Subject: [EXT] XTO-Extension Request-James Ranch Unit #034 (2RP-5553)

All,

XTO is requesting a second extension for the current deadline of January 4, 2019 for submitting a remediation work plan or closure report required in 19.15.29.12.B.(1) NMAC at James Ranch Unit #034 (2RP-5553). The release was discovered July 10, 2019. Initial site assessment began August 15, 2019. The fluids were released to the power line Right of Way (ROW). A Right of Entry (ROE) Permit was submitted to the State Land Office (SLO). Approval for access from the SLO was received November 14, 2019. Further site assessment and remediation work began in early December. Laboratory analytical results from confirmation samples indicate further remediation work is warranted. To provide enough time to finalize remediation work and complete of a remediation work plan or closure report, XTO is requesting a second 90-day extension of the current deadline to March 4, 2020.

Thank you,

Tacoma Morrissey
