DEAR SENATOR:

Very respectfully,

Very truly yours,

KELLY-MOORE AND RADER

August 2, 1955

New Mexico Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Gentlemen:

Request is hereby made for administrative approval of unorthodox location, pursuant to Oil Conservation Commission Rule 104 (f), for the following wells:

Lloyd Gambrel No. 1
585' SL & 372' EL
Sec. 23, T-20N, R-26E
NMPM, Harding County, New Mexico

Lloyd Gambrel No. 2
1650' SL & 330' EL
Sec. 23, T-20N, R-26E
NMPM, Harding County, New Mexico

The reason for requesting the unorthodox locations for these wells is that they were originally spudded as uranium test holes and plans are now to deepen them and test for oil and gas.

In accordance with Rule 104 (f) paragraph 2 a), the ownership of all oil and gas leases within a radius of 660 feet of the proposed locations is common with the ownership of oil and gas leases under the proposed locations.

Your approval of these unorthodox locations at your earliest convenience will be appreciated.
