Steve Moskal
BP America Production Company
200 Energy Court
Farmington, NM 87401

RE: Martinez Gas Com G #1 (API #30-045-12172 with Remediation Case 3R-38) in Unit A of Section 24, Township 29 North, Range 10 West NMPM, San Juan County, New Mexico.

Mr. Moskal,

The Oil Conservation Division (OCD) has reviewed the *Request for Permanent Closure* dated November 12, 2015 regarding the above-referenced historic release site. The available information indicates BP America Production Company (BP) has met the requirements of 19.15.29 NMAC and 19.15.30 NMAC. No further corrective action is required and remediation case 3R-38 is closed.

This determination by OCD does not relieve BP of responsibility should future information indicate a threat to ground water, surface water, human health, or the environment. Furthermore, it does not relieve BP of responsibility for compliance with any federal, state, or local laws and/or regulations.

Please properly plug the remaining monitoring wells per requirements of the New Mexico Office of the State Engineer and forward copies of the plugging reports to Cory Smith at the District III OCD office in Aztec. Thank you.

Respectfully,

Jim Griswold
Environmental Bureau Chief

cc: Cory Smith, OCD District III Office, Aztec, NM
