RE: Alamo Permian \* WAGU 012 \* 30-015-02649 \* L-8-18s-28e \* Eddy County, New Mexico  
NMOCD Tracking Number: 2RP-2302 \* Date of release: 5/13/2014

Vernon,

Your proposal to remove 1' of material inside the bermed area of the facility is approved. OCD will require a complete delineation of all impacted areas to show clean or, to the maximum extent practicable. OCD will review the analytical data, and make a determination based on that data, for your proposal to complete remediation upon closure of facility. Please notify the OCD District 2 Office prior to commencement of remedial activities.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
