NSP-150 - DC-199
E. E. Blinebry (NCT-1) Well No. 1
Lea County, New Mexico

New Mexico Oil Conservation
Commission
P. O. Box 871
Santa Fe, New Mexico

Attention: Mr. A. L. Porter

Gentlemen:

By letter dated June 7, 1955, from Mr. W. B. Macey, Secretary-Director, The Texas Company was given administrative approval for a non-standard proration unit for the Jalmat Gas Pool covering 316 acres to be assigned to the E. E. Blinebry (NCT-1) Well No. 4. Shortly thereafter, administrative approval was received for a dual completion for this well between the Jalmat Gas and Langlie Mattix Oil Pools. In drilling the well oil production was obtained within the vertical limits of the Jalmat Gas Pool. Therefore, the non-standard proration unit, as granted by NSP-150, and the dual completion permit, as granted by DC-199, were not effective.

In order that your records can be cleared, The Texas Company is hereby requesting that NSP-150 and DC-199 be cancelled.

Yours very truly,

H. N. Wade
Petroleum Engineer
