API #30-025-44455
Unit F, Section 17, T20S, R37E
Lea County, New Mexico

Dear Mr. Goetze,

Penroc Oil Corporation respectfully protest extension of the injection interval on the captioned well by Oasis Water Solutions, LLC.

Due to several Eumont low volume/low bottom hole pressure and several open hole in the Eumont oil zones (some doing commercial production even at today's prices), it is our position that these reserves will be lost forever.

Thank you for your assistance over the past decades and same this time. I can be contacted at mymerch@penrocoil.com or 575-492-1236.

Sincerely,

M. Y. (Merch) Merchant

President

Oasis Proposed Injection - Cooper 17 #1 - Sec 17, T20S, R37E

Production (Default)

Yates, Seven Rivers, Queen (Eumont Gas)

TA'd Grayburg in area - decent oil Cumes in Grayburg (~300k), good gas cumes in Eumont Gas (~3-4 Bscf)

~50' OH within new injection interval in surrounding wells
