Chase,

You are approved to use this excavated soil for backfill.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Attached are the analytical results for the above listed location from sampling of the excavated soil that has been under remediation for at least 90 days. All results are under the RRAL for site ranking (0), Yates Petroleum Corporation now requests approval to commence with backfilling of the excavation in continuation of the approved Work Plan submitted May 5, 2014.

Thanks,
