Farmington, NM 87401

**Re:**    **3RP#**    **Site Name**  
          **465**       **Archuleta GC A 4**

Mr. Moskal:

We have reviewed the files on the release referenced above. The available information indicates BP has met the requirements of 19.15.29-30 NMAC. No further corrective action is required. This referenced remediation project is closed.

This finding by the OCD does not relieve BP of responsibility if future information shows a threat to ground water, surface water, human health, or the environment. Further, it does not relieve BP of responsibility for compliance with any federal, state, or local law.

Please properly plug remaining monitoring wells per requirements of the New Mexico Office of the State Engineer. Thanks.

Respectfully,

Randolph Bayliss, P.E.  
Hydrologist, District III  
505-476-3084
