Attachments: Closure Report, Cypress 28 Federal #3H.pdf

Ms. Patterson,

Based on the results from samples taken in the overspray area, we addressed the DRO by excavating 1 foot of impacted soil and backfilling the excavation with clean soil. The samples results by which we based our decision can be viewed on page 12 of the closure report. I apologize for any confusion.

Ms. Purvis,

What work was done in the overspray area to address the high DRO numbers?

Heather Patterson
