Subject:	[EXT] Submittal of Annual Report - NGPL's Annual Temporary Discharge Permit No. HBP-034 (Year 2019-2020)
Attachments:	NMOCD Annual Report for NGPL (Final)-signed.pdf

Good Afternoon Brad,

Hope all is well. 🙂

Attached is the electronic version of the Annual Report associated with NGPL's Permit No. HBP-034. The hard copy is in the mail to your office, as well.

Please let me know if you have any questions.

Thanks so much, Amy

Re: 2019-2020 Annual Report for NGPL's Annual Temporary Permission to Discharge Hydrostatic Test Water – Permit: HBP-034

Dear Mr. Jones

Natural Gas Pipeline Company of American (NGPL) is submitting the following annual report as requested in NGPL's Annual Temporary Permit to discharge water from hydrostatic tests from new pipe. This report summarizes each test of new pipe, with less than 25,000 gallons per hydrostatic test event that occurred between **August 18, 2019 and August 18, 2020.**

- NGPL Project Installation of the Targa Delivery Meter Station, located in Lea County, New Mexico: The scope of work involved the installation of 2-inch hot tap riser assembly on the 30" O.D. Permian #1 Line at Milepost 358.9.
 - a. Location: Section 13, Township 20 South, Range 34 East
 - b. Date of the test was September 6, 2019
 - c. The volume of water discharged was approximately 11.5 gallons.
 - d. The source of the water was from a municipal water supply from the City of Hobbs.
- NGPL Project Emergency Replacement of a Segment on the Indian Basin Line, located in Eddy County, New Mexico: The scope of work involved the emergency replacement of approximately 91.3 feet of 20" O.D. pipe due to a pipeline failure that occurred on August 21, 2019.
 - a. Location: Section 36, Township 17 South, Range 27 East
 - b. Date of the test was August 25, 2019
 - c. The volume of water discharged was approximately 2,200 gallons.
 - d. The source of the water was from a municipal water supply from the City of Lovington.

- NGPL Project Hydrostatically Test a Segment of Pipe on the Indian Basin Line at NGPL's Compressor Station No. 167, located in Lea County, New Mexico: The scope of work involved the hydrostatic testing of approximately 600 feet of new 20" O.D. pipe at Station No. 167.
 - a. Location: Section 14, Township 16 South, Range 33 East
 - b. Date of the test was November 20, 2019
 - c. The volume of water discharged was approximately 13,000 gallons.
 - d. The source of the water was from a municipal water supply from the City of Carlsbad.
