Well tested small CO₂ gas flow on D.S.T. and has been temporarily abandoned since March, 1971. Completion of this well not justified unless additional drilling nearby proves more reserves, so that extension of the S.E.C. CO₂ pipeline is warranted. S.E.C. to commence additional nearby drilling soon, and data provided by this work should enable S.E.C. to provide for completion or plugging of this within one year.
