Cause of Rele	ease	I				
A fuse burned out and caused the high level alarm at the battery to fail. The transfer pump did not receive the signal to turn on and a tank overflowed into the earthen containment surrounding the tanks. Vacuum trucks were dispatched and recovered all standing fluid. An environmental contractor will be retained to assist with remediation efforts.

Was this a major	If YES, for what reason(s) does the respon	sible party consider this a major release?					
release as defined by 19.15.29.7(A) NMAC?	This is an unauthorized release of a volume	e of 25 barrels or more.					
☐ Yes ☐ No							
If YES, was immediate no	If YES, was immediate notice given to the OCD? By whom? To whom? When and by what means (phone, email, etc)?						
Yes, notice was provided by Jacob Foust to Mike Bratcher/Maria Pruett of the OCD and Ryan Mann of the SLO on 8/21/2018 at 10:58 am by email.							
Initial Response							
The responsible party must undertake the following actions immediately unless they could create a safety hazard that would result in injury							
The source of the release has been stopped.							
	s been secured to protect human health and	he environment.					
		kes, absorbent pads, or other containment devices.					
All free liquids and recoverable materials have been removed and managed appropriately.							
If all the actions described	d above have not been undertaken, explain w	hy:					
Dar 10 15 20 9 D (4) NIM	AC the responsible marty may common as no	modiation immediately often discovery of a value of free disting					
Per 19.15.29.8 B. (4) NMAC the responsible party may commence remediation immediately after discovery of a release. If remediation has begun, please attach a narrative of actions to date. If remedial efforts have been successfully completed or if the release occurred within a lined containment area (see 19.15.29.11(A)(5)(a) NMAC), please attach all information needed for closure evaluation.							
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to OCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater, surface water, human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
