Re. Jeoffroy Well No. #1,
Section 21, Township 23
North, Range 22 East,
Mora County, New Mexico.

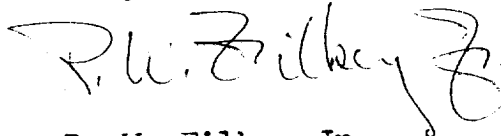

Gentlemen:

In reference of my letter to Mr. Richard S. Morris on June 11, 1962, I have since been in contact with Mr. Willard C. Franks by telephone. After much discussion he had informed me that the land owners were interested in converting said well into a water well for ranch purposes.

Therefore, with your approval, would you please send me all the necessary forms that are needed in completing said transaction.

Thanking you again for your understanding in this matter, I remain,

Very truly yours,

R. W. Filkey Jr.

RWFJr/jr

cc: Mr. Roscoe Pursley,

Re: Jeoffroy Well No. 1,
Section 21, Township 23
North, Range 22 East,
Mora County, New Mexico

Dear Mr. Morris:

In reference to your letter of June 4, 1962 of which I received today (forwarded from Denver, Colorado) I am going to contact Mr. Willard C. Franks immediately as to the decision of what to do with Jeoffroy Well No. 1. Also, I'll be informed at that time as to the status of said well; for which, upon receiving said information I'll relay the same onto your office.

Hoping that this meets with your approval, I remain,

Very truly yours,

R. W. Filkey Jr.

Dear Sir:

Re: Jeffroy well No. 1
S 21, T 23 N, R 22 E
Mora County, N. M.

Your letter of June 4th, 1962 was forwarded to me from Springer, N. M., and I regret the delay.

After filing my report Form C-102 I came home from New Mexico and do not know what work was performed on the captioned well after I came away as Mr. Reg Filkey and Mr. Roscoe Pursley were there doing the work. They have never reported to me in regard to the nature of the work.

However, after running casing and perforating there was a heavy flow of water and many months later Mr. Jeffroy stated that he had requested permission of your Commission to convert the well into a water well for ranch use as it was cased, and the casing still remains in the well on which Mr. Jeffroy welded a cap pending the conversion.

I assumed that Mr. Pursley had followed the necessary procedure in converting the well by filing the proper forms with you along with the written request for the conversion by Mr. Jeffroy.

I am forwarding your letter to Mr. Reg Filkey Jr., Hawkinson Tire Tread Co., Market at Theresa, St. Louis, Missouri as he represented the St. Louis interests in the operation.

I do not know the present whereabouts of Mr. Pursley but I am sure your letter will reach him. And in the event that I can be of service to the operators of this well in way of filing such forms and reports as are required under your regulations I shall be happy to do so if Mr. Filkey and Mr. Pursley will contact me which they have not done since they left New Mexico except on occasion when I called Mr. Pursley in regard to the New Mexico operation.

If I can be of service to you in any way I shall appreciate the opportunity.

Yours very truly,

Willard C. Franks

Mr. Reg Filkey Jr.
Hawkinson Tira Service Co.
Market at Theresa
St. Louis, Missouri

Dear Reg:

Enclosed is a letter from the Special Assistant to the Attorney General of New Mexico associated with the Oil and Gas Conservation Commission, which is self-explanatory.

After leaving New Mexico I never learned the extent of your work on the Jeoffroy well nor your future plans relating to the well although Mr. Jeoffroy told me many months later that he had requested permission to convert the well to water use on his ranch. But to do this requires certain forms to be filed with the Commission as set forth in the Rules and Regulations supplied by the Commission.

This matter is urgent and should be attended to at once; and if I can be of service to you and Roscoe in complying with the regulations I shall do so.

Should Roscoe be in Denver at any time he might call me as I have never heard from him since he left New Mexico except on the one occasion that I called him relative to the Jeoffroy well. His plans seemed to me rather indefinite at the time and I have never heard from him or you either since operations ceased on the well.

Should you and Roscoe would want me to assist you in regard to preparing the proper reports I would suggest that you prepare a detailed statement of the work done on the well, amount of casing run, size and weight which will be listed in the invoices, and a written request from the present owners of the land for permission to use the well for ranch purposes can be acquired then special forms from the Commission covering the conversion will be necessary. Kindly advise.

Yours very truly,

enc/1

Gentlemen:

The Commission has received no report on the subject well since June 22, 1959, at which time Mr. Willard Franks filed Form C-102 indicating his intention to shoot the well and also stating that the well had been temporarily abandoned.

The Commission would appreciate being informed of the status of the subject well. If the well is to be plugged, please contact Mr. James E. Kapteina at the Commission's Santa Fe office for further instructions.

Please advise this office by June 15, 1962 of the status of the well.

Very truly yours,

RICHARD S. MORRIS
