only after special rules for each gas pool shall have been promulgated.
- entered by the Commission. Order R-368 adopted the general or "Stand-by" rules promulgated by Order R-356 as the Special Rules and Regulations of the Jalco Gas Pool, heretofore established. R-368 was entered pending a further order in the premises; said order to be entered only after all interested parties were afforded the opportunity to be heard in the matter.

l. The non-standard unit consists of less acreage than a standard proration unit.

- 2. The acreage assigned to the non-standard unit lies wholly within a legal quarter section and contains a well capable of producing gas into a gas transportation facility on the date of this order.
- 3. The operator receives written consent in the form of waivers from all operators in the adjoining 160 acre proration units.

GAS ALLOCATION

RULE 8 At least 30 days prior to the beginning of each gas proration period the Commission shall hold a hearing after due notice has been given. The Commission shall cause to be submitted by each gas purchaser its "Preliminary Nominations" of the amount of gas which each in good faith actually desires to purchase within the ensuing proration period, by months, from the Jalco Gas Pool. The Commission shall consider the "Preliminary Nominations" of purchasers, actual production, and such other factors as may be deemed applicable in determining the amount of gas that may be produced without waste within the ensuing proration period. "Preliminary Nominations" shall be submitted on a form prescribed by the Commission.

RULE 9. Each month, the Commission shall cause to be submitted by each gas purchaser its "Supplemental Nominations" of the amount of gas which each in good faith actually desires to purchase within the ensuing proration month from the Jalco Gas Pool. The Commission shall hold a public hearing between the 15th and 20th days of each month to determine the reasonable market demand for gas for the ensuing proration month, and shall issue a proration schedule setting out the amount of gas which each well may produce during the ensuing proration month. Included in the monthly proration schedule shall be a tabulation of allowable and production for the second preceding month together with an adjusted allowable computation for the second preceding month. Said adjusted allowable shall be computed by comparing the actual allowable assigned with the actual production. In the event the allowable assigned is greater than the actual production, the allowables assigned the top allowable units shall be reduced proportionately, and in the event the allowable assigned is less than the production then the allowables assigned the top allowable units shall be increased proportionately. .!'Supplemental Nominations!' shall be submitted on a form prescribed by the Commission. Carry 17.4 38 THE SET OF SERVICE

The Commission shall include in the proration schedule the gas wells in the Jalco Gas Pool delivering to a gas transportation facility, or lease gathering system, and shall include in the proration schedule of the Jalco Gas Pool any well which it finds is being unreasonably discriminated against through denial of access to a gas transportation facility, which is reasonably capable of handling the type of gas produced by such well. The total allowable to be allocated to the pool each month shall be equal to the supplemental nominations together with any adjustment which the Commission deems advisable. The allocation to a pool remaining after subtracting the capacities of marginal units shall be divided and allocated ratably among the non-marginal units in the proportion that the acreage contained in each unit bears to the
