Subject: RE: ROC, SWD H-13 Site AP-44

Dear Mr. Reed and Ms. Pope:

OCD is in receipt of the Stage I results and request for Release from Rule 19 dated August 18, 2006 for the EME SWD H-13 Site AP-44 site. After reviewing the submittal OCD is inclined to agree with your conclusions. In order for OCD to release this site it would be helpful if ROC demonstrates that the groundwater gradient is accurate. All of the wells installed are in line and thus any side gradient influence may be missed. Also, it would be helpful if an area map is provided showing the location and the area of review showing the water well study.

Please provide this information within 60 days, otherwise OCD may require a stage II groundwater remediation plan.

Approved.

Please be advised that NMOCD approval of this request does not relieve the owner/operator of Responsibility should their operations fail to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD approval does not relieve the owner/operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: Stage II Deadline Extension Request

May 16, 2006

Mr. Wayne Price:

Highlander Environmental Corp., on behalf of Rice Operating Company is requesting an extension of time for completion of the approved Stage I Abatement Plans for the Rice Operating Company, Justis Jct. L-1 (AP-48); BD Jct. F-17 (AP-47); and EME H-13 (AP-44). The original deadline for submittal of Stage II Abatement Plans is May 31, 2006. Highlander requests an extension of 90 days to complete delineation of these sites. Please advise if you have any comments or require any additional information.

Thank you,

Tim Reed, P.G.

RE: EME H-13 Release Site
PUBLIC NOTIFICATION
NMOCD CASE #AP-44

Mr. Price:

In accordance with Rule 19 (Section 19.15.1.19 NMAC, Subsection G) Public Notice requirements, please accept the enclosed copies of proof that the appropriate individuals and entities were notified of the Stage 1 Abatement Plan submitted by Highlander Environmental Corp. for the H-13 Release Site.

Notices were sent via certified mail to landowners within the prescribed radius and return receipts were received for all landowners, indicating that the mailing was received. Mailings were also sent to the Lea County Commission and the list of Interested Parties found on the New Mexico Oil Conservation Division (OCD) website. Three mail deliveries could not be confirmed so the document was sent via electronic mail (e-mail) to the addresses provided on the list. Thirty-five total notifications were sent and only one was not delivered. The notification to Mike Schultz of the International Technology Corp. (from the OCD Interested Parties list) was return as "attempted—not known." Previous mailings to this address have been refused.

As directed by OCD, the Stage 1 Abatement Plan notifications were published in the *Albuquerque Journal* and the *Hobbs News-Sun* newspapers. Affidavits for these publications are enclosed.

ROC requests that OCD consider public notice complete for this site. Should you have any further questions regarding this request, do not hesitate to contact me. Thank you for your consideration.

ROC is the service provider (operator) for the EME SWD System and has no ownership of any portion of the pipeline, well, or facility. The System is owned by a consortium of oil producers, System Partners, who provide all operating capital on a percentage ownership/usage basis.

Oil Conservation Division

Notice is hereby given that pursuant to New Mexico Oil Conservation Division Regulations, the following Stage I Abatement Plan Proposal has been submitted to the Director of the Oil Conservation Division, 1220 S. St. Francis Dr., Santa Fe, New Mexico 87504, Telephone (505) 476-3440:

Rice Operating Company, Carolyn Doran Haynes, Engineering Manager, Telephone (505) 393-9174, 122 West Taylor, Hobbs, New Mexico 88240, has submitted a Stage I Abatement Plan for an accidental discharge site, located on a pipeline section of the Eunice-Monument-Eumont Salt Water Disposal System. The site is located approximately 4.0 miles southwest of Monument, in Unit Letter H, Section 13, Township 20 South, Range 36 East, Lea County, New Mexico. Rice Operating Company operates a saltwater disposal pipeline at the site. Chloride impact has been observed in the groundwater at the site. The Stage I Abatement Plan proposes the installation of soil borings in the vicinity of the leak in order to further delineate the vertical and horizontal extent of vadose zone impact. Also proposed are two (2) additional monitoring wells to evaluate groundwater impact and hydraulic gradient. A water well inventory will be performed to encompass a one mile radius around the site. The information generated will be evaluated and utilized to develop a groundwater remedy, if necessary. The findings will be presented to the NMOCD in a subsequent Stage II Abatement Plan. Quarterly sampling of all monitor wells will continue until results meet approval of the NMOCD. The monitor well results will be reported annually until closure.

