Re: **Hydrostatic Test Water Discharge Permit  
Fee Payment**

Dear Ms. Kieling

Pursuant to WQCC Regulation 20 NMAC 6.2.3106.B, ConocoPhillips Midstream submits a check to the NMED Water Quality Management Fund in the amount of \$250 for temporary permission to discharge without an approved discharge plan for a period not to exceed 120 days approximately 5,213 gallons of waste water from the hydrostatic test of approximately 7,880 feet of used gathering system pipeline (4-inch steel line) located in Sections 29, 32 and 33 of T18S, R31E, and Section 4, T19S, R31E NMPM, Eddy County, New Mexico.

Sincerely,

Mark Bishop

**Subject:** FW: Request for Approval to Dispose of Hydrostatic Test Water for Used Pipe

Ms Kielling,

On April 22 I made the below request to dispose of hydrostatic test water at a local facility. I have not had a response from your office concerning my request. I have been asked to again seek approval since we are now paying rent on the storage tank holding the water. If I have made a mistake in my request or sought disposal approval through the wrong channels please let me know as soon as possible.

Mark Bishop

**Subject:** Request for Approval to Dispose of Hydrostatic Test Water for Used Pipe

Ms Kielling,

ConocoPhillips Midstream operations in Eddy County is in the process of reactivating one of our gas gathering pipelines to service our Zia Gas Plant which will require a hydro test to insure integrity. The line is located in Sec 29,32, and 33 of 18S-31E, also in Sec 4-19S-31E. It is a 4", 0.250" wall thickness steel pipeline approx. 7,800' long. The procedure will require 121.23 BBLS of water, which will also be the estimated volume to dispose. The water to be utilized for the test will originate from the town of Lovington municipal water supply and will be stored on location after the test until approval from your office is granted to remove by truck for disposal at the Loco Hills SWD facility, OCD permit # R6811B. Thank you for considering our request.
