Attention: Mr. William J. LeMay - Director

Gentlemen:

Chevron U.S.A. Inc. respectfully requests administrative approval to amend Order NSP-152 by reducing the 320-acre non-standard Eumont Gas Proration Unit to a 280-acre non-standard gas proration unit. The reason for the reduction is due to recently completing the H. T. Mattern (NCT-A) Well No. 5 as a Eumont Oil well. This well is located 660' FSL and 990' FWL of Unit M, Section 24, T-21-S, R-36-E, Lea County, New Mexico. At this time we are also requesting to simultaneously dedicate the H. T. Mattern (NCT-A) Well No. 2 along with the H. T. Mattern (NCT-A) Well No. 1 to the above listed 280-acre non-standard gas proration unit. The 280-acre proration unit will be formed by deleting the SW/4 SW/4 of said Section 24 from the current proration unit. In support thereof, Chevron U.S.A. Inc. states the following facts:

- 1) Order NSP-152 dated June 15, 1955, approved a 320-acre non-standard gas proration unit in the Eumont Gas Pool comprising the S/2 of Section 24, all in T-21-S, R-36-E, NMPM, Lea County, New Mexico.
- 2) That Chevrons' H. T. Mattern (NCT-A) Well No. 5 located

in Unit M of Section 24, T-21-S, R-36-E, has recently been completed as a Eumont oil well. This reduces the non-standard proration unit for Well No. 1 to 280-acres.

- 3) That Chevrons' H. T. Mattern (NCT-A) Well No. 2 located in Unit J of Section 24, T-21-S, R-36-E, has recently been approved by District N.M.O.C.D. for recompletion into the Eumont gas zone, and we wish to simultaneously dedicate this well with the H.T. Mattern (NCT-A) Well No. 1.

Attached is a plat outlining the proposed non-standard Gas Proration Unit, and a map showing all offset properties and wells.

In view of the facts submitted, Chevron U.S.A. Inc. requests that administrative approval of the amendment to Order NSP-152 and Simultaneous Dedication be granted. If further information is required, please contact myself or David Bohon at (915) 687-7246 or (915) 687-7148, respectively.

Very Truly Yours

Gentlemen:

Attached is a copy of Chevron's administrative application for NMOCD approval for an amendment to Order NSP-152 concerning a Non-Standard Gas Proration Unit and simultaneous dedication in the Eumont (Pro-Gas) Pool.

Due to recently completing the H.T. Mattern (NCT-A) Well No. 5 as an oil well within an existing 320-acre Eumont Gas Proration Unit, it is necessary to reduce this unit to a 280-acre Eumont Gas Proration Unit. This unit will comprise the S/2 of Section 24, save and except the SW/4 SW/4 of the same. All 280-acres are to be simultaneously dedicated to the existing H. T. Mattern (NCT-A) Well No. 1, and to the H.T. Mattern (NCT-A) Well No. 2 which is currently pending recompletion in the Eumont gas pool. The H. T. Mattern (NCT-A) Well No. 5 is located 660' FSL and 990' FWL of Unit M, Section 24, T-21-S, R-36-E.

To prevent waste, Chevron is requesting the NMOCD to grant approval of this proposed amendment to Order NSP-152 and simultaneous dedication and form the 280-acre non-standard Eumont Gas Proration Unit. As an offset operator, if you do not have any objections to the attached application, please sign the enclosed waivers and mail the original and two copies to the NMOCD in Santa Fe and one copy to the NMOCD in Hobbs. We would also request that you send a copy to Chevron U.S.A. Inc. in Midland. We have enclosed self-addressed, stamped envelopes for your convenience.

If you have any questions, please contact Mr. A. W. Bohling at (915) 687-7246. Your prompt consideration in the above matter is appreciated.