Any interested person may obtain further information from the Oil Conservation Division and may submit written comments to the Director of the Oil Conservation Division at the address given above. The Stage I Abatement Plan Revision Proposal may be viewed at the above address or at the Oil Conservation Division District Office, 1625 N. French Drive, Hobbs, New Mexico 88240, Telephone (505) 393-6161 between 8:00 a.m. and 4:00 p.m., Monday through Friday. Prior to ruling on any proposed Stage I Abatement Plan, the Director of the Oil Conservation Division shall allow at least thirty (30) days after the date of publication of this notice during which written comments may be submitted to him.

**RE: Rice Operating Company
Stage I Abatement Plan Public Notices for
Justis H-2 SWD, Justis Jct. L-1, BD Jct. F-17 and EME H-13**

Dear Mr. Price:

I have attached the proposed State I Abatement Plan Public Notices for the Rice Operating Company, Justis H-2 SWD (AP-49); Justis Jct. L-1 (AP-48); BD Jct. F-17 (AP-47); and EME H-13 (AP-44) for your approval.

Please let me know if you have any comments, or if you require any additional information. Your assistance is greatly appreciated.

Sincerely,

Tim Reed, P.G.
Vice President

NOTICE OF PUBLICATION

**State of New Mexico
Energy, Minerals and Natural Resources Department
Oil Conservation Division**

Notice is hereby given that pursuant to New Mexico Oil Conservation Division Regulations, the following Stage I Abatement Plan Proposal has been submitted to the Director of the Oil Conservation Division, 1220 S. St. Francis Dr., Santa Fe, New Mexico 87504, Telephone (505) 476-3440:

Rice Operating Company, Carolyn Doran Haynes, Engineering Manager, Telephone (505) 393-9174, 122 West Taylor, Hobbs, New Mexico 88240, has submitted a Stage I Abatement Plan for an accidental discharge site, located on a pipeline section of the Eunice-Monument-Eumont Salt Water Disposal System. The site is located approximately 4.0 miles southwest of Monument, in Unit Letter H, Section 13, Township 20 South, Range 36 East, Lea County, New Mexico. Rice Operating Company operates a saltwater disposal pipeline at the site. Chloride impact has been observed in the groundwater at the site. The Stage I Abatement Plan proposes the installation of soil borings in the vicinity of the leak in order to further delineate the vertical and horizontal extent of vadose zone impact. Also proposed are two (2) additional monitoring wells to evaluate groundwater impact and hydraulic gradient. A water well inventory will be performed to encompass a ½ mile radius around the site. The information generated will be evaluated and utilized to develop a groundwater remedy, if necessary. The findings will be presented to the NMOCD in a subsequent Stage II Abatement Plan. Quarterly sampling of all monitor wells will continue until results meet approval of the NMOCD. The monitor well results will be reported annually until closure.

Any interested person may obtain further information from the Oil Conservation Division and may submit written comments to the Director of the Oil Conservation Division at the address given above. The Stage I Abatement Plan Revision Proposal may be viewed at the above address or at the Oil Conservation Division District Office, 1625 N. French Drive, Hobbs, New Mexico 88240, Telephone (505) 393-6161 between 8:00 a.m. and 4:00 p.m., Monday through Friday. Prior to ruling on any proposed Stage I Abatement Plan, the Director of the Oil Conservation Division shall allow at least thirty (30) days after the date of publication of this notice during which written comments may be submitted to him.

**RE: ABATEMENT PLAN PROPOSALS
LEA COUNTY, NEW MEXICO**

Dear Ms. Haynes:

The New Mexico Oil Conservation Division (OCD) has reviewed Rice Operating Company's (Rice) ABATEMENT PLANS. These documents contains Rice's proposed Stage 1 and Stage 2 abatement plans for investigation and remediation of contamination for the sites listed below. Please note OCD has issued each site with a new abatement plan number. Please use this number in the future on all correspondence. The OCD has determined that the below Abatement Plan Proposals are administratively complete.
