Closure

The responsible party must attach information demonstrating they have complied with all applicable closure requirements and any conditions or directives of the OCD. This demonstration should be in the form of a comprehensive report (electronic submittals in .pdf format are preferred) including a scaled site map, sampling diagrams, relevant field notes, photographs of any excavation prior to backfilling, laboratory data including chain of custody documents of final sampling, and a narrative of the remedial activities. Refer to 19.15.29.12 NMAC.

N/A due to release report is a flare event.	
☐ A scaled site and sampling diagram as described in 19.15.29.11 NMAC	
Photographs of the remediated site prior to backfill or photos of the liner integrity if applicable (Note: appropriate C must be notified 2 days prior to liner inspection)	OCD District office
☐ Laboratory analyses of final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate ODC District office must be notified 2 days prior to final sampling (Note: appropriate DDC District office must be notified 2 days prior to final sampling (Not	ampling)
Description of remediation activities	
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pur and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for may endanger public health or the environment. The acceptance of a C-141 report by the OCD does not relieve the operator should their operations have failed to adequately investigate and remediate contamination that pose a threat to groundwater human health or the environment. In addition, OCD acceptance of a C-141 report does not relieve the operator of responsic compliance with any other federal, state, or local laws and/or regulations. The responsible party acknowledges they must serestore, reclaim, and re-vegetate the impacted surface area to the conditions that existed prior to the release or their final lar accordance with 19.15.29.13 NMAC including notification to the OCD when reclamation and re-vegetation are complete.	or releases which or of liability r, surface water, ibility for substantially
