I talked to David, the area that was left at 1.5-feet was between the S-1/S-2 area transitioning to S-3. S-3 moving East was excavated to 3-feet. Essentially there was a hump under the fence with a slope down to the final depths on each side.

Heather,

We ended up going 3-feet instead of 2.5-feet.

Sheldon,

What excavation depths did you reach in the area of S-3? I have notes in the file that conflict with

the closure report.

Mike,

The closure report for the Wersell is attached, along with the signed final C-141. Please let me know if you have any questions or concerns.

Respectfully,

Sheldon L. Hitchcock
