File: RGH-4180-986.510.1 x 400.1

Subject: Non-Standard Gas Proration Unit
Langlie "B" Well No. 2
Jalmat Gas Pool

El Paso Natural Gas Company
Bassett Tower
El Paso, Texas

Attention: Mr. R. L. Hamblin

Gentlemen:

Please refer to your letter of April 6, 1955, in which you request information pertaining to notification of our intention to form a 120-acre non-standard gas proration unit in the NW/4 of Section 15, Township 25 South, Range 37 East, Lea County, New Mexico.

Your letter states that you own and operate the SW/4 of the aforementioned Section 15. At the time our application was filed, our records indicated that this acreage was owned and operated by Anderson-Prichard Oil Corporation, and in accordance with the provisions of Commission Order No. R-520, Anderson-Prichard was notified of our application for the subject unit.

Yours very truly,

Re: Stanolind Oil and Gas Co.
Langlie "B" #2 Well,
NW/4 NW/4 Section 15,
T-25-S, R-37-E, N.M.P.M.
New Mexico Oil Conservation
Commission Order #NSP #80

Gentlemen:

We have just been advised that the New Mexico Oil Conservation Commission by Order #NSP 80 administratively approved your application for a 120 Non-Standard Gas Proration Unit to be dedicated to your Langlie B #2 Well which is located in the NW/4 NW/4 Section 15, Township 25 South, Range 37 East, N.M.P.M., Jalmat Gas Pool, Lea County, New Mexico.

El Paso Natural Gas Company is the owner of the Gas Operating Rights under the SW/4 of Section 15, Township 25 South, Range 37 East, N.M.P.M.

We would appreciate your advising us when and to whom in our company you addressed your notification pertaining to your intention to form said unit.

Very truly yours,

R L Hamblin

SUBJECT: Application For Exception To
Rule 2 and 5(a) Order No. R-520
Stanolind Oil and Gas Company
J. P. Langlie "B" No. 2, Jalmat
Field

Mr. W. B. Macey
New Mexico Oil
Conservation Commission (3)
Box 871
Santa Fe, New Mexico

Dear Sir:

Under the provisions of Commission Order No. R-520, Rules 3 and 5(b), delegating the Secretary of the Commission authority to grant exceptions to the requirements of Rule No. 2 and No. 5(a) without notice and hearing for an unorthodox location and non-standard gas proration unit, respectively, Stanolind Oil and Gas Company hereby applies for an exception to the aforementioned two rules for J. P. Langlie "B" No. 2, Jalmat Field.

In support of the above application, the following data are furnished:

J. P. Langlie "B" No. 2 is located 660' from the North line and 660' from the West line of Section 15, T-25-S, R-37-E. It was drilled as a Langlie Field test to a total depth of 3458' on September 11, 1937. No commercial shows of oil were obtained, and, after being plugged back to 3147' in the casing, it was temporarily abandoned pending a gas market. Application to recomplete the well for gas was made by USGS Form 9-331a, dated August 22, 1944, and was approved August 31, 1944. Subsequently, interval 2852'-2892' opposite the Yates formation was perforated, and the well completed on February 24, 1945, for 4200 MCFPD absolute open flow as calculated from a four-point back pressure test.

Concerning the exception to Rule No. 2, we wish to state the following:

- (A) The unorthodox location was occasioned by the recompletion of the well previously drilled to another horizon.
- (B) All operators within a 1980' radius of the subject well have been furnished a copy of this application.

With regard to the exception to Rule No. 5(a), we wish to state the following:

- (A) That the proposed non-standard gas proration unit of 120 acres consisting of the W/2 and SE/4 of NW/4 Section 15, T-25-S, R-37-E, is composed of contiguous quarter-quarter sections.
- (B) That the proposed non-standard gas proration unit lies wholly within a single governmental section.
- (C) That the entire proposed non-standard gas proration unit may reasonably be presumed to be productive of gas.
- (D) That the length or width of the proposed non-standard gas proration unit does not exceed 5280'.
- (E) That the entire proposed non-standard gas proration unit lies within the horizontal limits of the Jalmat Gas Pool.
- (F) That by copy of this letter of application all operators owning interest in the section in which the non-standard gas proration unit is situated and which acreage is not included in said non-standard gas proration unit and all operators owning interest within 1500' of the well have been notified by registered mail of this application.

Yours very truly,

Ralph L. Hendrickson
