Re: The U. S. Frigidice
Kayser No. 1

Dear Sir:

Since you have accepted responsibility for this well under your \$10,000.00 blanket plugging bond, we would like at your earliest convenience a definite commitment as to your intention for correcting the leakage of gas at this well. You will recall that I advised you, in my office, that this well was leaking gas outside the casing and that remedial work to correct this situation was in order. This situation has prevailed for some time and we feel that correction of this condition is long overdue.

Very truly yours,

ELVIS A. UTZ
Gas Engineer
