

NEW MEXICO
OIL CONSERVATION COMMISSION

FIELD TRIP REPORT

Date April 11, 1968

Name of Employee J. E. Kapteina

Time of Departure 8:00 AM Time of Return 4:00 PM

Miles Travelled 400

In the space below please indicate purpose of trip and duties performed, listing wells or leases visited.

Inspection of well site of S&S Oil Producers' Bond #1A, located in Sec. 17, T9N, R14W, NMPM, Valencia County, NM. Reported as P&A on Nov. 15, 1967 - C-103 Rec'd Feb. 9, 1968.

Drilling Rig has not been removed from the location, marker consisting of 2" pipe cemented in hole under rig floor at height which will allow removal of rig. When cellar has been filled, marker will protrude from ground to height above mean ground level of about 1 foot. Pits have not been filled and considerable debris is spread over location.

This office was not notified of operators intention to plug well prior to plugging operations, the plugging program was not prescribed by a Commission staff member, thus, witnessing of actual plugging by a Commission representative was made impossible.

Recommend bond be continued in effect until requirements are met for final approval Jek
