Subject: [EXT] XTO Extension Request- New Mexico S State #35 (1RP-5696)

All,

XTO is requesting an extension to the current deadline of November 25, 2019 for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at the New Mexico S State #35 (1RP-5696). The release was discovered August 27, 2019 and initial site assessment began September 10, 2019. Fluids were released to the pasture due to external corrosion of a flow line. A Right of Entry (ROE) Permit was submitted to the State Land Office (SLO) on October 2, 2019. The executed permit is still pending. To provide enough time for further site assessment of the pasture, remediation work, and completion of a remediation work plan or closure report, XTO requests an extension of the deadline to March 27, 2020.

Thank you,

Kalei Jennings
