Subject: RE: COG Operating - Loving State #2 and Myox 32 Fee 2H - Work Plans Approval Request

Reference: COG * Myox 32 Fee 2H * 30-015-41521 * C-32-25s-28e * Eddy County, New Mexico
OCD Tracking number: 2RP-1974 * Date of release: 9/30/13

Ike,

Your proposal for remediation of the above referenced produced fluid release is approved. Please notify OCD prior to commencement of remedial activities, and in the event proposed excavation depths are not achieved. Once delineation data is obtained from AH-1 and AH-2, please contact me to discuss further remedial proposals.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

NOTE: OCD inadvertently assigned two RP numbers for this release (2RP-1974 and 2RP-2110). 2RP-1974 will be utilized and 2RP-2110 will be deleted from OCD data base.

If you have any questions or concerns, and for notification, please contact me.

Mike,

Please find the enclosed COG -Work Plans for the above referenced sites located in Eddy County, New Mexico. The work plans includes the soil assessments and recommendations for remediation for each of the sites. I will mail you a hard copy of the work plans for your files. Once approved, Tetra Tech will schedule the soil remediation and notify you prior to implementing the work plan. Please let me know if you need additional information or call me if you have any questions, thanks
