To whom it may concern:

On behalf of Enduring Resources and Whiptail Midstream, WSP is providing notice to perform confirmation soil sampling of the remedial excavation at the Chaco 2308 03L #404H Site on December 30, 2020 at 12:30 p.m.. The site is located at latitude 36.25506 and longitude -107.67775. Confirmation sampling will be performed in accordance with the *Site Characterization Report and Remediation Work Plan*, prepared by WSP and submitted to the NMOCD on November 13, 2020. Specifically, due to the size of the excavation, the work plan requested a variance for the frequency of excavation floor and sidewall samples to one 5-point composite sample for each 400 square feet of area.

Please feel free to call or email with any questions or concerns. Thanks and have a great holiday.
