FASKEN Oil
Aaron Pachlhofer

The release identified as 1R-4232/nJXK1609650742 is DEFERRED as per Rule.

Please keep a copy of this communication for your records as no paper copy will follow.

Sincerely,

Bradford Billings
EMNRD/OCD

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations

Brad, see attached.

Please also get me a closure note on 1RP-2197 as you noted yesterday.

Thanks,

Aaron

Sorry,

No I need a clean one that I can attend with signature and notes for the file, You can send the info on the new C-141 Form with the deferral section in the closure request. Look at form I am sure you will find it, and then email to me. Thanks

Brad

Importance: High

I can't attached my file for 1RP-4232...it is way too big at 96mb. Can you revisit the files I uploaded via FTP?

And for the record, I still think this could be closed and not deferred.

Please let me know ASAP if you need me to get the file to you some other way. I might be able to do a drop box or something.

Thanks,

Aaron

Subject: RE: Sites/Numerous Closures and Deferrals - Two questions

Hi Aaron,

Please send data on 2197 and if possible the tech file on 4232. I know it is an ask, but... if you can get to me quickly (early next week, I will have answers for you next week. Thanks and stay safe.

Bradford

Subject: [EXT] FW: Sites/Numerous Closures and Deferrals - Two questions

Gents,

Since there is a considerable email chain, here are the two questions that I asked on March 12th:

1. For 1RP-2197, you have this listed as deferred, not closed. In our meeting in Santa Fe, you asked for a sample to be collected to confirm that no TPH was present at this location. The lab results were uploaded through the FTP. If not, I have them available for you.
2. 1RP-4232 is missing from the list. I show that it was to be deferred. In the list of deferred sites, you have 1RP-1825 twice, so this appears to be a simple typo, but I thought I would confirm with you.

Thanks,

Aaron

Brad,

I thought I might re-send this email since it has been since March 30th. I hope you are well.

Thanks,

Aaron Pachlhofer

Brad,

I know the world has gone crazy. However please try to have a look at the two notes below.

Thanks,

Aaron

Brad, I will double check my list of RP numbers and let you know if there is anything left off the list. I appreciate that you got to us and got everything reviewed. Sorry to have bugged you, but sometimes you have to be the squeaky wheel....

3/9/3030

Aaron Pachlhofer – Fasken

Below are site listings, either closed or deferred at this time by the Oil Conservation Division (OCD). As you know, the files available and offered by Fasken for these Fasken issues were/are often in disarray and it took some considerable time to piece many aspects of them together to make sense and attain decision level accountability. The OCD is sure

you are aware, that certain field and report activities that may have been allowed in the past, with current Rule structure would not be acceptable. As much latitude as possible has been used in our considerations/determinations.

It may take some time for the current catalog of sites and the decisions made on them to be uploaded into OCD data base, but it will be done as soon as possible.

Sites APPROVED for Closure: 2R-4901, 1R's -1064, -1301, -2932, -3495, -3602, -3631, -1393, -1513, -5041, 2915, 934, 5402, 475, 2259, 2283 and 4169.

Sites APPROVED for Deferral: 1R's -2197, 1090, 1825, 4298 and 1825.

These decisions are in general agreement with our last meeting. I believe this accommodates all the Fasken sites that we had discussions about. Please keep in mind, that Fasken will still be responsible to Section 13 (dealing with restoration) even with closure in hand.

Thank you for your patience.

Sincerely,

Bradford Billings
EMNRD/OCD
Santa Fe, NM

NOTE: The OCD will be opening an office in Albuquerque, NM this week. I will be in that office. By next week information will likely be on OCD website regarding address and new telephone numbers.
