Mosquero, New Mexico

Re: Iceco, Incorporated
Remedial work on
Libby #1, Libby #2
& De Baca #2 CO₂
Wells Hueyeros Field
HARDING COUNTY

Dear August,

Please find enclosed your approved copies of Reports on Repairing the above captioned wells as submitted by you on Form C-103.

I want to remind you that it is still imperative that individual metering devices be installed on each well or at a point where each well's production may be accurately gauged.

Since the #1 Libby well was deepened 67' to 2115', I would like a cut of that interval's samples if one is available.

I'll try to stop by the plant on my trip next week.

Kindest personal regards,

EAC

Eugene A. Chavez
Oil & Gas Inspector-Dist. #4
