By Whom?	Date and Hour	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse. N/A	

If a Watercourse was Impacted, Describe Fully.\*  
N/A

**APPROVED**

By OCD; Dr. Oberding at 9:36 am, Oct 28, 2015

Describe Cause of Problem and Remedial Action Taken.\* Unlined production pits and evaporation ponds were historically used within the Dollarhide Field Unit in Texas

Describe Area Affected and Cleanup Action Taken.\*  
Land in the vicinity is used for cattle grazing, and oil/gas production.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
