RE: Linn * Turner B #47 * 30-015-05435 * **2RP-707** * **2RP-1668**

Ms. Gladden,

Option **One** of your Remediation Work Plan is approved with the following exceptions:

The area of the 2011 release is approved as written.

In the area of the 2013 release, I'm not sure of the intention with SP5, but a 2' excavation should suffice. SP6 should be tilled and reseeded along with SP7-SP12.

BLM approval is required.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather Patterson
Environmental Specialist
NMOCD District II
