RE: Authorization to Transport Produced Water, Drilling Fluids and Liquid Oil Field Waste

Mr. Esparza,

The Oil Conservation Division (OCD) recently learned of changes to your authorization to transport produced water drilling fluids, and liquid oil field waste pursuant to 19.15.34.17 NMAC.

Isidoro Esparza dba Windmill Trucking is no longer authorized to transport because the New Mexico Public Regulatory Commission has transferred the warrant to Windmill Trucking, LLC. Please advise immediately that you have ceased transport of produced water, drilling fluids, and liquid oil field waste as Isidoro Esparza dba Windmill Trucking.

The OCD has not issued an approved Form C-133 to Windmill Trucking, LLC. Accordingly, Windmill Trucking, LLC is not authorized to transport produced water, drilling fluids, and liquid oil field waste. Please complete and submit Form C-133 and other required information immediately. You can review the instructions on How to Apply for C-133 (Authorization to Move Produced Water in New Mexico) at the following hyperlink:

<http://www.emnrd.state.nm.us/OCD/documents/20191021HowtoapplyforaC-133INSTRUCTIONS.pdf>.

If you have any questions about this letter or the instructions, please contact Brad Jones at (505) 476-3487 or by email at Brad.A.Jones@state.nm.us.

Respectfully

Adrienne Sandoval
Director
