To Whom It May Concern,

A borehole was installed for the above referenced site in order to demonstrate that depth to groundwater is greater than 50-feet BGS in the project area. The borehole location was installed at the Gold Coast 26 Federal SWD 1(32.188027 -103.646997).

On December 15, 2020, COG Operating LLC installed a soil boring to a depth of 55' and no groundwater was encountered during the installation. As OCD recommends, the borehole will remain open for 72 hours prior to gauging the borehole for the presence of groundwater. We are tentatively schedule to gauge the borehole on Friday morning (12/18/20). Once gauged, the borehole will be plugged by the licensed driller. Let us know if you would like to be present to witness the gauging. Thank you
